Hard Living on Clay Street Joseph T. Howell, 1985-06 This book chronicles the lives of two neighboring families of Howell as he was part of a team of researchers whose primary objective was to study a lower income white working class community *Hard Living on Clay Street* Joseph T. Howell, 1972 *White Trash* Annalee Newitz, Matt Wray, 2013-09-13 This collection is devoted to exploring stereotypes about the social conditions of poor whites in the United States and comparing these stereotypes with the social reality **White Trash** John King, 2001 Dette er en fortelling om klassehat og mord stedet er et sykehus i en drabantby i S r st England En fortelling om den klassiske kampen mellom det gode og det onde setter Ruby en sykepleier opp mot mr Jeffries en konsulent fra den vre middelklasse **When a Heart Turns Rock Solid** Timothy Black, 2009 Based on an 18 year study this work offers a look at how jobs schools and prison have affected the lives and choices of a generation of Puerto Rican youth at the turn of the 21st century **When Older Women Speak** Ester Carolina Apesoa-Varano, Charles Varano, 2020-03-17 Studying the interaction of gender class race ethnicity and aging in the depression experience of older women provides a unique opportunity to understand how aging plays a significant role in shaping conceptions of self and emotional health trajectories for women Based on author interviews with mostly working class depressed elderly women this book contributes to the theoretical understanding of femininity and aging and the practical implications for policy and effective health care treatment Cultivating an alternative self can reduce older women s suffering and provide the emotional resources to change their inner worlds even if the outer world stretches beyond their control Depression affects women twice as often as men Up to 40 percent of older adults respond poorly to depression treatment and depression is linked to higher morbidity and mortality rates and cognitive decline Older adults with depression have 50 percent higher health care costs yet depression is accurately recognized in less than one half of older adults in primary care While older men are more likely to die by suicide older women are two to three times more likely to attempt suicide and depression is the best predictor of suicide in older adults Latina and African American women have lower rates of depression treatment compared to non minority women From issues of health care access to the stigma of depression older Latinas and African American women are at an increased risk for untreated depression This book seeks to address some of the significant gaps in our knowledge of late life depression in women especially in ethnic minorities ranging from detection and efficacy of depression treatment to informal influences e g family on formal depression care seeking **Outclassed** Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands In *Outclassed* Joan C Williams explains how to reverse that process by

bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country's COVID response to the lawyer who led the ACLU's gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice Outclassed offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

Neighborhood Poverty Jeanne Brooks-Gunn, Greg Duncan, J. Lawrence Aber, 1997-11-13 Perhaps the most alarming phenomenon in American cities has been the transformation of many neighborhoods into isolated ghettos where poverty is the norm and violent crime drug use out of wedlock births and soaring school dropout rates are rampant Public concern over these destitute areas has focused on their most vulnerable inhabitants children and adolescents How profoundly does neighborhood poverty endanger their well being and development Is the influence of neighborhood more powerful than that of the family Neighborhood Poverty approaches these questions with an insightful and wide ranging investigation into the effect of community poverty on children's physical health cognitive and verbal abilities educational attainment and social adjustment This two volume set offers the most current research and analysis from experts in the fields of child development social psychology sociology and economics Drawing from national and city based sources Volume I reports the empirical evidence concerning the relationship between children and community As the essays demonstrate poverty entails a host of problems that affects the quality of educational recreational and child care services Poor neighborhoods usually share other negative features particularly racial segregation and a preponderance of single mother families that may adversely affect children Yet children are not equally susceptible to the pitfalls of deprived communities Neighborhood has different effects depending on a child's age race and gender while parenting techniques and a family's degree of community involvement also serve as mitigating factors Volume II incorporates empirical data on neighborhood poverty into discussions of policy and program development The contributors point to promising community initiatives and suggest methods to strengthen neighborhood based service programs for children Several essays analyze the conceptual and methodological issues surrounding the measurement of neighborhood characteristics These essays focus on the need to expand scientific insight into urban poverty by drawing on broader pools of ethnographic epidemiological and quantitative data Volume II explores the possibilities for a richer and more well rounded understanding of neighborhood and poverty issues To grasp the human cost of poverty we must clearly understand how living in distressed neighborhoods impairs children's ability to function at every level Neighborhood Poverty explores the multiple and complex paths between community family and childhood development

These two volumes provide an indispensable guide for social policy and demonstrate the power of interdisciplinary social science to probe complex social issues

Crooks and Squares Malin Akerstrom, 2022-11-07 *Crooks and Squares* is a study of crime as a way of life. By interviewing drug addicts and property criminals, Malin Akerstrom presents a study of the demands, attractions, and drawbacks of criminal lifestyles

The Review of Italian American Studies Frank M. Sorrentino, Jerome Krase, 2000-01-01 This collection of articles examines the complex nature of identity in the Italian American community. Sorrentino and Krase have constructed a volume that covers topics of diverse interest such as the development of Italian American literary studies and the integration of a uniquely Italian American sensibility into a larger and dominant idea of European American culture. As an erudite examination of contemporary studies being done on one of the largest ethnic groups in the United States, this work is an essential addition to the ongoing and contentious debates about the nature of ethnicity, identity, assimilation, and acculturation in the United States

Jamaican Speech Forms in Ethiopia Rosanna Masiola, 2015-04-01 This book is the first systematic cross-disciplinary survey on the use of Jamaican English in Ethiopia, describing the dynamics of language acquisition in a multi-lingual and multicultural context. It is the result of over eight years' worth of research conducted in both Jamaica and Africa and is a recognition of the trans-cultural influence of the Repatriation Movement and other diasporic movements. The method and materials adopted in this book point to a constant spread and diffusion of Jamaican culture in Ethiopia. This is reinforced by the universalistic appeal of Rastafarianism and Reggae music and their ability to transcend borders. The data gathered here focus on how an Anglophone-based Creole has developed new speech forms and has been hybridized and cross-fertilized in contact situations and by new media sources. The book focuses on the use of Jamaican English in four particular domains: namely, school, street, family, and the music studio. Its findings are drawn from an exceptional range of sources such as field work and video recordings, interviews, web-mediated communication, artistic performance, and relevant transcriptions. These sources highlight five topics of relevance: language acquisition and choice, English and Jamaican speech forms, hegemonic and minority groups, Rastafarian culture, and Reggae music, which are explored in further detail throughout the book. These salient features in turn interface with the dynamics of influencing factors, reinforcing circumstances, significance, and change. The book represents a journey to the extreme outer circle of English language use, following a circular route away from Africa and back again, with all the languages used and lost along the slavery route and inside the plantation complex, developing into creolized speech forms and Creoles. Such language use is now making its way back to Africa, with all the incendiary creativity of Reggae and resonant with Rastafarian language

Metal Scrappers and Thieves Benjamin F. Stickle, 2017-07-19 This book explores the little-known world of scrappers and metal thieves. Benjamin F. Stickle bases his study on field research collected while traversing communities with thieves and scrappers. Drawing on candid interviews, observations of criminals at work, and participation in the scrapping subculture, the volume describes the subculture of scrappers and identifies differences between scrappers and metal thieves.

Through the offenders perspective often quoting their candid responses Stickle explores the motivations for metal theft as well as the techniques and methods for successfully committing theft The book discusses how these methods and techniques are learned and identifies ways often through the thieves own words to prevent metal theft Throughout the book Stickle also challenges common assumptions about this community and identifies wider policy implications Shared Wisdom Pamela Cooper-White,2024-11-19 For twenty years educators caregivers psychotherapists and theologians have turned to Pamela Cooper White s *Shared Wisdom* on the dynamics between caregivers and care seekers Now Cooper White updates her groundbreaking book to present new insights on how understanding one s own emotional reactions remains a core competency for ministry **Mount Rainier** Bryan Knedler and Jimmy Tarlau,2016 Mount Rainier began its history as an incorporated town in 1910 with the merging of several subdivisions that straddled Bunker Hill Road a major route between the ports of Georgetown and Bladensburg Before the Civil War Thomas and Anna Clemson owned a 100 acre farm that fronted on that important road Their family letters provide some of the earliest writings about the area In 1891 Elizabeth and Estcourt Sawyer purchased the Clemson farm and named their subdivision Mount Rainier In 1899 the real estate became especially attractive to commuters when the District of Columbia s streetcar system was extended through the heart of the present day city that route now known as Rhode Island Avenue later became part of US Route 1 *In Her Own Time* Jeanne Stevenson Moessner,2000-05-17 Challenging much in contemporary developmental theory this book sheds new light on developmental themes passages and issues in the lives of women from the perspective of pastoral care *In Her Own Time* provides a much needed framework for the pastoral care of women **Diverse Histories of American Sociology** Anthony Blasi,2005-06-01 This volume presents views of American sociology from minority groups and important intellectual movements that did not merge into the mainstream Coinciding with the centenary of the American Sociological Association it provides little known background information to the development of the field A first section highlights tensions between impartial scientific sociology and scientific social reform A second section uncovers the experiences of female African American and Latino pioneers in the field as well as a sociologist from a religious minority A third section traces the organizational history of the field including gendered racial regional and outsider perspectives A final section focuses on several neglected trajectories With this volume American sociology can be seen in its full context *Housing and Planning References* ,1974 The Making of a Left-Behind Class Fred Powell,Margaret Scanlon,Pat Leahy,Hilary Jenkinson,Olive Byrne,2024-03-04 Despite the high aspirations of young people from disadvantaged communities they face barriers that are frustrating the realisation of their educational ambitions This book analyses the left behind phenomenon and shows how education has become the new divide in Western society It explains how denied educational equality and frustrated opportunity are undermining social cohesion and what we can do about it It challenges meritocratic thinking and the efficacy of widening participation as a policy for social inclusion Combining analysis of educational disadvantage at an international
