In the Long Run We're All Dead Timothy Lewis, 2007-10-01 In The Long Run We're All Dead The Canadian Turn to Fiscal Restraint offers the first comprehensive scholarly account of this vital public policy issue Lewis deftly analyzes the history of deficit finance from before Confederation through Canada's postwar Keynesianism to the retrenchment of the Mulroney and Chrétien years In doing so he illuminates how the political conditions for Ottawa's deficit elimination in the 1990s materialized after over 20 consecutive years in the red and how the decline of Canadian Keynesianism has made way for the emergence of politics organized around balanced budgets

Minding the Public Purse Janice MacKinnon, 2003-03-06 MacKinnon Canada's first female finance minister provides keen observations on how personalities and shared regional perspectives cut across party affiliations in the evolution of federal provincial deliberations on managing the debt crisis Although initially opposed to the radical cuts and downloading unilaterally imposed by the federal minister of Finance in his 1995 budget she now argues that they were essential and analyses how they have irrevocably transformed the Canadian federation MacKinnon provides a timely analysis of the implications of the fiscal crisis for the future of medicare and Canada's other social programs and shows why politicians must involve the Canadian public in an open and frank debate about the challenges and choices facing the nation
