Harlem Calling The Collected Stories Of George Wylie Henderson:

Harlem Calling George Wylie Henderson, 2006 The collected stories of George Wylie Henderson an Alabama writer of the Harlem Renaissance Labor Pains Christin Marie Taylor, 2019-04-24 From the 1930s to the 1960s the Popular Front produced a significant era in African American literary radicalism While scholars have long associated the black radicalism of the Popular Front with the literary Left and the working class Christin Marie Taylor considers how black radicalism influenced southern fiction about black workers offering a new view of work and labor At the height of the New Deal era and its legacies Taylor examines how southern literature of the Popular Front not only addressed the familiar stakes of race and labor but also called upon an imagined black folk to explore questions of feeling and desire By poring over tropes of black workers across genres of southern literature in the works of George Wylie Henderson William Attaway Eudora Welty and Sarah Elizabeth Wright Taylor reveals the broad reach of black radicalism into experiments with portraying human feelings These writers grounded interrelationships and stoked emotions to present the social issues of their times in deeply human terms Taylor emphasizes the multidimensional use of the sensual and the sexual which many protest writers of the period such as Richard Wright avoided She suggests Henderson and company used feeling to touch readers while also questioning and reimagining the political contexts and apparent victories of their times Taylor shows how these fictions adopted the aesthetics and politics of feeling as a response to New Deal era policy reforms both in their successes and their failures In effect these writers some who are not considered a part of an African American protest tradition illuminated an alternative form of protest through poignant paradigms *African American Authors, 1745-1945* Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson's *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author's critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography Introduction to Scholarship in Modern Languages and Literatures David G. Nicholls, 2015-01-01 The third edition of the MLA's widely used *Introduction to Scholarship in Modern Languages and Literatures* features sixteen new essays by leading scholars Designed to highlight

relations among languages and forms of discourse the volume is organized into three sections Understanding Language provides an overview of the field of linguistics with special attention to language acquisition and the social life of languages Forming Texts offers tools for understanding how speakers and writers shape language it examines scholarship in the distinct but interrelated fields of rhetoric composition and poetics Reading Literature and Culture continues the work of the first two sections by introducing major areas of critical study The nine essays in this section cover textual and historical scholarship interpretation comparative cultural and translation studies and the interdisciplinary topics of gender sexuality race and migrations among others As in previous volumes an epilogue examines the role of the scholar in contemporary society Each essay discusses the significance underlying assumptions and limits of an important field of inquiry traces the historical development of its subject introduces key terms outlines modes of research now being pursued postulates future developments and provides a list of suggestions for further reading This book will interest any member of the academic community seeking a review of recent scholarship while it provides an indispensable resource for undergraduate and graduate students of modern languages and literatures **African American Review**, 2005 *MLA International Bibliography of Books and Articles on the Modern Languages and Literatures*, 2006 [MLA Style Manual and Guide to Scholarly Publishing](#) Modern Language Association of America, 2008 Provides information on stylistic aspects of research papers theses and dissertations including sections on writing fundamentals MLA documentation style and copyright law
