*Discovering Child Art* Jonathan David Fineberg, Jonathan Fineberg, 2001-01-23 This book brings together thirteen distinguished critics and scholars to explore children's art and its profound but rarely documented influence on the evolution of modern art. It shows that children's art and childhood have inspired major works of art served as central metaphors for artistic spontaneity and honesty and provided a window into the fundamental human qualities explored by modern artists. The volume complements editor Jonathan Fineberg's groundbreaking new book *The Innocent Eye* Princeton 1997 in which he showed how many of the greatest masters of modern art collected and were directly influenced by children's drawings. Contributors here both expand on Fineberg's themes and take the study of children's art in new directions. They examine for example the influence of child art on such artists as Kandinsky Klee Larionov and Mir the diverse styles of children's art the influence of Romantic ideas on perceptions of children's art the conception of giftedness versus education in children's drawings and the relationship between children's art and primitivism. The book offers unique glimpses into the working processes of great modern artists presenting for example Dora Vallier's personal recollections of Mir and his creative process and new documentation about the works of the Russian avant garde. The essays draw on art theory psychology and the close study of individual works of art and written texts. *Discovering Child Art* will appeal to a wide range of readers including art historians psychologists and art educators. Contributors to the book are Troels Andersen Rudolf Arnheim John Carlin Marcel Franciscano Ernst Gombrich Christopher Green Josef Helfenstein Werner Hofmann Yuri Molok G G Pospelov Richard Shiff Dora Vallier and Barbara Wrang. **Harmensz. Van Rijn Rembrandt** Ernest Lloyd Raboff, 1970 A brief biography of the seventeenth century Dutch artist accompanies a discussion of thirteen of his works. [Harmensz van Rijn Rembrandt](#) Vladimir Loewinson-Lessing, Irena Linnik, Youri Kouznetsov, Xenia Egorova, 2019-12-09 A painting by Rembrandt is a living entity that exists according to its own laws which reflects the multiplicity of the thoughts and emotions in the painter's mind. Men and their mental condition that is the fundamental issue the artist tries to solve throughout his life. Tormented by family problems he took shelter in painting which became even better as things got worse as if depicted by a visionary. Hiding his anxiety in the optimism of his themes and in the strength of dark colours he was ultimately victorious. *Harmensz van Rijn Rembrandt* Emile Michel, 2011-07-01 Rembrandt is completely mysterious in his spirit his character his life his work and his method of painting. What we can divine of his essential nature comes through his painting and the trivial or tragic incidents of his unfortunate life his penchant for ostentatious living forced him to declare bankruptcy. His misfortunes are not entirely explicable and his oeuvre reflects disturbing notions and contradictory impulses emerging from the depths of his being like the light and shade of his pictures. In spite of this nothing perhaps in the history of art gives a more profound impression of unity than his paintings composed though they are of such different elements full of complex significations. One feels as if his intellect that genial great free mind bold and ignorant of all servitude and which led him to the loftiest meditations and the

most sublime reveries derived from the same source as his emotions From this comes the tragic element he imprinted on everything he painted irrespective of subject there was inequality in his work as well as the sublime which may be seen as the inevitable consequence of such a tumultuous existence It seems as though this singular strange attractive and almost enigmatic personality was slow in developing or at least in attaining its complete expansion Rembrandt showed talent and an original vision of the world early as evidenced in his youthful etchings and his first self portraits of about 1630 In painting however he did not immediately find the method he needed to express the still incomprehensible things he had to say that audacious broad and personal method which we admire in the masterpieces of his maturity and old age In spite of its subtlety it was adjudged brutal in his day and certainly contributed to alienate his public From the time of his beginnings and of his successes however lighting played a major part in his conception of painting and he made it the principal instrument of his investigations into the arcana of interior life It already revealed to him the poetry of human physiognomy when he painted The Philosopher in Meditation or the Holy Family so deliciously absorbed in its modest intimacy or for example in The Angel Raphael leaving Tobias Soon he asked for something more The Night Watch marks at once the apotheosis of his reputation He had a universal curiosity and he lived meditated dreamed and painted thrown back on himself He thought of the great Venetians borrowing their subjects and making of them an art out of the inner life of profound emotion Mythological and religious subjects were treated as he treated his portraits For all that he took from reality and even from the works of others he transmuted it instantly into his own substance

Bulletin of the Minneapolis Institute of Arts Minneapolis Institute of Arts,1929      **Imagining Childhood** Erika Langmuir,2006-01-01 The images of children that abound in Western art do not simply mirror reality they are imaginative constructs representing childhood as a special stage of human life or emblematic of the human condition itself In a compelling book ranging widely across time national boundaries and genres from ancient Egyptian amulets to Picasso's Guernica Erika Langmuir demonstrates that no historic period has a monopoly on the discovery of childhood Famous pictures by great artists as well as barely known anonymous artefacts illustrate not only Western society's perennially ambivalent attitudes to children but also the many and varied functions that works of art have played throughout its history      *A Corpus of Rembrandt Paintings IV* Ernst van de Wetering,2010-07-19 Volume IV of A Corpus of Rembrandt Paintings deals uniquely with the self portraits of Rembrandt In a clearly written explanatory style the head of the Rembrandt Research Project and Editor of this Volume Ernst van de Wetering discusses the full body of work of paintings and etchings portraying Rembrandt He sets the different parameters for accepting or rejecting a Rembrandt self portrait as such whilst also discussing the exact working environment of Rembrandt and his apprentices This workshop setting created a surroundings where apprentices could be involved in working on Rembrandt paintings making it more difficult to determine the hand of the master Van de Wetering who is one of the Rembrandt experts of our day and age goes down to great detail to explain how the different self portraits are made and what techniques Rembrandt uses also giving an overview of which paintings are to be attributed to the Dutch Master and which not In the additional catalogue the self portraits are examined in detail In clear and accessible explanatory text the different paintings are discussed larded with immaculate images of each painting Details are shown where possible as well as the results of modern day technical imaging like X radiography This work of art history and art research should be part of every serious art historical institute university or museum Nowhere in the art history have all Rembrandt's self portraits been discussed in such detailed and comparative manner by an authority such as Ernst van de Wetering This is a standard work for decades to come      Genre Imagery in Early Modern Northern Europe ArthurJ. DiFuria,2017-07-05 Exploring the rich variety of pictorial rhetoric in early modern northern European genre images this volume deepens our understanding of genre's place in early modern visual culture From 1500 to 1700 artists in northern Europe pioneered the category of pictures now known as genre portrayals of people in ostensibly quotidian situations Critical approaches to genre images have moved past the antiquated notion that they portray uncomplicated slices of life describing them instead as heavily encoded pictorial essays laden with symbols that only the most erudite contemporary viewers and

modern iconographers could fully comprehend These essays challenge that limiting binary revealing a more expansive array of accessible meanings in genre s deft grafting of everyday scenarios with a rich complex of experiential cultural political and religious references Authors deploy a variety of approaches to detail genre s multivalent relations to older more established pictorial and literary categories the interplay between the meaning of the everyday and its translation into images and the multifaceted concerns genre addressed for its rapidly expanding unprecedentedly diverse audience Rembrandt and His Time Marian Bisanz-Prakken,2005 A curator of Dutch drawings at the Albertina surveys the work of Rembrandt Jacob van Ruisdael Meindert Hobbema Philips Koninck and others presenting the various forms of art that dominated the scene in seventeenth century Holland 112 colour illustrations The Invention of Art Larry E. Shiner,2001 Larry Shiner challenges our conventional understandings of art and asks us to reconsider its history entirely arguing that the category of ine art is a modern invention and that the lines drawn between art and craft emerged only as the result of key European social transformations during the long eighteenth century Publisher s description *Old Masters, New World* Cynthia Saltzman,2008 SALTZMAN OLD MASTERS NEW WORLD **Bryan's Dictionary of Painters and Engravers** Michael Bryan,1904
