Disorders Raymond DiGiuseppe,Raymond Chip Tafrate,2007 Since classical times philosophers and physicians have identified anger as a human frailty that can lead to violence and human suffering but with the development of a modern science of abnormal psychology and mental disorders it has been written off as merely an emotional symptom and excluded from most accepted systems of psychiatric diagnosis Yet despite the lack of scientific recognition anger related violence is often in the news and courts are increasingly mandating anger management treatment It is time for a fresh scientific examination of one of the most fundamental human emotions and what happens when it becomes pathological and this thorough persuasive book offers precisely such a probing analysis Using both clinical data and a variety of case studies esteemed anger researchers Raymond A DiGiuseppe and Raymond Chip Tafrate argue for a new diagnostic classification Anger Regulation and Expression Disorder that will help bring about clinical improvements and increased scientific understanding of anger After situating anger in both historical and emotional contexts they report research that supports the existence of several subtypes of the disorder and review treatment outcome studies and new interventions to improve treatment The first book that fully explores anger as a clinical phenomenon and provides a reliable set of assessment criteria

it represents a major step toward establishing the clear definitions and scientific basis necessary for assessing diagnosing and treating anger disorders

Abuse of Rights Fabio Carvalho de Alvarenga Peixoto, 2023-11-16 The book is an adaptation of part of the author's PhD thesis which won the international prize Prêmio FIBRE and was voted one of the three best in Brazil in the field of Law in 2023. It deals with the history of the notion of abuse of rights in its two traditions: the Franco-Belgian *abus de droit* and the German *unzulässige Rechtsausübung*. It also presents the discourse of abuse of rights with a shortcut function. Finally, it places the scientific formulation of groups of cases as necessary for the proper use of the abuse of rights discourse.
