Harold Shipman:

Harold Shipman - Prescription For Murder Brian Whittle, Jean Ritchie, 2009-09-03 He was a pillar of the community serving on local committees donating prizes to the rugby club organising charity collections His patients thought the world of him he was attentive kind never too busy to chat Yet Dr Harold Frederick Shipman was also the most prolific serial killer the world has ever known with between 200 and 300 victims Quietly for many years the small bespectacled GP was making unexpected house calls and walking out leaving a dead body behind The murderous career of Dr Shipman only came to an end when police in Hyde Greater Manchester were called to investigate a forged will Overnight they found themselves embroiled in the biggest murder case in British history Substantially revised and updated since Shipman's suicide in prison this is a compelling account of these monstrous crimes and of the man who committed them The authors have had unparalleled access to friends colleagues and patients Their in depth and authoritative investigation looks at how he killed how he was able to get away with it for so long and most important of all why *Harold Shipman* Mel Plehov, 2014

Harold Shipman Roger Harrington, 2018-03-12 Harold Shipman Doctor Death The Shocking Case of the Harold Shipman Murders As a society we are conditioned to believe that doctors will do their utmost to nurture our well being and protect our lives We implicitly trust that people only go into such professions to care for their patients in a loving and attentive manner Very few of us would suspect that someone claiming to promote our health would not do everything in their power to ensure our survival and even fewer of us would suspect that someone whose job it is to keep us safe would actively want to harm us That blind trust is exactly the mentality that led to over 200 people being murdered at the hands of Britain's most prolific serial killer Doctor Harold Fredrick Shipman Shipman used the trust of his patients as a weapon against them He managed to avoid detection as a murderer for almost 30 years by putting on a convincing performance as a conscientious care giver He would persuade a victim's family that he had his patients best interests at heart even after he had injected their loved one with a lethal opiate overdose and had watched them die *Prescription for Murder* Brian Whittle, Jean Ritchie, 2005 Harold Shipman was a pillar of the community His patients thought the world of him he was attentive kind and never too busy to chat Yet Dr Shipman was also the most prolific serial killer the world has ever known with between 200 and 300 victims This is an account of these crimes and the man who committed them *Harold Shipman: Dr. Death* Carla Mooney, 2024-12-15 Harold Shipman explores how a doctor used his medical knowledge and authority to murder 250 patients and cover up the true causes of their deaths It discusses Shipman's path to become a physician his crimes and the following investigation Features include a glossary a timeline websites source notes and an index Aligned to Common Core Standards and correlated to state standards Essential Library is an imprint of Abdo Publishing a division of ABDO **Retelling the Story of Harold Shipman** Steve Hyer, 2017-04-06 The story of Dr Harold Shipman an English GP who began killing his patients as a junior doctor and continued to do so for more than 20 years is a fascinating one Shipman injected his patients with lethal doses of

diamorphine a medical form of heroin in the privacy of their own homes and then sat and watched them until they were dead This usually occurred within minutes Afterwards he would commiserate with relatives offering words of sympathy and then simply continue on his rounds as if killing patients was part of the normal routine of any GP Sixteen years after he made legal history as the first British doctor convicted of murdering his patients we are really none the wiser as to why he murdered an estimated 250 of his patients the majority of whom were elderly but active women living independent lives in their own homes This book attempts to address the many unanswered questions in the Shipman story If none of the usual motives associated with murderers was present how then do we account for his acts What was it about a particular patient that resulted in them becoming one of Shipman's victims Why did he forge the Grundy will and in such a crude way Why was his defence in court so ludicrous What might have prompted him to hang himself *Harold Shipman, Mind Set on Murder* Carole Peters, 2005 In 1998 the graveyards in the market town of Hyde had some unusual early morning visitors Greater Manchester Police were exhuming the bodies of the elderly patients of a local doctor The doctor concerned had been their GP for 21 years and had a reputation as the best in the area But Dr Harold Frederick Shipman was a serial killer A public inquiry has spent nearly four years investigating Dr Shipman's crimes They have traced them back more than 30 years and calculated the number of murder he committed to be in the region of 260 As director of ITV's *To Kill and Kill Again* Dr Shipman Carole Peters was given unique access to the public inquiry's database and she has also conducted her own investigative research cut and will appear in this book for the first time Transcripts will reveal the doctor's arrogance during police interviews while exclusively obtained prison letters provide a revealing insight into his mind And with the help of criminal psychologists and those most closely involved in the case this book examines the clues and provides the answer to the question why Why Shipman chose to kill and kill again **The Encyclopedia of Serial Killers** Michael Newton, 2006-02 The Encyclopaedia of Serial Killers Second Edition provides accurate information on hundreds of serial murder cases from early history to the present Written in a non-sensational manner this authoritative encyclopaedia debunks many of the myths surrounding this most notorious of criminal activities New major serial killers have come to light since the first edition was published and many older cases have been solved such as the Green River Killer or further investigated like Jack the Ripper and the Zodiac Killer Completely updated entries and appendixes pair with more than 30 new photographs and many new entries to make this new edition more fascinating than ever New and updated entries include Axe Man of New Orleans BTK Strangler Jack the Ripper Ciudad Juarez Mexico John Allen Muhammad and Lee Boyd Malvo the Sniper Killers Gary Leon Ridgway the Green River Killer and Harold Frederick Shipman *Medical Self-Regulation* Mark Davies, 2016-12-05 Self-regulation constitutes an important aspect of the regulatory and oversight process governing professionals This book focuses directly on medical self-regulation in the context of both the wider regulatory framework and that of other regulatory models Through a critical consideration of recent events including high profile and controversial cases it is demonstrated that the

self regulatory process has failed and that only fundamental restructuring and a radical change in attitudes on the part of members of the profession can repair the damage Attention is also given to the recent changes current proposals for change and to alternative regulatory models Medical Self Regulation will be of international interest appealing to policy makers as well as students and practitioners in the fields of medicine medical law and sociology and professional regulation
