Harold Pinter and the Language of Cultural Power Marc Silverstein, 1993 For all their attempts to own language Pinter's characters discover that words constitute alienable property that language forms de forms and re forms subjectivity that as a system preceding the individual language carries embedded within it the values desires and imperatives of the Other the dominant cultural order By introducing questions of subject position and ideology into his discussion author Marc Silverstein shows how the plays exhibit a political dimension largely ignored by the bulk of Pinter criticism which attempts to classify his oeuvre as a form of absurdist drama It is Silverstein's contention that Pinter does not concern himself with the fate of the individual lost in an incomprehensible and meaningless universe the absurdist Pinter but instead explores the vicissitudes of living within ideological discursive and social structures that always exceed the subject

Harold Pinter M. Regal, 1995-09-18 Harold Pinter A Question of Timing focuses on the ways in which Pinter conceives of and dramatises time according to the particular medium with which he is working It goes beyond Pinter's obvious fascination with false and true memory to trace the various textual and non textual strategies he employs to distort sequence and duration in his plays Further it shows how Pinter undermines the temporal assumptions of naturalism and realism to form a uniquely relativistic world in which time is a central feature

Affirming the Absurd in Harold Pinter Jane Wong Yeang Chui, 2013-05-21 Using Martin Esslin's invention the Theatre of the Absurd to examine Pinter's works Wong brings the complexities and intricacies of the plays to the forefront provoking readers and audiences to reconsider and problematize more conventional studies of his plays

and reappraises specific key historical and contemporary productions including a selection of Pinter's most significant screenplays. In particular, this volume seeks to assess Pinter's critical reputation and legacy since his death in 2008. These include his position as a political writer and political activist, from disassociation and neutrality on the subject until relatively late in his career when his drama sought to explicitly address questions of political dissent and torture by totalitarian regimes. The book revisits some familiar territories such as Pinter's place as a British absurdist and the role memory plays in his work, but it also sets out to explore new territories such as Pinter's changing attitudes towards gender in the light of MeToo and queer politics, and how, in particular, a play such as *The Caretaker* (1960) through several key productions has brought the issues of race into sharper focus. Part of the Routledge Modern and Contemporary Dramatist series, *Harold Pinter* provides an essential and accessible guide to the dramatist's work. *Harold Pinter* Steven H. Gale, 1978 **Pinter at 70** Lois Gordon, 2014-02-25 This comprehensive and authoritative casebook includes cornerstone essays on Pinter's creative process, his politics, film adaptations, and acting career. It also includes a collection of photos found nowhere else that document Pinter's golden time, his early acting days in Ireland, a substantial introduction, a chronology, and a bibliography.

Critical Essays on Harold Pinter Steven H. Gale, 1990 **Pinter's Odd Man Out** Sidney Homan, 1993 Pinter's *Odd Man Out* records Sidney Homan's experience directing the playwright's *Old Times* for both stage and television. His most commercially successful play and surely one of his best, no other work of Pinter's has generated more critical and scholarly commentary or more varied, sometimes conflicting readings. In the two opening chapters, Homan surveys the theatrical and critical history of the play before describing the generic world of Pinter that provides the context of *Old Times*: secluded rooms, their occupants, and the visitor who, in seeking entrance, challenges the room's exclusive yet deceptive serenity, the outside, and the threat it poses. The subtext pressing on the dialogue, the power of the past, and perception, the presence of the play itself, characters who function as artists, the issue of gender, mother and father figures, and the silence of Pinter's pauses. Homan then describes his company's preparations for the performance, ranging from the director's concept, the set, props, costumes, lighting, and music, to blocking and the rehearsal period. After his own account of the stage production and the ways in which the audience taught the performers through their reactions to and discoveries about the play, Homan turns to his actors, Stephanie Dugan, Thomas Pender, and Sandra Langsner, who in their own words describe how they wrestled with the characters of Kate Deeley and Anna from rehearsals to performance. A chapter on *The Camera as Guest* records the experience of filming the stage play. Here, the focus is on the technological and aesthetic differences between the media of television and the stage, and what effect such differences had on the filmed version of *Old Times*. To what degree does the camera allow the director to assert more control? What changes in blocking, set, and lighting were required? In an appendix, Homan looks at Carol Reed's 1950s film *Odd Man Out*, which figures prominently in *Old Times* and which may have been a source in a highly flexible use of that term for the play. On the surface, Pinter's *Odd Man Out* concentrates on a single play. In

reality it is about the ways in which people in the theatre approach a production the process they go through from rehearsals to opening night and the complex interaction among playwright director actors and audience It also raises the issue of what happens when a work intended for the stage is translated to another medium such as television If the book at times suggests that the worlds of the scholar and the theatre professional are different indeed incompatible in some ways it also shows how the two professions can learn from each other

Sharp Cut Steven H. Gale, 2021-02-16 While best known as one of the most important playwrights of the twentieth century Harold Pinter 1930 2008 had an equally successful career writing screenplays His collaborations with director Joseph Losey garnered great attention and esteem and two of his screenplays earned Academy Award nominations The French Lieutenant's Woman 1981 and Betrayal 1983 He is also credited for writing an unproduced script to remake Stanley Kubrick's 1962 adaptation of Lolita Much scholarship has been dedicated to the subject of Pinter as playwright but the rich landscape of his work in film has been left largely undisturbed In Sharp Cut Harold Pinter's Screenplays and the Artistic Process Steven H Gale the world's foremost Pinter scholar analyzes Pinter's creative process from initial conception to finished film Gale makes careful point by point comparisons of each stage in the screenplay's creation the source material the adaptations themselves and the films made from the scripts in order to reveal the meaning behind each film script and to explain the cinematic techniques used to express that meaning Unlike most Pinter scholars who focus almost solely on the written word Gale devotes discussion to the cinematic interpretation of the scripts through camera angles and movement cutting and other techniques Pinter does not merely convert his stage scripts to screenplays he adapts the works to succeed in the other medium avoiding elements of the live play that do not work onscreen and using the camera's focusing operations in ways that are not possible on the stage As Pinter's career progressed and his writing evolved screenplays became for him an increasingly vital means of creative expression Sharp Cut is the first study to fully explore this important component of the Pinter canon
