Harold Rosenberg Debra Bricker Balken, 2021-10-06 Despite being one of the foremost American intellectuals of the mid-twentieth century, Harold Rosenberg (1906-1978) was utterly incapable of fitting in, and he liked it that way. Signature cane in one hand and a cigarette in the other, he cut a distinctive figure on the New York City culture scene with his radiant dark eyes and black bushy brows. A gangly giant at six foot four, he would tower over others as he forcefully expounded on his latest obsession in an oddly high-pitched nasal voice. And people would listen, captivated by his ideas. With *Harold Rosenberg: A Critic's Life*, Debra Bricker Balken offers the first ever complete biography of this great and eccentric man. Although he is now known mainly for his role as an art critic at the *New Yorker* from 1962 to 1978, Balken weaves together a complete tapestry of Rosenberg's life and literary production, cast against the dynamic intellectual and social ferment of his time. She explores his role in some of the most contentious cultural debates of the Cold War period, including those over the commodification of art and the erosion of individuality in favor of celebrity, demonstrated in his famous essay *The Herd of Independent Minds*. An outspoken socialist,

and advocate for the political agency of art he formed deep alliances with figures such as Hannah Arendt Saul Bellow Paul Goodman Mary McCarthy Jean Paul Sartre Willem de Kooning and Jackson Pollock all of whom Balken portrays with vivid accounts from Rosenberg's life Thoroughly researched and captivatingly written this book tells in full Rosenberg's brilliant fiercely independent life and the five decades in which he played a leading role in US cultural intellectual and political history

Making Americans Gary D. Schmidt, 2013-12-01 American children need books that draw on their own history and circumstances not just the classic European fairy tales They need books that enlist them in the great democratic experiment that is the United States These were the beliefs of many of the authors illustrators editors librarians and teachers who expanded and transformed children's book publishing between the 1930s and the 1960s Although some later critics have argued that the books published in this era offered a vision of a safe secure simple world without injustice or unhappy endings Gary D Schmidt shows that the progressive political agenda shared by many Americans who wrote illustrated published and taught children's books had a powerful effect Authors like James Daugherty Laura Ingalls Wilder Lois Lenski Ingri and Edgar Parin D'Aulaire Virginia Lee Burton Robert McCloskey and many others addressed directly and indirectly the major social issues of a turbulent time racism immigration and assimilation sexism poverty the Great Depression World War II the atomic bomb and the threat of a global cold war The central concern that many children's book authors and illustrators wrestled with was the meaning of America and democracy itself especially the tension between individual freedoms and community ties That process produced a flood of books focused on the American experience and intent on defining it in terms of progress toward inclusivity and social justice Again and again children's books addressed racial discrimination and segregation gender roles class differences the fate of Native Americans immigration and assimilation war and the role of the United States in the world Fiction and nonfiction for children urged them to see these issues as theirs to understand and in some ways theirs to resolve *Making Americans* is a study of a time when the authors and illustrators of children's books consciously set their eyes on national and international sights with the hope of bringing the next generation into a sense of full citizenship
