ringed seal represent the most important game but sea birds such as fulmar Br n nich s guillemot and little auk also play a significant role in the subsistence economy Fish especially Atlantic Cod have been caught and remains of large whales indicate that these animals were utilized but it can not be decided whether they were actively hunted Most of the game was taken close by the site however finds of caribou indicate that inland caribou hunting was undertaken and that Qeqertasussuk was part of a larger subsistence settlement system Several species of plants were also utilized Temporal changes in the composition of the faunal material indicate that significant changes occur in the subsistence at Qeqertasusuk Four phases are identified 1 Basecamp period I 2400 2100 BC A pioneer phase where the site is used as a year round base camp with more than 90% of the biomass being harvested within an area of approximately 80 km² 2 Base camp period II 2100 1900 BC which seems to be the period of most intensive use and where new methods probably netting of harp seal hunting are introduced 3 Hunting camp period 1900 1700 BC where the site becomes more specialized and more seasonal with a focus on spring summer hunting for harp seals 4 high activity period 1700 1400 BC indications of continued heavy sea mammal hunting The site was abandoned around 1400 BC The causes of the abandonment of Qeqertasussuk is discussed and the impact of the general cooling around 1500 BC on key resources such as harp seal and capelin is highlighted **Harp Seals** Kathleen Martin-James,2008-08-01 In this Early Bird title readers learn about the physical characteristics habitat and behavior of the harp seal **Harp Seals** Sam Drumlin,2013-01-15 Educational text and stunning full color photographs introduce readers to harp seals They will learn many exciting facts about the various stages of a harp seal s life Reader curiosity about this adorable marine mammal is sure to be satisfied Harpo Patricia Arrigoni,1995 Photographs of a mother and baby seal and how they survive on the ice floes in the Gulf of St Lawrence *Harp Seal* Dee Phillips,2015 In this book readers learn about the life and habits of harp seals *Mammals in the Seas* Food and Agriculture Organization of the United Nations.
