Eli Bornstein Art Toward Nature:

Eli Bornstein Eli Bornstein, Jonneke Fritz-Jobse, Mendel Art Gallery, 1996 **Eli Bornstein** Eli Bornstein, 2007

Abstract Painting in Canada Roald Nasgaard, Art Gallery of Nova Scotia, 2008 In the tradition of the distinguished Douglas McIntyre art program this lavishly illustrated and superbly printed book is a rich readable history of abstract painting in Canada The story begins in the 1920s with the sometimes eccentric but remarkable work rooted in symbolism and theosophy of pioneers such as Kathleen Munn Bertram Brooker and Lawren Harris Two decades later the Automatistes Canada's first truly independent avant garde art movement burst onto the scene in Montreal After the Second World War the urge to abstraction spread across Canada manifesting itself in significant regional movements Vancouver painters retained a British flavour while in Toronto the Painters Eleven looked south to New York Montreal's Plasticiens launched their own razor edged interpretation of the European tradition of geometric abstraction In the sixties and seventies the Prairies were influenced by Clement Greenberg's post painterly abstraction while Halifax became a hub of conceptual art and concrete painting The book continues through the eighties and nineties during which critics largely denounced painting and concludes in the twenty first century with abstract painting alive and well again in the studios of Canada's young artists A monumental tome containing 200 color reproductions it mines a rich vein of art history ripe for international discovery De Stijl Continued Jonneke Jobse, 2005 From 1958 to 1964 the journal Structure was a major platform for artists reconsidering the design tenets and underlying principles of the Bauhaus Constructivism and De Stijl This book explores the artists body of ideas in meticulous detail *A Very Sacred Experience* Eli Bornstein, Roald Nasgaard, 2022-09-20 In celebration of his 100th birthday Eli Bornstein in collaboration with author and curator Roald Nasgaard has published a stunning work of personal reflection on a most transformative time in his life and career *A Very Sacred Experience* Eli Bornstein's Arctic Journals 1986 and 1987 is a tribute to the Canadian North a meditation on artistic creation and a window onto the ideological musings of Canada's greatest Structurist artist Devoid of the mythologizing other artists have given their writing on the North Bornstein's journals are introspective insightful and sometimes funny Comprised of personal journal entries from two northern trips he took with photographer Hans Dommasch along with watercolour studies Structurist reliefs and a personal collection of poems Bornstein's work is a vital reminder of our outsized influence over the natural world and an invitation to recognize our need for nature in our life and in our art Bornstein's publishing of *A Very Sacred Experience* is the culmination of a life's work on reconciling himself with nature and the understanding our very existence **The Organic School of the Russian Avant-Garde** Professor Isabel Wünsche, 2015-10-28 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel Wünsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde and

the emergence of the concept of Organic Culture *The Organic School of the Russian Avant-Garde* Isabel

W?nsche,2017-07-05 The artists of the Organic School of the Russian avant garde found inspiration as well as a model for artistic growth in the creative principles of nature Isabel W nsche analyzes the artistic influences intellectual foundations and scientific publications that shaped the formation of these artists the majority of whom were based in St Petersburg Particular emphasis is given to the holistic worldviews and organic approaches prevalent among artists of the pre revolutionary avant garde specifically Jan Ciaglinski Nikolai Kulbin and Elena Guro as well as the emergence of the concept of Organic Culture as developed by Mikhail Matiushin practiced at the State Institute of Artistic Culture and taught at the reformed Art Academy in the 1920s Discussions of faktura and creative intuition explore the biocentric approaches that dominated the work of Pavel Filonov Kazimir Malevich Voldemar Matvejs Olga Rozanova and Vladimir Tatlin The artistic approaches of the Organic School of the Russian avant garde were further promoted and developed by Vladimir Sterligov and his followers between 1960 and 1990 The study examines the cultural potential as well as the utopian dimension of the artists approaches to creativity and their ambitious visions for the role of art in promoting human psychophysiological development and shaping post revolutionary culture *Artbibliographies Modern* ,1998 **Biocentrism and Modernism** Oliver A.I.

Botar,2017-07-05 Examining the complex intersections between art and scientific approaches to the natural world Biocentrism and Modernism reveals another side to the development of Modernism While many historians have framed this movement as being mechanistic and against nature the essays in this collection illuminate the role that nature centric ideologies played in late nineteenth to mid twentieth century Modernism The essays in Biocentrism and Modernism contend that it is no accident that Modernism arose at the same time as the field of modern biology From nineteenth century discoveries to the emergence of the current environmentalist movement during the 1960s artists architects and urban planners have responded to currents in the scientific world Sections of the volume treat both philosophic worldviews and their applications in theory historiography and urban design This collection also features specific case studies of individual artists including Raymond Duchamp Villon Paul Klee Wassily Kandinsky and Jackson Pollock *The Structurist* ,2005

Canadian Art ,1996 *New Organic Architecture* David Pearson,2001 New Organic Architecture is a manifesto for building in a way that is both aesthetically pleasing and kinder to the environment It illuminates key themes of organic architects their sources of inspiration the roots and concepts behind the style and the environmental challenges to be met The organic approach to architecture has an illustrious history from Celtic design Art Nouveau Arts and Crafts to the work of Antoni Gaud and Frank Lloyd Wright Today there is a response to a new age of information and ecology architects are seeking to change the relationship between buildings and the natural environment In the first part of his book David Pearson provides a history and assessment of organic architecture The second part comprises statements from thirty architects from around the world whose work is based on natural or curvilinear forms rather than the straight line geometrics of modernism

Each statement is accompanied by full color illustrations of one or several of the architects built projects *Public Art in Canada* Annie Gérin, James S. McLean, 2011-03-18 Arguably public art is experienced daily by more people than most offerings in galleries yet our notion of what constitutes public art is surprisingly limited *Public Art in Canada* broadens the critical discussion by exploring public art s varied means of engaging with public space and the public sphere Annie G rin and James S McLean have assembled contributions from new and established Canadian scholars curators and artists Each contributor enlivens our understanding of public art as a practice and its place in the social and aesthetic formation of which it is a part As a result the book provides an overview of the current debates in the field of public art that are informed by the theories and critical literature of art history communication studies cultural studies sociology and urban studies The rigorous essays and original works of art collected in this volume present a compelling demonstration of the strategies aesthetic and otherwise used by artists to elicit intellectual sensual or emotional responses that can only be obtained through artistic practices in public places *Public Art in Canada* is a major contribution to the study of Canadian art and culture Sharp Eyes Charlotte Zoë Walker, 2000-08-01 John Burroughs the genial and tremendously popular author of the nineteenth and early twentieth centuries has gained renewed appreciation at the end of the twentieth century His quiet approach to nature writing a combination of scientific observation and poetic spirit has informed generations of readers This book is a testament to the importance of his work in modern literature In addition to exploring the historical aspects of Burroughs s life and character these works illuminate his role as a writer and his relationships with such contemporaries as Whitman Thoreau Emerson and Muir Frank Bergan discusses Burroughs as environmentalist Bill McKibben writes on Burroughs and the call of the not so wild Daniel Payne expounds on Burroughs s religion of nature Wendell Berry considers the sacred economy of homesteading and Ralph Black provides an analysis on Burroughs and the poetics of the nature essay This book will have special appeal to those interested in nature writing American literature and environmental and cultural history of New York State A section on the history and current use of Burroughs s work in the classroom also makes the book a valuable resource for teachers **Canadian Art in the Twentieth Century** Joan Murray, 1999-11 Joan Murray discusses social and political events in combination with the movements ideas attitudes styles and important groups in Canadian art of this century
