In Praise Of Public Life Joseph I. Lieberman, 2000-08-08 In a vigorous defense of public life Senator Joseph Lieberman defines the duty the honor and the privilege of the public lives of politicians in the face of perennial American cynicism Americans have always been suspicious of government and have misunderstood and mistrusted those in public life This attitude is even more prevalent as the boundaries that once separated public and private have fallen Lieberman argues that some of the public s mistrust is based on a misconception of what public life is and why we need it He describes life as he has lived it over three decades in the public eye with all its purpose privileges pressures and pleasures Lieberman asks fundamental questions about what standards of behavior should be expected of politicians in the sharply partisan big money search and destroy atmosphere of politics today Who should set these standards Is there room for a public figure to be human to make mistakes Is there a line beyond which the personal behavior of a public official is nobody s business Do citizens have an obligation to understand and determine the responsibilities of public life Drawing widely from his own experience as a politician and his pride in public service Lieberman makes a passionate hopeful argument for the value of public life He believes it plays a place necessary role in our democracy and more Americans need to embrace it if we are to sustain our self government
