**Nancy Larson Bluemel, Rhonda Harris
Taylor**

Elmos World Pets:

Pets! Random House, 2002-07-23 Elmo loves all kinds of pets dogs cats bunnies birds and of course his pet goldfish Dorothy Elmo knows that pets need many things to be healthy and happy From water and food to exercise to lots and lots of love Elmo shows kids how to take care of their favorite pets *Elmo's world [digital videorecording]*, 2010 Join Sesame Street's lovable red monster for a romp through three Elmo's World episodes about kids favourite topic pets Children will love the fast paced segments which feature real kids and real animals P 4 of container **Pop-Up Books** Nancy Larson Bluemel, Rhonda Harris Taylor, 2012-02-02 A convincing explanation of why interactive or movable books should be included in the library collection that documents their value as motivational instructional tools in all areas of the school curriculum across many grade levels Pop up books possess universal appeal Everyone from preschoolers to adults loves to see and tactilely experience the beautiful three dimensional work of Robert Sabuda David A Carter and other pop up book creators Sabuda himself was inspired to become a pop up book artist after experiencing the 1972 classic pop up *The Adventures of Super Pickle* The effect of these movable books on young minds is uniquely powerful Besides riveting children's attention pop up books can also help build motor skills teach cause and effect and develop spatial understanding of objects Based on their direct experience and many presentations to teachers and librarians the authors have provided template lesson plans with curriculum and standards links for using the best pop up books currently available in the instructional program of the school The book also includes profiles of the most notable authors a history of the format definitions of terms such as flap book and paper engineer and information on how to create movable books Librarians will find the section regarding collection development with the format how and where to acquire them proper storage methods and the annotated listing of the authors 50 favorite pop ups extremely helpful *PARENTING Baby Must-Haves* Editors of Parenting Magazine, 2007-08-07 A full color beautifully photographed portable reference Parenting magazines guide gives the whole scoop on everything from nursery essentials to childproofing products focusing on the simple and affordable *The Video Librarian*, 2006

The Software Encyclopedia, 1988 **Anytime Playdate** Dade Hayes, 2008-05-06 In this eye opening book the first to investigate the explosion of the multibillion dollar preschool entertainment business and its effects on families Dade Hayes an entertainment expert author and concerned father lifts the veil on the closely guarded process of marketing to the ultra young and their parents Like many parents Dade Hayes grabbed me time by plopping his daughter in front of the TV relaxing while Margot delighted in the sights and sounds of Barney and the Teletubbies But when Margot got hooked screaming whenever the TV was turned off Hayes set out to explore the vast universe of this industry in which preschoolers devour 21 billion worth of entertainment Going behind the scenes to talk with executives writers and marketers who see the value of educational TV Hayes finds compelling research that watching TV may raise IQs and increase vocabularies On the other side he brings in the voices of pediatricians and child psychologists who warn against babysitter TV and ask whether TV trance is

healthy in spite of the relaxation that the lull affords exhausted parents as recent studies link early television viewing with obesity attention and cognitive problems and violence Along the way Hayes narrates the fascinating evolution of Nickelodeon's bilingual preschool gamble Ni Hao Kai lan from an art student's Internet doodles to its final product an educationally fortified Dora inflected test audience approved television show At the show's debut jittery experts hold their breath as the tweaked and researched Kai lan faces Mr Potato Head in the battle for a three year old's attention Anytime Playdate reveals the marketing science of capturing a toddler's attention examining whether Baby Einstein and its ilk will make babies smarter or if conversely television makes babies passive and uncritical their imaginations colonized by marketing schemes before they even speak It tells us why the raucous Dora the Explorer has usurped Blues Clues for preschool primacy why the Brit hit In the Night Garden won't follow Teletubbies into American tot stardom and why the comparatively quiet and wholesome Sesame Street has reigned for decades Hayes vividly portrays the educators psychologists executives parents and lest we forget kids who have shaped the history of children's television uncovering the tensions between the many personalities the creative foment that combines story music and message in this medium to produce today's almost dizzying array of products and choices In the end Hayes gives readers a provocative but balanced portrait of an age in technological transition and shows that what's at stake in the Rattle Battle is nothing less than the character of the next generation

Screen Time Lisa Guernsey, 2012-03-20 As a mother Lisa Guernsey wondered about the influence of television on her two young daughters As a reporter she resolved to find out What she first encountered was tired advice sensationalized research claims and a rather draconian mandate from the American Academy of Pediatrics no TV at all before the age of two But like many parents she wanted straight answers and realistic advice so she kept digging she visited infant perception labs and child development centers around the country She interviewed scores of parents psychologists cognitive scientists and media researchers as well as programming executives at Noggin Disney Nickelodeon Sesame Workshop and PBS Much of what she found flies in the face of conventional wisdom and led her to conclude that new parents will be best served by focusing on about educational media She examines how play and language development are affected by background and foreground television and how to choose videos that are age appropriate She explains how to avoid the hype of brain stimulation and focus instead on social relationships and the building blocks of language and literacy Along the way Guernsey highlights independent research on shows ranging from Dora the Explorer to Dragon Tales and distills some surprising new findings in the field of child development Into the Minds of Babes
