Boundary making between religion and medicine Religion and epidemics Within these sections central issues debates and problems are examined including health and healing religiosity spirituality biomedicine medicalization complementary medicine medical therapy efficacy agency and the nexus of body mind and spirit The Routledge Handbook of Religion Medicine and Health is essential reading for students and researchers in religious studies The Handbook will also be very useful for those in related fields such as sociology anthropology and medicine Frankenstein's Science Christa Knellwolf King, Jane R. Goodall, 2008 Frankenstein's Science contextualizes this widely taught novel in contemporary scientific and literary debates providing new historical scholarship into areas of science and pseudo science that generated fierce controversy in Mary Shelley's time anatomy *Spirituality and the Occult* Brian Gibbons, 2013-07-04 Spirituality and the Occult argues against the widely held view that occult spiritualities are marginal to Western culture Showing that the esoteric tradition is unfairly neglected in Western culture and that much of what we take to be modern derives at least in part from this tradition it casts a fresh intriguing and persuasive perspective on intellectual and cultural history in the West Brian Gibbons identifies the influence and continued presence of esoteric mystical movements in disciplines such as medicine science philosophy Freudian and Jungian psychology radical political movements imaginative literature Rider Haggard and the Imperial Occult Simon Magus, 2021-12-06 In Rider Haggard and the Imperial Occult Simon Magus offers the first academic monograph on the world of occult thought which lies behind and beneath the fictional writing of H Rider Haggard It engages with a broad scope of religious philosophical and anthropological ideas Many of these were involved in debates within the controversies of the Anglican Church which occurred in the face of Darwinism and the criticism of the Bible The book follows three main intellectual currents involved in the promulgation of these ideas namely the reception of ancient Egypt the resurgence of Romanticism and the ideas of the Theosophical Society all couched within the context of Empire
