Handbook of Disaster Research Havidán Rodríguez, William Donner, Joseph E. Trainor, 2017-11-16 This timely Handbook is based on the principle that disasters are social constructions and focuses on social science disaster research It provides an interdisciplinary approach to disasters with theoretical methodological and practical applications Attention is given to conceptual issues dealing with the concept disaster and to methodological issues relating to research on disasters These include Geographic Information Systems as a useful research tool and its implications for future research This seminal work is the first interdisciplinary collection of disaster research as it stands now while outlining how the field will continue to grow

Civil Society Organization and Disaster Risk Reduction Rajib Shaw, Takako Izumi, 2014-04-10 Civil society organizations CSOs have played important roles over the years in the disaster field Starting from the traditional approach of response and relief the emphasis has gradually shifted to disaster risk reduction From international nongovernmental organizations NGOs to national and local NGOs all stakeholders have recognized the significance of and need for community based risk reduction In their different capacities they have endeavored to establish links to the policy options at the local and national levels There still are many issues that remain untouched by CSOs however and local CSOs face special challenges in resources in terms of human financial and technical issues Drawing examples from Asia this book is structured on the roles

of CSOs according to the Hyogo Framework for Action priority areas policy making risk assessment education and training underlying risk factors and response recovery The primary target groups for this book are students and researchers in the fields of environment disaster risk reduction and climate change studies The book provides a clear view of the current trends of research in the field and furnishes basic knowledge on these important topics Another target group comprises practitioners and policy makers who will be able to apply the knowledge collected here to policy and decision making
