Emergence From Innocence Religion Theology And Development:

A Kairos Moment for Caribbean Theology Garnett Roper, J. Richard Middleton, 2013-08-12 The project of developing a contextual theology for the Caribbean was first articulated in the early 1970s in Trinidad and Jamaica In the years since many evangelical churches and theologians in the Caribbean have been ambivalent about the validity of this project assuming that an emphasis on context was somehow antithetical to the pure gospel But the crisis of the times along with a more mature hermeneutic has led to a re evaluation of this assumption Here a group of evangelical Caribbean theologians enter the discussion with substantive proposals for how the gospel addresses the Caribbean context They are joined by other theologians from mainline Protestant and Catholic traditions in the Caribbean The result is an ecumenical dialogue on the diverse ways in which orthodox Christian faith may provide both challenge and hope for the Caribbean context Half the essays in this volume were originally presented at the Forum on Caribbean Theology held in 2010 at the Jamaica Theological Seminary the rest were invited especially for this volume

Home Away from Home Delroy A. Reid-Salmon, 2014-12-18 An estimated two thirds of Caribbeans live outside their homeland Home Away from Home identifies the different forms of Caribbean diasporan identity and argues that the faith Caribbean people brought with them into the diaspora plays a central role in their development The study provides a theological interpretation of the diasporan experience and outlines the principles of diasporan theology and the distinctiveness of its church Focusing on the Caribbean diaspora in the US and analysing aspects of the Caribbean British diaspora the book forges a Black Atlantic theology The volume also engages with wider discourse on the Black diaspora to offer an inclusive Caribbean diasporan ecclesiology that overcomes Black African American Euro American binaries

Feuerbach and the Interpretation of Religion Van A. Harvey, 1997-03-06 Ludwig Feuerbach is traditionally regarded as a significant but transitional figure in the development of nineteenth century German thought Readings of Feuerbach's *The Essence of Christianity* tend to focus on those features which made it seem liberating to the Young Hegelians namely its criticism of reification as abstraction and its interpretation of religion as alienation In this book Van Harvey claims that this is a limited and inadequate view of Feuerbach's work especially of his critique of religion The author argues that Feuerbach's philosophical development led him to a much more complex and interesting theory of religion which he expounded in works which have been virtually ignored hitherto By exploring these works Harvey gives them a significant contemporary re statement and brings Feuerbach into conversation with a number of modern theorists of religion

Boundless Innocence in Thomas Traherne's Poetic Theology Elizabeth S. Dodd, 2016-03-16 The seventeenth century poet and divine Thomas Traherne finds innocence in every stage of existence He finds it in the chaos at the origins of creation as well as in the blessed order of Eden He finds it in the activities of grace and the hope of glory but also in the trials of misery and even in the abyss of the Fall Boundless Innocence in Thomas Traherne's *Poetic Theology* traces innocence through Traherne's works as it transgresses the boundaries of the

estates of the soul Using grammatical and literary categories it explores various aspects of his poetic theology of innocence uncovering the boundless desire which is embodied in the yearning cry Were all Men Wise and Innocent Recovering and reinterpreting a key but increasingly neglected theme in Traherne s poetic theology this book addresses fundamental misconceptions of the meaning of innocence in his work Through a contextual and theological approach it indicates the unexplored richness complexity and diversity of this theme in the history of literature and theology

Religion and the Rise of History Leonard S Smith,2010-07-29 The first intellectual history to study the ideal type of model building methodology of Otto Hintze 1861 1940 to Western historical thought and to suggests that Martin Luther also held to a way that was deeply incarnational dynamic and or in with and under This dual vision and a Lutheran ethos strongly influenced Leibniz Hamann and Herder and was therefore a matter of considerable significance for the rise of a distinctly modern form of historical consciousness in Protestant Germany Smith s essay suggests a new time period for the formative age of modern German thought culture and education The Cultural Revolution in Germany

Nature and Scripture in the Abrahamic Religions: God, Scripture and the rise of modern science (1200-1700) Jitse M. van der Meer,Scott Mandelbrote,2008 These volumes describe how the development of the different styles of interpretation found in reading scripture and nature have transformed ideas of both the written word and the created world

Pietism and the Foundations of the Modern World

Justin A. Davis,2019-08-09 The experiential impulse of Protestant Christianity often identified as Pietism is one of the key driving forces in shaping the western world as well as promoting the ethos of individualism and antipathy toward the larger society As such understanding the foundations of Pietism is an essential and overlooked aspect of Western Christianity This work helps to address this gap in scholarship by addressing the first two centuries of Pietism First this work shows where the experiential impulse is found within medieval Christianity specifically in mysticism Following the Protestant Reformation this experiential impulse is unmoored from church tradition but still finds confessional variants including Lutheran Reform and Anglican The work then focuses on six key figures in the development of Pietism specifically William Perkins Johann Arndt Philip Spener August Francke Count Zinzendorf and John Wesley demonstrating that Pietism begins as a protest against institutional forms but then grows into institutional and denominational forms itself These institutional forms include Moravians Methodists and Prussianism which directly shaped Germany England and America though the latter not until the nineteenth century This work reveals the diverse impact Pietism had while remaining a cohesive yet contradictory movement

Richard Hooker, the Rule of Faith, and the Rise of Religious Evidentialism Nigel Voak,2025-03-10 Nigel Voak examines the genesis and evolution of religious evidentialism in England from 1585 to 1700 a deeply influential epistemology which claims that religious beliefs are only justified to the extent that we have evidence to substantiate them and that we have an obligation to proportion our assent to the strength of our evidence Given the propositions of faith lack the evidentness of objects of scientific knowledge absolutely certain assent to such beliefs is therefore epistemically unjustifiable

This epistemology which breaks with the previous Christian tradition is classically formulated in John Locke's *An Essay concerning Human Understanding* first edition 1690 This study argues that this epistemology of belief can be traced back to the English theologian Richard Hooker 1554-1600 whose thought was then developed over the course of the seventeenth century Rule of Faith Controversy which acted as the crucible for these new ideas on faith evidence and certainty Voak shows that the key thinkers in this process including Locke himself were aware that this epistemology came from Hooker and used him in formulating their own influential positions *The Origins of Mark* Dwight Peterson, 2021-10-11 The book observes and calls into question the scholarly practice of constructing a community behind the Gospel of Mark and by implication other Gospels as well and using that community to control appropriate interpretation of Mark It presents and critiques particular exemplars of this practice and briefly suggests other ways to ground the interpretation of Mark After an introduction chapters are devoted to the work of Werner Kelber Howard Clark Kee and Ched Myers Critical conclusions are then drawn after which the recent work of Joel Marcus is discussed A final chapter briefly suggests ways forward Constructing communities behind Gospels and using those communities as interpretive keys in Gospel interpretation is a widespread scholarly practice To date no full length critique of the practice has been published This book fills that lacuna

A Emergent Manifesto of Hope (ēmerſion: Emergent Village resources for communities of faith) Doug Pagitt, Tony Jones, 2008-07-01 Many have heard of the emerging church but few people feel like they have a handle on what the emerging church believes and represents Is it a passing fad led by disenfranchised neo evangelicals Or is it the future of the church at large Now available in trade paper *An Emergent Manifesto of Hope* represents a coming together of divergent voices into a conversation that pastors students and thoughtful Christians can now learn from and engage in This unprecedented collection of writings includes articles by some of the most important voices in the emergent conversation including Brian McLaren Dan Kimball and Sally Morgenthaler It also introduces some lesser known but integral players representing who's next within the emerging church The articles cover a broad range of topics such as spirituality theology multiculturalism postcolonialism sex evangelism and many others Anyone who wants to know what the emerging church is all about needs to start here

The Philosophy of Law Christopher Berry Gray,1999 This encyclopedia offers systematic and sustained coverage of the many dimensions of legal thought and gives expression to the breadth and depth of the philosophy of law *Global Religions* Mark Juergensmeyer,2003-03-20 Can Islam be located on a map Is Europe the center of the Christian world Is India a Hindu nation While decades ago these questions were often answered in the affirmative the truth has never been that simple Not only are adherents of particular faiths spread across the globe but there are many variations of a particular faith practiced side by side This has only become more true in recent years as the pace of globalization has quickened The essays collected here provide brief and accessible introductions to the major world religions in their global contexts The volume begins with an introduction to the globalization of religion by Mark Juergensmeyer and is followed by individual essays on Christianity Islam Judaism Hinduism Buddhism and local religious societies The book concludes with three essays reflecting on the global religious scene Taken together these essays provide a concise authoritative and highly readable introduction to the state of worldwide religion in the 21st century Authentically Emergent R. Scott Smith,2018-08-08 Are Brian McLaren Tony Jones Doug Pagitt and Rob Bell yesterday s news as many evangelicals seem to think Truth and the New Kind of Christian 2005 tried to provide a balanced assessment of McLaren s and Jones s views But they seem to be right about much more that is affecting evangelicals than was realized then Also that book misunderstood one of their core claims everything is interpretation Moreover their views have developed over the years e g ethically about colonialism its influences and how we should live now They also have advanced several further claims about the gospel and traditional doctrines To what extent should Christians embrace their views Are these the ways to go forward toward a more authentic Christianity one that is morally better and a better fit for our times Like Truth this book gives careful attention to their thought It also offers its own portrait of major shaping influences on Western Americanized Christianity But there remains a root issue that keeps the Western church whether progressive emergents or evangelicals in its Babylonian captivity It is liberation from that root that will lead to an authentically emergent Christianity **The Rise and Influence of the Spirit of Rationalism in Europe**

William Edward Hartpole Lecky, 2022-11-13 In *The Rise and Influence of the Spirit of Rationalism in Europe* William Edward Hartpole Lecky embarks on an intricate exploration of the evolution of rational thought across Europe from the Renaissance to the 19th century. Lecky employs a compelling narrative style deftly combining historical analysis with philosophical discourse to illuminate how rationalism emerged as a transformative force against the backdrop of superstition and dogma. Through meticulous research he articulates the complex interplay between various intellectual movements, religions, and scientific advancements, revealing how rationalism reshaped societal norms, ethics, and political thinking in profound ways. Lecky, an influential Irish historian and philosopher, was deeply entrenched in the intellectual currents of his time, which informed his exploration of rationalism. His interest in the interplay of history, ethics, and societal development is evident in his broader work, which often emphasizes the importance of reason and skepticism. Growing up in a time marked by scientific discovery and ideological upheaval likely fueled his quest to articulate the significant impact of rational thought on European civilization. This book is essential for readers interested in the foundations of modern thought and the historical evolution of rationalism. Lecky's nuanced understanding offers an enlightening perspective that resonates with contemporary debates about the role of reason in public discourse. Whether a scholar of philosophy or a curious reader, this work will enrich your understanding of the intellectual heritage of Europe.

Martyrdom and the Politics of Religion Anna Lisa Peterson, 1997-01-01 *Martyrdom and the Politics of Religion* explores the ways that Salvadoran Catholics sought to make sense of political violence in their country in the 1970s and 1980s by constructing a theological ethics that could both explain repression in religious terms and propose specific responses to violence. Drawing on extensive fieldwork, the book highlights the ways that progressive Catholicism offered a justification and tools for political resistance in the face of extraordinary destruction. Using the case of Catholicism in El Salvador, the book explores the nature of religious responses to social crisis and the ways that ordinary believers construct and strive to live by ethical systems. By highlighting the importance of theological belief, narrative, and of religious rationality in political mobilization, it touches questions of general interest to readers concerned with the social role of religion and ethics.
