JOAN R. PIGGOTT

# Emergence Of Japanese Kingship

**Declan Quigley**

## **Emergence Of Japanese Kingship:**

**The Emergence of Japanese Kingship** Joan R. Piggott, Piggott Joan, 1997 This is the first comprehensive study of the sources and nature of classical Japanese kingship and state formation To draw new insights from the rich body of extant documents and artifacts from early Japan the author employs the analytical tools of recent Western historiography and anthropology constructing an archeology of kingship that begins by exposing the roots of Japanese monarchy in third century chieftaincy The book then traces sovereignty and polity through a series of temporal cross sections analogous to an archaeologist's trenches to reveal artifacts from seven historical epochs including an array of chieftains kings and sovereigns variously styled as Son of Heaven Polestar Monarch and Heavenly Sovereign These sacral and increasingly courtly rulers both men and women first presided over confederate chieftaincies then expansive coalescent polities and eventually the archipelago's earliest state formation Nihon The book culminates in an account of the reign of the mid eighth century monarch Shomu who represented the zenith of classical Japanese kingship and was supported by a bureaucracy of more than 7 000 people Shomu's opulent Chinese style palace and the unprecedented monumental Temple of the Great Buddha at Todaiji were replicated in smaller scale by provincial headquarters and temples all of which functioned as ritual stages for articulating Shomu's cultural hegemony Although the forms of classical Japanese kingship court fisc dynasty and realm continued to develop in subsequent centuries all assumed their basic form in the age of Shomu The author has sought to counter the ahistoricity that characterizes much scholarship concerning early Japanese kingship and to broaden the geographical and disciplinary contexts within which Japanese kingship has been examined As long as evidence was limited to certain myth histories compiled in the eighth century which traced the rule of Heavenly Sovereigns and their realm of Nihon back to prehistory ahistoricity was inevitable The author suggests that only when such narratives are reread in the light of evidence from archaeology continental history and comparative ethnohistorical research can new scenarios be formulated to trace the emergence of paramount rule

**The Character of Kingship** Declan Quigley, 2020-05-31 Why has monarchy been such a prevalent institution throughout history and in such a diverse range of societies Kingship is at the heart of both ritual and politics and has major implications for the theory of social and cultural anthropology Yet despite the contemporary fascination with royalty anthropologists have sorely neglected the subject in recent decades This book combines a strong theoretical argument with a wealth of ethnography from kingships in Africa Asia and the Pacific Quigley gives a timely and much needed overview of the anthropology of kingship and a crucial reassessment of the contributions of Frazer and Hocart to debates about the nature and function of royal ritual From diverse fieldwork sites a number of eminent anthropologists demonstrate how ritual and power intertwine to produce a series of variations around myth tragedy and historical realities However underneath this diversity two common themes invariably emerge the attempt to portray kingship as timeless and perfect and the dual nature of the king as sacred being and scapegoat Routledge Handbook of Premodern Japanese

History Karl F. Friday, 2017-07-14 Scholarship on premodern Japan has grown spectacularly over the past four decades in both sophistication and volume The new scholarship sees a higher reliance on primary documents a shift away from the history of elites to broader exploration of social structures and a reexamination of many of the key tenets which were once the received wisdom Providing a primarily historiographical review this handbook highlights the recent innovations and major themes that have developed in the study of premodern Japanese history Covering Japanese history to 1600 The Routledge Handbook of Japanese History is an essential reference work for any student and researcher on Japanese Asian and World History

**A History of Japan** Conrad Totman, 2014-09-11 This is an updated edition of Conrad Totman's authoritative history of Japan from c 8000 BC to the present day The first edition was widely praised for combining sophistication and accessibility Covers a wide range of subjects including geology climate agriculture government and politics culture literature media foreign relations imperialism and industrialism Updated to include an epilogue on Japan today and tomorrow Now includes more on women in history and more on international relations Bibliographical listings have been updated and enlarged Part of The Blackwell History of the World Series The goal of this ambitious series is to provide an accessible source of knowledge about the entire human past for every curious person in every part of the world It will comprise some two dozen volumes of which some provide synoptic views of the history of particular regions while others consider the world as a whole during a particular period of time The volumes are narrative in form giving balanced attention to social and cultural history in the broadest sense as well as to institutional development and political change Each provides a systematic account of a very large subject but they are also both imaginative and interpretative The Series is intended to be accessible to the widest possible readership and the accessibility of its volumes is matched by the style of presentation and production

Japan in World History James L. Huffman, 2010-02-04 Japan in World History addresses the entire scope of Japanese history beginning with Japan's prehistoric culture and ending with a look at Japan in the world today The majority of large scale history books on Japan by contrast focus on the modern era and those that cover the entire scope of its history are not written for general readers and do not focus on Japan's international engagement This work stands apart for its narration of traditional historical developments through the perspective of interactions and comparisons with the broader world

**Brief History of Japan** Jonathan Clements, 2017-08-01 This fascinating history tells the story of the people of Japan from ancient teenage priest queens to teeming hordes of salarymen a nation that once sought to conquer China yet also shut itself away for two centuries in self imposed seclusion First revealed to Westerners in the chronicles of Marco Polo Japan was a legendary faraway land defended by a fearsome Kamikaze storm and ruled by a divine sovereign It was the terminus of the Silk Road the furthest end of the known world a fertile source of inspiration for European artists and an enduring symbol of the mysterious East In recent times it has become a powerhouse of global industry a nexus of popular culture and a harbinger of post industrial decline With intelligence and wit author Jonathan Clements blends documentary

and storytelling styles to connect the past present and future of Japan and in broad yet detailed strokes reveals a country of paradoxes a modern nation steeped in ancient traditions a democracy with an emperor as head of state a famously safe society built on 108 volcanoes resting on the world's most active earthquake zone a fast paced urban and technologically advanced country whose land consists predominantly of mountains and forests Among the chapters in this Japanese history book are The Way of the Gods Prehistoric and Mythical Japan A Game of Thrones Minamoto vs Taira Time Warp 200 Years of Isolation The Stench of Butter Restoration and Modernization The New Breed The Japanese Miracle     The Origin of Modern Shinto in Japan Yijiang Zhong,2016-10-06 Yijiang Zhong analyses the formation of Shinto as a complex and diverse religious tradition in early modern and Meiji Japan 1600 1868 Highlighting the role of the god Okuninushi and the mythology centered on the Izumo Shrine in western Japan as part of this process he shows how and why this god came to be ignored in State Shinto in the modern period In doing so Zhong moves away from the traditional understanding of Shinto history as something completely internal to the nation of Japan and instead situates the formation of Shinto within a larger geopolitical context involving intellectual and political developments in the East Asian region and the role of western colonial expansion The Origin of Modern Shinto in Japan draws extensively on primary source materials in Japan many of which were only made available to the public less than a decade ago and have not yet been studied Source materials analysed include shrine records and object materials contemporary written texts official materials from the national and provincial levels and a broad range of visual sources based on contemporary prints drawings photographs and material culture     Women Who Ruled the World Elizabeth Norton,2025-09-04 A breath taking history of female sovereignty Alison Weir Gripping and beautifully crafted Tracey Borman Filled with fascinating figures from history Gareth Russell These are the stories of the female kings women who risked everything sometimes unwillingly to find their place in a man's world Female kings have always been a rarity an oddity or an undesirable outcome In almost all places throughout the world a male ruler was preferred to a woman with female inheritance vanishingly rare and frequently disputed In spite of this women have secured crowns or fought for them over several millennia From the lush oases of Ancient Egypt to the cherry blossomed lands of Japan the machinations of the Tudor court to the far reaches of Pacific Island kingdoms Women Who Ruled the World is an expansive and comprehensive history of female royal power Covering five millennia of global history renowned historian Elizabeth Norton weaves together the stories of women rulers throughout the ages Establishing beloved and already celebrated figures amongst those who have been left in the margins of history Norton peels away the layers of time geography and culture to reveal what it was to be a woman who ruled     *A Brief History of the Samurai* Jonathan Clements,2013-02-07 Clements has a knack for writing suspenseful sure footed conflict scenes His recounting of the Korean invasion led by samurai and daimyo Toyotomi Hideyoshi reads like a thriller If you're looking for a samurai primer Clements guide will keep you on the hook Japan Times reviewed as part of an Essential Reading for Japanophiles series From a leading expert in Japanese history this

is one of the first full histories of the art and culture of the Samurai warrior The Samurai emerged as a warrior caste in Medieval Japan and would have a powerful influence on the history and culture of the country from the next 500 years Clements also looks at the Samurai wars that tore Japan apart in the 17th and 18th centuries and how the caste was finally demolished in the advent of the mechanized world *Shinto* Helen Hardacre,2017 Helen Hardacre offers for the first time in any language a sweeping comprehensive history of Shinto the tradition that is practiced by some 80% of the Japanese people and underlies the institution of the Emperor Tsumi - Offence and Retribution in Early Japan Yoko Williams,2013-10-11 Covering the period from before the emergence of the first political units through to the formation of the Japanese ritsuryo state in the 8th century this book offers a ground breaking scholarly diachronic analysis of tsumi offence and retribution from a politico historical perspective Taking as its starting point the native forms of tsumi in the realms of myth and prayer the study traces their development through the periods of the formation of the state and the centralization of the governing structure to the introduction of a written law system of governing Through detailed and logical analysis this study illuminates early Japanese political thought written and unwritten law and the essentially political notion of tsumi **On the Process of Civilisation in Japan** Wai Lau,2022-11-03 Winner of the Norbert Elias Book Prize 2023 This book charts the process of civilisation in Japan Using the theory of civilising processes developed by Norbert Elias the author examines the complex underlying structural and psychological processes from the seventh century to the twentieth century Furthermore by drawing on rich historical data the author illustrates how these complex processes led the Japanese to see themselves as more civilised than their forebears and neighbouring countries Although the theory serves as an important reference point the author draws on other works to address different complex questions surrounding Japanese development Therefore this book presents three key themes first it gives an alternative understanding of the complex developments of Japanese society second it intercedes into an ongoing debate about the applicability of Elias s theory in a non Western context and third it expands Elias s theory A Cultural History of Japanese Buddhism William E. Deal,Brian Ruppert,2015-03-31 A Cultural History of Japanese Buddhism offers a comprehensive nuanced and chronological account of the evolution of Buddhist religion in Japan from the sixth century to the present day Traces each period of Japanese history to reveal the complex and often controversial histories of Japanese Buddhists and their unfolding narratives Examines relevant social political and transcultural contexts and places an emphasis on Japanese Buddhist discourses and material culture Addresses the increasing competition between Buddhist Shinto and Neo Confucian world views through to the mid nineteenth century Informed by the most recent research including the latest Japanese and Western scholarship Illustrates the richness and complexity of Japanese Buddhism as a lived religion offering readers a glimpse into the development of this complex and often misunderstood tradition **The Postwar Development of Japanese Studies in the United States** Helen Hardacre,2023-07-17 The present volume documents the postwar history of United States scholarship on Japan A

careful selection of North American scholars under the general editorship of Helen Hardacre Reischauer Institute Professor of Japanese Religions and Society at Harvard University shows that a range of factors have directed Japanese studies in the United States since 1945 Among these factors are social and political change in Japan and the United States shifts in dominant scholarly concerns about Japan and changing evaluations of area studies The work consists of twelve essays in a wide variety of fields history art religion literature anthropology political science and law Each essay chronicles postwar scholarship in its particular discipline and provides a useful bibliography to serve further reference The general aim of the volume is to put current debates in historical perspective and to help assess the field's achievements It identifies areas requiring more work and charts directions for the future The Postwar Developments of Japanese Studies in the United States Helen Hardacre, 1998 This volume of twelve essays with useful bibliographies in the fields of history art religion literature anthropology political science and law documents the history of United States scholarship on Japan since 1945

Women in Japanese Religions Barbara R Ambros, 2015-05-29 A comprehensive history of women in Japanese religious traditions Scholars have widely acknowledged the persistent ambivalence with which the Japanese religious traditions treat women Much existing scholarship depicts Japan's religious traditions as mere means of oppression But this view raises a question How have ambivalent and even misogynistic religious discourses on gender still come to inspire devotion and emulation among women In Women in Japanese Religions Barbara R Ambros examines the roles that women have played in the religions of Japan An important corrective to more common male centered narratives of Japanese religious history this text presents a synthetic long view of Japanese religions from a distinct angle that has typically been discounted in standard survey accounts of Japanese religions Drawing on a diverse collection of writings by and about women Ambros argues that ambivalent religious discourses in Japan have not simply subordinated women but also given them religious resources to pursue their own interests and agendas Comprising nine chapters organized chronologically the book begins with the archeological evidence of fertility cults and the early shamanic ruler Himiko in prehistoric Japan and ends with an examination of the influence of feminism and demographic changes on religious practices during the lost decades of the post 1990 era By viewing Japanese religious history through the eyes of women Women in Japanese Religions presents a new narrative that offers strikingly different vistas of Japan's pluralistic traditions than the received accounts that foreground male religious figures and male dominated institutions **Himiko and Japan's Elusive Chieftom of Yamatai** J. Edward Kidder, 2007-02-28 The third century Chinese chronicle Wei zhi Record of Wei is responsible for Japan's most enduring ancient mystery This early history tells of a group of islands off the China coast that were dominated by a female shaman named Himiko Himiko ruled for more than half a century as head of the largest chieftom traditionally known as Yamatai until her death in 248 Yet no such person appears in the old Japanese literature Who was Himiko and where was the Yamatai she governed In this the most comprehensive treatment in English to date a senior scholar of early Japan turns to three sources

historical archaeological and mythological to provide a multifaceted study of Himiko and ancient Japanese society

**Japanese Mythology and the Primeval World** Peter Metevelis, 2009-05 The Japanese have faithfully preserved their ancient myths as a connected and well ordered system And as a system Japanese myths say much about the human condition in the cosmos and about the human place in the cosmic order Not until now has a book length English language study been released on Japanese mythology Drawing on his meticulous research Asianist Peter Metevelis presents this selection of analytic essays that form a mosaic of themes on the primordial world of Japanese myth adding a rewarding voice to cultural history and the history of ideas around the world Metevelis shows that contrary to popular belief Japanese myths have much in common with other myths around the globe and are mythically logically and symbolically equivalent This suggests that Japanese culture has always resonated with the rest of the world and provides a valuable touchstone for comparative mythologists The mythic themes Metevelis explores include Linkage of birth with death Loss of immortality Containment of souls Effect of time on mortals Creation of the cosmos And many more This incomparable volume also includes detailed notes bibliographies and appendices to help further your knowledge of Japanese myth Under Metevelis s expert guidance you can expand your understanding of the Japanese myth system its structure and its principal actors and immerse yourself in the ancient Japanese mysteries of the cosmos

**Invented History, Fabricated Power** Barry Wood, 2020-11-16 Invented History Fabricated Power begins with an examination of prehistoric beliefs in spirits souls mana orenda that provided personal explanation and power through ritual and shamanism among tribal peoples On this foundation spiritual power evolved into various kinds of divine sanction for kings and emperors Sumerian Egyptian Greek Roman Indian Chinese and Japanese As kingships expanded into empires fictional histories and millennia long genealogies developed that portrayed imperial superiority and greatness Supernatural events and miracles were attached to religious founders Hebrew Hindu Buddhist Christian Islamic A unique variation developed in the Roman Church which fabricated papal power through forgeries in the first millennium CE and the later doctrine of discovery which authorized European domination and conquest around the world during the Age of Exploration Elaborate fabrications continued with epic histories and literary cycles from the Persians Ethiopians Franks British Portuguese and Iroquois Indians Both Marxists and Nazis created doctrinal texts which passed for economic or political explanations but were in fact self aggrandizing narratives that eventually collapsed The book ends with the idealistic goals of the current liberal democratic way of life pointing to its limitations as a sustaining narrative along with numerous problems threatening its viability over the long term

*Dynamics of Deep Time and Deep Place* Laura Doyle, Simon Gikandi, Mwangi wa Gĩthĩnji, 2025-04-10 Dynamics of Deep Time and Deep Place comprises one volume in an unprecedented three volume set collectively subtitled Decolonial Reconstellations Together with Volume Two Dissolving Master Narratives and Volume Three Reconceiving Identities in Political Economy it gathers thinkers from across world regions and disciplines who reconfigure critical global thought Collaboratively conceived the volumes are founded on

the observation that we cannot fully uproot the epistemological material violence of coercive systems nor fully re imagine more ethical visions of planetary community without shared attention to the deeper histories of place and peoples that shape the present Accordingly the volumes gather social scientists and humanists Indigenous and non Indigenous scholars and intersectional and materialist thinkers who reconceptualize longue dur e history and its afterlives They engage in the dual project to dismantle eurocentric colonial androcentric frameworks and to make visible the legacies of care and creative world making that have sustained human communities Uncovering pasts that are as complex and dynamic as the present the contributors brilliantly transform notions of temporality relationability polity conjuncture resistance and experimentation within histories of struggle and alliance They richly decolonize political imaginaries The co editors introductions articulate fresh frameworks of deep place and deep time freed from eurocentric modernity paradigms indicating pathways toward decolonial collaboration and institutional change Decolonial Reconstellations offers invaluable resources for researchers and teachers in decolonial postcolonial anti colonial and Indigenous studies and will also strongly appeal to feminist anti racist Marxist and critical theory scholars across disciplines

## Reviewing **Emergence Of Japanese Kingship**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is actually astonishing. Within the pages of "**Emergence Of Japanese Kingship**," an enthralling opus penned by a very acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve into the book's central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.

## Emergence Of Japanese Kingship Introduction

Emergence Of Japanese Kingship Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Emergence Of Japanese Kingship Offers a vast collection of books, some of which are available for free as PDF downloads, particularly older books in the public domain. Emergence Of Japanese Kingship : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Emergence Of Japanese Kingship : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Emergence Of Japanese Kingship Offers a diverse range of free eBooks across various genres. Emergence Of Japanese Kingship Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Emergence Of Japanese Kingship Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Emergence Of Japanese Kingship, especially related to Emergence Of Japanese Kingship, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Emergence Of Japanese Kingship, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Emergence Of Japanese Kingship books or magazines might include. Look for these in online stores or libraries. Remember that while Emergence Of Japanese Kingship, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local library offers eBook lending services. Many libraries have digital catalogs where you can borrow Emergence Of Japanese Kingship eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Emergence Of Japanese Kingship full book , it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of

Emergence Of Japanese Kingship eBooks, including some popular titles.

### FAQs About Emergence Of Japanese Kingship Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Emergence Of Japanese Kingship is one of the best book in our library for free trial. We provide copy of Emergence Of Japanese Kingship in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Emergence Of Japanese Kingship. Where to download Emergence Of Japanese Kingship online for free? Are you looking for Emergence Of Japanese Kingship PDF? This is definitely going to save you time and cash in something you should think about.
