**The Letters of Robert Frost** Robert Frost, 2021-04-30 The third installment of Harvard's five volume edition of Robert Frost's correspondence The Letters of Robert Frost Volume 3 1929 1936 is the latest installment in Harvard's five volume edition of the poet's correspondence It presents 601 letters of which 425 are previously uncollected The critically acclaimed first volume a Times Literary Supplement Book of the Year included nearly 300 previously uncollected letters and the second volume 350 more During the period covered here Robert Frost was close to the height of his powers If Volume 2 covered the making of Frost as America's poet in Volume 3 he is definitively made These were also however years of personal tribulation The once tight Frost family broke up as marriage illness and work scattered the children across the country In the case of Frost's son Carol both distance and proximity put strains on an already fractious relationship But the tragedy and emotional crux of this volume is the death of Frost's youngest daughter Marjorie Frost's correspondence from those dark days is a powerful testament to the difficulty of honoring the responsibilities of a poet's eminence while coping with the intensity of a

parent's grief Volume 3 also sees Frost responding to the crisis of the Great Depression the onset of the New Deal and the emergence of totalitarian regimes in Europe with wit canny political intelligence and no little acerbity All the while his star continues to rise he wins a Pulitzer for *Collected Poems* in 1931 and will win a second for *A Further Range* published in 1936 and he is in constant demand as a public speaker at colleges writers workshops symposia and dinners Frost was not just a poet but a poet teacher as such he was instrumental in defining the public functions of poetry in the twentieth century In the 1930s Frost lived a life of paradox as personal tragedy and the tumults of politics interwove with his unprecedented achievements Thoroughly annotated and accompanied by a biographical glossary and detailed chronology these letters illuminate a triumphant and difficult period in the life of a towering literary figure **Robert Frost Among His Poems**

middle of the twentieth century Robert Frost was the best loved poet in America He was our nation s bard simple and sincere accompanying us on wooded roads and articulating our hopes and fears After Frost s death these cliches gave way to equally broad though opposed portraits sketched by his biographers chief among them Lawrance Thompson When the critic Helen Vendler reviewed Thompson s biography she asked whether anyone could avoid the conclusion that Frost was a monster In Love and Need The Life of Robert Frost s Poetry Adam Plunkett blends biography and criticism to find the truth of Frost s life one that lies between the two poles of perception Plunkett reveals a new Frost through a careful look at the poems and people he knew best showing how the stories of his most important relationships heretofore partly told mirror dominant themes of Frost s enduring poetry withholding and disclosure privacy and intimacy Not least of these relationships is the fraught intense friendship between Frost and Thompson the major biographer whose record of Frost Plunkett seeks to set straight Moving through Frost s most important work and closest relationships with the attention to detail necessary to see familiar things anew Plunkett offers an original interpretation of Frost s poetry tracing Frost s distinctive achievement to an engagement with poetic tradition far deeper and more extensive than he ever let on Frost invited his readers into a conversation like the one he sustained with his literary forebears intimate and profound yet Frost kept his private self at a remove Here Plunkett brings the two together the poet and the poetry and draws us back into conversation with America s poet

**Take Arms Against a Sea of Troubles** Harold Bloom, 2020-10-13 The great poems, plays, novels, stories teach us how to go on living. Your own mistakes, accidents, failures, at otherness beat you down. Rise up at dawn and read something that matters as soon as you can. So Harold Bloom, the most famous literary critic of his generation, exhorts readers of his last book, one that praises the sustaining power of poetry. Passionate. Perhaps Bloom's most personal work, this is a fitting last testament to one of America's leading twentieth-century literary minds. Publishers Weekly: An extraordinary testimony to a long life spent in the company of poetry and an affecting last declaration of Bloom's passionate and deeply unfashionable faith in the capacity of the imagination to make the world feel habitable. Seamus Perry, *Literary Review*: Reading this stirring collection testifies to helping in staying alive. Kirkus Reviews: starred review. This dazzling celebration of the power of poetry to sublimate death, completed weeks before Harold Bloom died, shows how literature renews life amid what Milton called a universe of death. Bloom reads as a way of taking arms against the sea of life's troubles, taking readers on a grand tour of the poetic voices that have haunted him through a lifetime of reading. High literature, he writes, is a saving lie against time, loss of individuality, premature death. In passages of breathtaking intimacy, we see him awake late at night reciting lines from Dante, Shakespeare, Milton, Montaigne, Blake, Wordsworth, Hart Crane, Jay Wright, and many others. He feels himself edged by nothingness, uncomprehending but still sustained by reading. Generous and clear-eyed, this is among Harold Bloom's most ambitious and most moving books.

In this volume Lesley Lee Francis granddaughter of Robert Frost brings to life the Frost family's idyllic early years. Through their own words we enter the daily lives of Robert known as RF to his family and friends his wife Elinor and their four children Lesley Carol Irma and Marjorie. The result is a meticulously researched and beautifully written evocation of a fleeting chapter in the life of a literary family. Taught at home by their father and mother the Frost children received a remarkable education. Reared on poetry nurtured on the world of the imagination and instructed in the art of direct observation the children produced an exceptional body of writing and artwork in the years between 1905 and 1915. Drawing upon previously unexamined journals notebooks letters and the little magazine entitled *The Bouquet* produced by the Frost children and their friends Francis shows how the genius of Frost was enriched by his interactions with his children. Francis depicts her grandfather as a generous devoted and playful man with a striking ability to communicate with his children and grandchildren. She traces the family's adventures from their farm years in New Hampshire through their nearly three years in England. This enchanting evocation of the Frost family's life together makes more poignant the unforeseen personal tragedies that would befall its members in later years.
