Israel,2015-09-22 Historians of the French Revolution used to take for granted what was also obvious to its contemporary observers that the Revolution was caused by the radical ideas of the Enlightenment Yet in recent decades scholars have argued that the Revolution was brought about by social forces politics economics or culture almost anything but abstract notions like liberty or equality In *Revolutionary Ideas* one of the world s leading historians of the Enlightenment restores the Revolution s intellectual history to its rightful central role Drawing widely on primary sources Jonathan Israel shows how the Revolution was set in motion by radical eighteenth century doctrines how these ideas divided revolutionary leaders into vehemently opposed ideological blocs and how these clashes drove the turning points of the Revolution *Revolutionary Ideas* demonstrates that the Revolution was really three different revolutions vying for supremacy a conflict between constitutional monarchists such as Lafayette who advocated moderate Enlightenment ideas democratic republicans allied to Tom Paine who fought for Radical Enlightenment ideas and authoritarian populists such as Robespierre who violently rejected key Enlightenment ideas and should ultimately be seen as Counter Enlightenment figures The book tells how the fierce rivalry between these groups shaped the course of the Revolution from the Declaration of Rights through liberal monarchism and democratic republicanism to the Terror and the Post Thermidor reaction In this compelling account the French Revolution stands once again as a culmination of the emancipatory and democratic ideals of the Enlightenment That it ended in the Terror represented a betrayal of those ideas not their fulfillment book jacket

**Women and Portraits in Early Modern Europe** Andrea Pearson,2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women s images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book s broad contributions it dispels false assumptions about agency s possibilities and limits showing

how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject     "Foreign Artists and Communities in Modern Paris, 1870-1914 "

Kazmierczak,Jolanta Rzegocka,2018-12-17 Mark Twain the great American writer of the South whose characters struggle with difficult choices famously said Always do what is right It will gratify half of mankind and astound the other Taking Twain s phrase as a starting point this book considers how literature and art explore different systems of values and principles of conduct and how they can teach us to cope at times of trial Morality remains one of the most contested areas of thought and ethics in the modern world due to numerous misapprehensions and the move away from solidarity from what we share and hold in common particularly our inherent pursuit of virtue and consideration of principles concerning the distinction between right and wrong good and bad Featuring essays by scholars from countries which have seen traditions of virtue and character formation perish in the course of tragic social experiments this book highlights the role of literature and arts in educating about virtues and character in both a regional and global context The volume offers philosophical analysis of moral
