This anthology makes accessible to readers ten little known and under studied works by seventeenth century women edited from manuscript and print that explore the relationship between spiritual and physical health in the period Providing a detailed and engaging introduction to the issues confronted when studying women s writing from this era the anthology also examines female interpretations of illness exploring beliefs that toothache and miscarriage could be God s punishments but also paradoxically that such terrible suffering could be understood as proof that a believer was eternally beloved The extracts in the anthology explore how illness was an important part of women s religious conversion often confirming religious belief but also how

women could advise others about their physical and spiritual health in manuscript and print The anthology includes a thorough introduction to the period s medical and religious beliefs as well as an introduction to contemporary ideas about women s physical and spiritual make up Each of the ten extracts also has its own preface highlighting relevant contexts and further reading and is fully annotated *The Oxford History of Poetry in English* ,2024-08-08 The Oxford History of Poetry in English OHOPE is designed to offer a fresh multi voiced and comprehensive analysis of poetry from Anglo Saxon culture through contemporary British Irish American and Global culture including English Scottish and Welsh poetry Anglo American colonial and post colonial poetry and poetry in Canada Australia New Zealand the Caribbean India Africa Asia and other international locales OHOPE both synthesizes existing scholarship and presents cutting edge research employing a global team of expert contributors for each of the fourteen volumes By taking as its purview the full seventeenth century 1603 1700 this volume re draws the existing literary historical map and expands upon recent rethinking of the canon Placing the revolutionary years at the centre of a century of poetic transformation and putting the Restoration back into the seventeenth century the volume registers the transformative effects on poetic forms of a century of social political and religious upheaval It considers the achievements of a number of women poets not yet fully integrated into traditional literary histories It assimilates the vibrant literature of the English Revolution to what came before and after registering its long term impact It traces the development of print culture and of the literary marketplace alongside the continued circulation of poetry in manuscript It places John Milton Andrew Marvell Margaret Cavendish and Katherine Philips and other mid century poets into the full century of specifically literary development It traces continuity and change imitation and innovation in the full century trajectory of such poetic genres as sonnet elegy satire georgic epigram ode devotional lyric and epic The volume s attention to poetic form builds on the current upswing in historicist formalism allowing a close focus on poetry as an intensely aesthetic and social literary mode Designed for maximum classroom utility the organization is both thematic and in the authors section chronological After a comprehensive Introduction organizational sections focus on Transitions Materiality Production and Circulation Poetics and Form Genres and Poets **Report of the Commissioner of Indian Affairs** United States.
