Elk Mystique:

Elk Mystique Mike Lapinski, 1998 My Journey Jim Woods, 2019-10-07 Jim Woods was a sports hunter writer outdoorsman and game hunter Follow his journey from his early beginnings in the Navy through many hunting adventures both in the Eastern and Western hemispheres as he searches for and bags trophy game Grassroots Ecology Ken Greenwood, 2008-10-23 Whether you are an ecologist an environmentalist or an economist a philosopher or a political scientist this book will make you think differently about your chosen field *Hits and Misses* Jim Woods, 2019-10-05 These accounts of shooting birds and hunting big game mostly relate the author's adventures in North America Canada and The United States Game species encountered or hoped to encounter include mule deer whitetail deer blacktail deer pronghorn antelope elk bear turkey and geese But by convenience and necessity because all his hunts don't fit neatly into the confines of North America and the author had no other place to tell a couple of unique hunt stories this volume also includes reports of dove hunting in Honduras and red stag in Spain Mainly this collection tells the story of one hunter who just happened to be a writer and whose job sometimes required him to go hunting making him if not a PH professional hunter then perhaps a PTPH part time or a SPH semi Either way for him it was a dream job **The Archaeology and Historical Ecology of Small Scale Economies** Victor D. Thompson, James C. Waggoner Jr., 2019-03-01 Most research into humans impact on the environment has focused on large scale societies a corollary assumption has been that small scale economies are sustainable and in harmony with nature The contributors to this volume challenge this notion revealing how such communities shaped their environment and not always in a positive way Offering case studies from around the world from Brazil to Japan Denmark to the Rocky Mountains the chapters empirically demonstrate the substantial transformations of the surrounding landscape made by hunter gatherer and limited horticultural societies Summarizing previous research as well as presenting new data this book shows that the environmental impact and legacy of societies are not always proportional their size Understanding that our species leaves a footprint wherever it has been leads to both a better understanding of our prehistoric past and to deeper implications for our future relationship to the world around us Restoring America's Wildlife, 1937-1987 Harmon Kallman, 1987 Fittingly the Act's chief sponsors were a Senator from Nevada Key Pittman and a Representative from Virginia A Willis Robertson The Pittman Robertson Act as it came to be called sped through Congress and was signed into law by President Franklin Roosevelt on September 2 1937 From a modest beginning the Pittman Robertson program has grown with the economy and the human population of our country By now it has channeled nearly 17 billion in Federal excise tax receipts augmented by some 600 million from the States into activities to restore wildlife The projects include State acquisition of acreage needed to bring wildlife back research into wildlife requirements and problems active management of habitats and development of scientific ways to enable wildlife and people to share our land in harmony The program has strengthened State governments and built wildlife management into a respected profession Field &
