**A Sword for Mother Nature** Terry Grosz, 2002 Award winning author Terry Grosz whose career in conservation is matched by his skill as a

storyteller revisits his rookie years as a fish and game warden for the State of California where his on the job training got him into some awful scrapes but the bad guys he chased almost always got into worse ones As a law enforcement agent he learned to sniff out trouble defuse tense situations and stay alive and as a human being he learned to temper justice with mercy and to treat everyone fairly Grosz s stories are action packed and driven by his passion to preserve our country s wildlife whether he was working under the wing of a mentor fighting out from underfoot of the bureaucrats or stepping on the toes of corrupt and hypocritical politicians     Elkheart David Petersen,1998 From his self built cabin in the southern Rockies and throughout the wilderness West Petersen has spent the past twenty years observing studying praising and defending the grand wild beasts that animate his daily world Especially so the elk a miraculous come back that through the 112 000 member Rocky Mountain Elk Foundation enjoys a larger and more dedicated fan club than even the grizzly bear or wolf In this tightly linked collection of essays Petersen takes us deep into the mountain forests to watch smell and talk with wapiti a Shawnee word meaning white rump and their wild neighbors reflecting with wisdom authority and humility on their evolution their behavior their daily lives and the impacts of the continued suburbanization of the West Our guide looks as well at the various creatures who prey on elk from insects to bears to people with guns In the latter instance Petersen steps boldly beyond conventional side taking to selectively praise the good and damn the bad his only loyalty being truth culminating with an exuberant condemnation of elk ranching and other forms of wildlife profiteering     **Report** Colorado. Game, Fish, and Parks Dept,1916     *The Better to Eat You With* Joel Berger,2009-11-15 At dawn on a brutally cold January morning Joel Berger crouched in the icy grandeur of the Teton Range It had been three years since wolves were reintroduced to Yellowstone after a sixty year absence and members of a wolf pack were approaching a herd of elk To Berger s utter shock the elk ignored the wolves as they went in for the kill The brutal attack that followed swift and bloody led Berger to hypothesize that after only six decades the elk had forgotten to fear a species that had survived by eating them for hundreds of millennia Berger s fieldwork that frigid day raised important questions that would require years of travel and research to answer Can naive animals avoid extinction when they encounter reintroduced carnivores To what extent is fear culturally transmitted And how can a better understanding of current predator prey behavior help demystify past extinctions and inform future conservation The Better to Eat You With is the chronicle of Berger s search for answers From Yellowstone s elk and wolves to rhinos living with African lions and moose coexisting with tigers and bears in Asia Berger tracks cultures of fear in animals across continents and climates engaging readers with a stimulating combination of natural history personal experience and conservation Whether battling bureaucracy in the statehouse or fighting subzero wind chills in the field Berger puts himself in the middle of the action The Better to Eat You With invites readers to join him there The thrilling tales he tells reveal a great deal not only about survival in the animal kingdom but also the process of doing science in foreboding conditions and hostile environments     Forest and Stream ,1904     *Recreation* ,1908     **A Wilderness Within** David
