upon the ambiguity of the immigrants identity which is captured between assimilation and separation and one of the most important questions the book deals with is whether the city can be seen as one of the world s greatest melting pots or just as a huge salad bowl inhabiting all kinds of different cultures The book approaches this topic from an historical and a fictional point of view and concentrates on personal experiences of the immigrants as well as on the cultural impact immigration had on the megalopolis New York City of Nations includes 43 historical photographs and illustrations which give an impression of the early immigrants as well as their living and working conditions

Teaching Cross-Cultural Values Deborah Gonzalez,2004-12 Teaching Cross Cultural Values came out of the need to give students an interactive experience with the course materials and to be able to gently coax them to reevaluate their own values and concepts on diverse cultures in a relatively safe comfortable atmosphere To do that I had to put the focus on them and lead them through the steps by helping them develop critical thinking skills skills that once developed and embedded as a thinking tool would continue to help students meet the challenge of questioning what they see and experience and then analyze their own thinking processes to understand those different from them for long after they leave the classroom The critical reasoning skills explored in this collection of interactive activities are 1 Analytical Thinking Critical Analysis 2 Associative Thinking 3 Creative Thinking 4 Critical Thinking 5 Evaluative Thinking 6 Hypothesis Problem Solving 7 Inductive Deductive Thinking 8 Perceptual Thinking Interpretation Summarizing 9 Questioning 10 Synthesizing
