**Charles Tyrrell; or, The Bitter Blood. Volumes I and II** G. P. R. James, 2019-12-16 In Charles Tyrrell or The Bitter Blood G P R James delves into the turbulent life and mind of its eponymous hero exploring themes of honor passion and the dark intertwining of personal and political conflicts in early 19th century Britain The narrative unfolds with a rich tapestry of romance and adventure revealing both the psychological and societal dimensions of tyranny and rebellion James employs a captivating prose style that merges the romanticism characteristic of the period with an acute awareness of the moral dilemmas faced by his characters situating the novel in the broader context of Victorian literature s burgeoning exploration of individual identity within the constraints of social expectation G P R James an esteemed antiquarian and novelist drew inspiration from the historical complexities and socio

Gilbert, 2019-03-15 In Victorian Skin Pamela K Gilbert uses literary philosophical medical and scientific discourses about skin to trace the development of a broader discussion of what it meant to be human in the nineteenth century Where is

subjectivity located How do we communicate with and understand each other's feelings How does our surface which contains us and presents us to others function and what does it signify As Gilbert shows for Victorians the skin was a text to be read Nineteenth century scientific and philosophical perspectives had reconfigured the purpose and meaning of this organ as more than a wrapping and instead a membrane integral to the generation of the self Victorian writers embraced this complex perspective on skin even as sanitary writings focused on the surface of the body as a dangerous point of contact between self and others Drawing on novels and stories by Dickens Collins Hardy and Wilde among others along with their French contemporaries and precursors among the eighteenth century Scottish thinkers and German idealists Gilbert examines the understandings and representations of skin in four categories as a surface for the sensing and expressive self as a permeable boundary as an alienable substance and as the site of inherent and inscribed properties At the same time Gilbert connects the ways in which Victorians read skin to the way in which Victorian readers and subsequent literary critics read works of

literature and historical events especially the French Revolution From blushing and flaying to scarring and tattooing
