Embargo Disimplemented South Africas Military Industry:

Implementation of the U.S. Arms Embargo (Against Portugal and South Africa, and Related Issues) United States. Congress. House. Foreign Affairs Committee,1973 Towards A Nuclear-weapon-free World - Proceedings Of The Forty-fifth Pugwash Conference On Science And World Affairs Joseph Rotblat,Michiji Konuma,1997-07-01 In this volume scientists write on the desirability and feasibility of eliminating nuclear weapons including reflections 50 years after the destruction of Hiroshima and Nagasaki by atomic bombs The following topics are discussed strategies for preventing the proliferation of weapons of mass destruction ways and means to monitor and control the arms trade the need for global governance specific aspects of security in the Asia Pacific region and interactions between the problems of meeting the world s energy demand reducing environmental pollution and promoting sustainable development South Africa's Armaments Industry Dan Henk,2006-06-22 In 1994 with the advent of majority rule the new South African government faced the hopeful yet sobering task of negotiating the country s past while crafting its future Included in this process was South Africa s armaments industry which had been an important pillar of t *African Defence Journal* ,1990 *Embargo Disimplemented* Signe Landgren,1989 This study of South African weapon programmes and imports of arms components and technology describes how a desperate buyer and eager suppliers have bent or pre empted embargo rules The author explains the role of multinational corporations and South African investments abroad in the process of disimplementation and reveals the parts played by France West Germany Israel Italy the UK and the USA as sources of military technology She provides useful reference information for those studying the theory of arms embargoes or with a special interest in the build up of the South African military industry Although South Africa has acquired knowledge which allows it a degree of self sufficiency the author highlights the areas of its military industry which remain vulnerable **A Military History of Modern South Africa** Ian van der Waag,2018-03-14 The story of a century of conflict and change from the Second Boer War to the anti apartheid movement and the many battles in between Twentieth century South Africa saw continuous often rapid and fundamental socioeconomic and political change The century started with a brief but total war Less than ten years later Britain brought the conquered Boer republics and the Cape and Natal colonies together into the Union of South Africa The Union Defence Force later the SADF was deployed during most of the major wars of the century as well as a number of internal and regional struggles the two world wars Korea uprising and rebellion on the part of Afrikaner and black nationalists and industrial unrest The century ended as it started with another war This was a flash point of the Cold War which embraced more than just the subcontinent and lasted a long thirty years The outcome included the final withdrawal of foreign troops from southern Africa the withdrawal of South African forces from Angola and Namibia and the transfer of political power away from a white elite to a broad based democracy This book is the first study of the South African armed forces as an institution and of the complex roles that these forces played in the wars rebellions uprisings and protests of the

period It deals in the first instance with the evolution of South African defense policy the development of the armed forces and the people who served in and commanded them It also places the narrative within the broader national past to produce a fascinating study of a century in which South Africa was uniquely embroiled in three total wars United States-South Africa Relations United States. Congress. House. Committee on International Relations. Subcommittee on Africa,1978 AF Press Clips ,1987-07 The Namibian War of Independence, 1966-1989 Richard Dale,2014-10-21 The decolonization of Namibia was delayed from 1966 to 1989 the period of the war of independence pitting the Namibian nationalists against the South African minority ruled regime This book describes the diplomatic economic and military campaigns of the Namibian and South African belligerents and draws a comparison with several other decolonization wars Using data from parliamentary debates the aftermath is examined of the Namibian war and the newly independent nation The book provides a basis for further investigation of the decolonization process *The Department of State Bulletin* ,1983 *The Economics of Defense Industry* Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis Switzerland and South Africa 1948-1994 Georg Kreis,2007 While other states imposed economic sanctions on the apartheid regime of South Africa Swiss authorities long adhered to the position that South Africa is a state like any other Swiss big business corporations saw an attractive trade partner in South Africa in part they also profited from the boycotts of others Additionally some political forces sympathised openly with the regime in Pretoria Encouraged by the debate concerning Swiss policy and activity during the Second World War in 1997 the order was given to initiate a historical study of Swiss behaviour towards the apartheid regime Thus this report commissioned by the Swiss parliament and the Federal Council and passed over to the Swiss National Science Foundation for execution came into being It unites the results of ten different research projects The report identifies the most important players

involved in fashioning relations with South Africa it explains the legal situation in which these persons acted and it describes the thought processes that led to the actions The longest chapter deals with the attitudes and the areas of activity in the economic sector Here the trade with loans gold diamonds and war materials is paramount Other chapters are concerned with questions that are not primarily economic in nature such as political declarations the illusion of being in the role of a mediator contacts in sports and culture and after 1986 the beginning of support for the black majority

Disarmament and Defence Industrial Adjustment in South Africa Peter G. Batchelor, Susan Willett, 1998 Peter Batchelor and Susan Willett analyse the response of the South African defence industry to drastic cuts in military expenditure and the demilitarization of society since the end of the cold war and apartheid and the stabilization of the regional security situation The new ANC led government is seeking to use the resources released the peace dividend to restructure and revitalize the country's industrial base and to support reconstruction development and redistribution A lively debate on the country's security needs and strategic doctrine is under way As in other countries strategies of industrial diversification and conversion have met with limited success In the absence hitherto of any coherent government policy on defence industrial adjustment significant skills and technologies have been lost or wasted This book provides a historical analysis of South Africa's unique opportunity to develop new and innovative policies on defence and security matters the arms industry and arms exports and makes a valuable contribution to the international debate on the relationship between disarmament and development
