Embodied Violence:

Embodied Violence Kumari Jayawardena, Malathi de Alwis, 1996-11 Embodied Violence is a major investigation into the myriad of ways in which societies play out the struggle for cultural identity on women's bodies. Focusing on communal violence, it explores how such violence reconfigures women's experiences, facilitates the formation of particular identities, and the dissemination of specific ideologies, and how it positions women vis-à-vis their communities as well as the State. A distinguished cast of contributors explores the relationship between ideals of motherhood, tradition, community, and racial purity, and uncovers the ways in which women's bodies become the recording surface of repressive cultural practices and symbolic humiliations.

The Oxford Handbook of Transnational Feminist Movements Rawwida Baksh-Soodeen, Wendy Harcourt, 2015 The Oxford Handbook of Transnational Feminist Movements explores the historical, political, economic, and social contexts in which transnational feminist movements have emerged and spread, and the contributions they have made to global knowledge, power, and social change over the past half century. The publication of the handbook in 2015 marks the fortieth anniversary of the United Nations International Women's Year, the thirtieth anniversary of the Third World Conference on Women held in Nairobi, the twentieth anniversary of the Beijing Declaration and Platform for Action, and the fifteenth anniversaries of the Millennium Development Goals and of UN Security Council Resolution 1325 on women, peace, and security. The editors and contributors critically interrogate transnational feminist movements from a broad spectrum of locations in the global South and North, feminist organizations and networks at all levels, local, national, regional, global, and wider civil society organizations and networks, governmental and multilateral agencies, and academic and research institutions, among others. The handbook reflects candidly on what we have learned about transnational feminist movements: What are the different spaces from which transnational feminisms have operated, and in what ways? How have they contributed to our understanding of the myriad formal and informal ways in which gendered power relations define and inform everyday life? To what extent have they destabilized or transformed the global hegemonic systems that constitute patriarchy? From a position of fifty years of knowledge production, activism, working with institutions, and critical reflection, the handbook recognizes that transnational feminist movements form a key epistemic community that can inspire and provide leadership in shaping political spaces and institutions at all levels, and transforming international political economy, development, and peace processes. The handbook is organized into ten sections, each beginning with an introduction by the editors. The sections explore the main themes that have emerged from transnational feminist movements: knowledge, theory, and praxis; organizing for change; body politics; health and well-being; human rights and human security; economic and social justice; citizenship and statebuilding; militarism and religious fundamentalisms; peace movements; UNSCR 1325 and postconflict rebuilding; feminist political ecology; and digital age transformations and future trajectories.

The Oxford Handbook of the Sociology of Body and Embodiment Natalie Boero, Katherine Mason, 2020-11-02 In popular debates over the influences of nature versus culture on human lives bodies are often assigned to the category of nature biological essential and pre social The Oxford Handbook of the Sociology of Body and Embodiment challenges that view arguing that bodies both shape and get shaped by human societies As such the body is an appropriate and necessary area of study for sociologists The Handbook works to clarify the scope of this topic and display the innovations of research within the field The volume is divided into three main parts Bodies and Methodology Marginalized Bodies and Embodied Sociology Sociologists contributing to the first two parts focus on the body and the ways it is given meaning regulated and subjected to legal and medical oversight in a variety of social contexts particularly when the body in question violates norms for how a culture believes bodies ought to behave or appear Sociologists contributing to the last part use the bodily as a lens through which to study social institutions and experiences These social settings range from personal decisions about medical treatment to programs for teaching police recruits how to use physical force from social movement tactics to countries understandings of race and national identity The Oxford Handbook of the Sociology of the Body also prioritizes empirical evidence and methodological rigor attending to the ways particular lives are lived in particular physical bodies located within particular cultural and institutional contexts Many chapters offer extended methodological reflections providing guidance on how to conduct sociological research on the body and at times acknowledging the role the authors own bodies play in developing their knowledge of the research subject

Young People and Everyday Peace Helen Berents, 2018-03-19 Young People and Everyday Peace is grounded in the stories of young people who live in Los Altos de Cazuc an informal peri urban community in Soacha to the south of Colombia s capital Bogot The occupants of this community have fled the armed conflict and exist in a state of marginalisation and

social exclusion amongst ongoing violences conducted by armed gangs and government forces Young people negotiate these complexities and offer pointed critiques of national politics as well as grounded aspirations for the future Colombia's protracted conflict and its effects on the population raise many questions about how we think about peacebuilding in and with communities of conflict affected people Building on contemporary debates in International Relations about post liberal everyday peace Helen Berents draws on feminist International Relations and embodiment theory to pay meaningful attention to those on the margins She conceptualises a notion of embodied everyday peace amidst violence to recognise the presence and voice of young people as stakeholders in everyday efforts to respond to violence and insecurity In doing so Berents argues for and engages a more complex understanding of the everyday stemming from the embodied experiences of those centrally present in conflicts Taking young people's lives and narratives seriously recognises the difficulties of protracted conflict but finds potential to build a notion of an embodied everyday amidst violence where a complex and fraught peace can be found Young People and Everyday Peace will be of interest to scholars of Latin American Studies International Relations and Peace and Conflict Studies

(Inter)racial Relationships as Accompaniment in Twenty-First Century African American Novels E. Lâle Demirtürk, 2024-10-15 Inter racial Relationships as Accompaniment in Twenty First Century African American Novels explores the acts of accompaniment to disrupt the embodied discursive practices of whiteness and Black vulnerability as a way to change social relations across racial difference in the novels The novels analyzed in the book explore those Black male characters who work through the norms of whiteness in their relations with Black and white women while at the same time enacting the practices of accompaniment to subvert the embodied practices of whiteness At a time when there is the rise of interest in activist work such as the ongoing Black Lives Matter movement against the systems of white supremacy in the post Trump era these novels shape an understanding of Black characters struggle against discursive violence as a radical social praxis to transform the everyday life The book consists of four chapters on Kalisha Buckhanon's *Speaking of Summer* 2019 Kalisha Buckhanon's *Upstate* 2005 Ben Burgess Jr's *Defining Moments* Black and White 2020 and Walter Mosley's *Every Man a King* A King Oliver Novel 2023 While these novels depict a critique of racialized everyday life they interrogate whiteness as a political act of devaluation of Blackness and Black life by establishing relations through accompaniment The act as such stretches the boundary lines between who is the accompanier and the accompanied in shifting configurations of whiteness and blackness in the positioning of the vulnerable

The Marginalized in Death Jennifer F. Byrnes, Iván Sandoval-Cervantes, 2022-08-31 This volume bridges the gap between forensic and cultural anthropology in how both disciplines describe and theorize the dead highlighting the potential for interdisciplinary scholarship As applied disciplines dealing with some of the most marginalized people in our society forensic anthropologists have the potential to shed light on important and persistent social issues that we face today Forensic anthropologists have successfully pursued research agendas primarily focused on the development of individual biological profiles time since

death recovery and identification Few however have taken a step back from their lab bench to consider how and why people become forensic cases or place their work in a larger theoretical context Thus this volume challenges forensic anthropologists to reflect how we can use our toolkit and databases to address larger social issues and quandaries that we face in a world where some are spared from becoming forensic anthropology cases and others are not As witnesses to violence crimes against humanity and the embodied consequences of structural violence we have the opportunity and arguably the responsibility to transcend the traditional medico legal confines of our small sub discipline by synthesizing forensic anthropology casework into theoretically grounded social science with potentially transformative impacts at a global scale
