

Let's now move on to the **EMERGENCE OF INTERNATIONAL BUSINESS.**

INTERNATIONAL BUSINESS refers to business activities that involve the transfer of resources, goods, services, knowledge, skills, or information across national boundaries.

The resources that make up this flow are *raw materials, capital, goods, services*, and *people*. Goods may be semi-finished or finished assemblies and products. Services include accounting, legal counsel, banking, insurance, management consulting, trade service, education, health care, and tourism, among others. Knowledge and skills include technology and innovation, organizational and managerial skills, and intellectual property rights such as copyrights, trademarks, and brand names. Information flows include databases and their channels and information networks, among others. The parties involved may be individuals like tourists and individual investors buying foreign stocks or bonds, companies (private or public), company clusters or alliances, government bodies such as central banks, and international institutions like World Bank and International Monetary Fund.

A great example of international business in the Philippines is the **BPO industry** where the workers are allowed to work and serve in foreign countries.
