## Emergence Of Romanticism:

The Emergence of Romanticism Nicholas V. Riasanovsky, 1995-05-18 Although primarily known as an eminent historian of Russia Nicholas Riasanovsky has been a longtime student of European Romanticism In this book Riasanovsky offers a refreshing and appealing new interpretation of Romanticism s goals and influence He searches for the origins of the dazzling vision that made the great early Romantic poets in England and Germany Wordsworth Coleridge Novalis and Friedrich Schlegel look at the world in a new way He stresses that Romanticism was produced only by Western Christian civilization with its unique view of humankind s relationship to God The Romantic s frantic and heroic striving after unreachable goals mirrors Christian beliefs in human inability to adequately address God speak to God or praise God Further Riasanovsky argues that Romantic thought had important political implications playing a key role in the rise of nationalism in Europe Offering a historical examination of an area often limited to literary analysis this book gracefully makes a larger historical statement about the nature and centrality of European Romanticism

*Romanticism and the Rise of History* Stephen Bann, 1995 In *Romanticism and the Rise of History* Bann argues that history came of age in Europe during the period following the French Revolution through the end of the nineteenth century becoming an object of widespread desire As one perhaps mildly astonished scholar noted later it was a time when the most simple minded farmhand was able to distinguish an old belfry from a new one and Bann might add perceive value in the old one To draw the reader into his exploration of the nineteenth century s discovery of history Bann presents twenty five images from the period engravings oil paintings sculptures watercolors that appear to both represent and interact with the past Does the suit of armor standing at Walter Scott s shoulder in Sir John Watson Gordon s portrait validate the image of the author as rightful custodian of the past and its relics or is it Scott who through his imaginative interpretation of history imbues this shell of knighthood with lasting significance

*A History of English Romanticism in the*

*Nineteenth Century (Routledge Revivals)* Henry A. Beers, 2015-08-11 A History of English Romanticism in the Nineteenth Century first published in 1926 presents the great artistic and literary innovations of the Romantic movement according to an often overlooked and unacknowledged definition of Romanticism which is of particular relevance in the consideration of the English Romantic spirit pertaining to the style of the Christian and popular literature of the Middle Ages The author recapitulates the key contributions of English poets including Scott Coleridge and Keats in light of their recovery of certain themes and leitmotifs that clearly distinguish the Romantic style In addition the development of the Romantic movement in France and Germany is given some attention and the specific tendencies of their respective approaches is considered in relation to England The emergence of the Pre Raphaelites is investigated and a tentative evaluation of the progress of English Romanticism in the nineteenth century is offered

**The Cambridge History of European Romantic Literature** Patrick Vincent, 2023-11-09 This wide ranging new history of European Romantic Literature presents a pan European phenomenon which transcended national borders and contributed to a new sense of European cultural identity across the continent Conceived in the same spirit as Madame de Staël's cultural and political agenda at a time when her generous idea of Europe is being challenged on all sides the volume pays close attention to the period's circulation of people ideas and texts It proposes to rethink the period comparatively focusing on various forms of cultural mediation and transfer and on productive tensions synchronicities and interactions within and across borders Organized chronologically its twenty chapters address over five hundred works proposing a coherent historical narrative without completely erasing individual nations specificities By showcasing in particular the place of Britain within continental culture the volume hopes to reactivate critical examinations of Romanticism from a historicised European perspective

**The Emergence of Romanticism** Nicholas Valentine Riasanovsky, 2023 **The Birth of Romanticism, 1790-1815** Morse Peckham, 1986 **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism

**Romantic Psychoanalysis** Joel Faflak, 2009-01-08 In this provocative work Joel Faflak argues that Romanticism particularly British Romantic poetry invents psychoanalysis in advance of Freud The Romantic period has long been treated as a time of incipient psychological exploration anticipating more sophisticated discoveries in the science of the mind Romantic Psychoanalysis challenges this assumption by treating psychoanalysis in the Romantic period as a discovery unto itself a way of taking Freud back to his future Reading Romantic literature against eighteenth and nineteenth century philosophy Faflak contends that Romantic poetry and prose including works by Coleridge De Quincey Keats and Wordsworth

remind a later psychoanalysis of its fundamental matrix in phantasy and thus of its profoundly literary nature

**Political Liberalism and the Rise of American Romanticism** Scott M. Reznick, 2024-07-18 Political Liberalism and the Rise of American Romanticism explores how American Romanticism developed in response to pervasive conflicts over democracy's moral dimensions in the early republic and antebellum eras By recovering the long under examined tradition of political liberalism for literary studies it traces how US writers reacted to ongoing moral and political conflict by engaging with liberal thinkers and ideas as they endeavored to understand how individuals beholden to a divergent array of moral convictions might nevertheless share a stable and just political world the very dilemma at the core of political liberalism This study demonstrates how those philosophical engagements sparked Romanticism's rise and eventual flourishing as US writers increasingly embraced Romantic literary modes emphasizing the imagination's capacity for creative synthesis and the role it plays in shoring up the habits of mind and feeling that are vital to a meaningful democratic culture It offers revisionary readings of works by Charles Brockden Brown Robert Montgomery Bird James Fenimore Cooper Harriet Beecher Stowe Frederick Douglass and Nathaniel Hawthorne to show how these Romantic writers were preoccupied with how individuals come to embrace their deepest convictions and what happens when they encounter others who see the world differently

*History of Romanticism* Théophile Gautier, 1902     **Emergent Romanticism in the Drawings of Thomas Girtin** Lynn Mansell Loudon, 1969     *The Romanticism of Contemporary Theory* Justin Clemens, 2017-03-02 Using Phillipe Lacoue Labarthe and Jean Luc Nancy's groundbreaking study of the persistence of German Idealist philosophy as his starting point Justin Clemens presents a valuable study of the links between Romanticism and contemporary theory The central contention of this book is that contemporary theory is still essentially Romantic despite all its declarations to the contrary and despite all its attempts to elude or exceed the limits bequeathed it by Romantic thought The argument focuses on the ruses of Romanticism's indefinable character under two main rubrics Contexts and Interventions The first three chapters investigate Contexts examining some of the broad trends in the historical and institutional development of Romantic criticism the second section Interventions comprises close readings of the work of Jacques Lacan Gilles Deleuze and Félix Guattari Eve Kosofsky Sedgwick Ian Hunter and Alain Badiou In the first chapter Clemens identifies and traces the development of two interlocking recurrent themes in Romantic criticism the Romantic desire to escape Romanticism and the problem posed to aesthetico-philosophical thought by the modern domestication of philosophy in the university He develops these themes in the second chapter by examining the link forged between aesthetics and the subject in the work of Immanuel Kant In the third chapter Clemens shows how the Romantic problems of the academic institution and aesthetics were effectively bound together by the philosophical diagnosis of nihilism Chapter Four focuses on two key moments in the work of Jacques Lacan his theory of the mirror stage and his formulas of sexualization and demonstrates how Lacan returns to the grounding claims of Kantian aesthetics in such a way as to render him complicit with the Romantic thought he often seems to contest In the following chapter taking Deleuze and Guattari's notion of multiplicity as a guiding thread Clemens links their account to their professed anti-Platonism showing how they find themselves forced back onto emblematically Romantic arguments Chapter Six provides a close reading of Sedgwick's most influential text *Epistemology of the Closet* Clemens reading localizes her practice both in the newly consolidated academic field of Queer Theory and in a conceptual genealogy whose roots can be traced back to a particular anti-Enlightenment strain of Romanticism Clemens next turns to the professedly anti-Romantic arguments of Ian Hunter a major figure in the ongoing re-writing of modern histories of education In the final chapter he examines the work of the contemporary French philosopher Alain Badiou Clemens argues that if Badiou's hostility to the diagnosis of nihilism his return to Plato and mathematics and his expulsion of poetry from philosophical method all place him at a genuine distance from dominant Romantic trends even this attempt admits ciphered Romantic elements This study will be of interest to literary theorists philosophers political theorists and cultural studies scholars     *The Textual Sublime* International Association for Philosophy and Literature. Meeting, 1990-01-01 This book addresses the question of

deconstruction by asking what it is and discussing its alternatives To what extent does deconstruction derive from a philosophical stance and to what extent does it depend upon a set of strategies moves and rhetorical practices that result in criticism Special attention is given to the formulations offered by Jacques Derrida in relation to Heidegger's philosophy and by Paul de Man in relation to Kant's theory of the sublime and its implications for criticism And what in deconstructive terms does it mean to translate from one textual corpus into another Is it a matter of different theories of translation or of different practices And what of difference itself Does not difference already invoke the possibility of deconstruction's others Althusser Adorno and Deleuze are offered as exemplary cases The essays in this volume examine in detail these differences and alternatives The Textual Sublime is particularly concerned with how a text philosophical or literary sets its own limits borders and margins how it delimits what constitutes the text per se and how it invokes at the same time what is not determinately in the text The textual sublime is that aspect of a text that deconstruction shows to be both an element of the text and what surpasses the text what takes it outside itself in view of alternatives and alterities and what ties it to differing philosophical rhetorical historical and critical practices

**The Familiar Essay, Romantic Affect and Metropolitan Culture** Simon Peter Hull, 2018-06-11 Through close readings of diverse examples by Lamb De Quincey Hazlitt Irving and Poe this book argues that the familiar essay in the Romantic period embodies a quintessentially metropolitan mode of affect The generic traits of the essay astuteness of observation an ambulatory or paratactic movement of thought and an urbane tone of wry or ironic humour all predispose it to the expression of a detached non pathological state of mind This is a mind conditioned by the quickened pace assorted humanity and plenitude of spectacle which characterise urban and urbanised life In making a valuable genre based contribution to scholarship on the importance to Romantic studies of the city and metropolitan culture the traditional concept of Romantic affect is reassessed The book proposes a more complex and varied model than the simple binary one of a feeling reaction to Enlightenment reason Partly enacted within its own formal parameters and partly through its disruptive and genre transcending progeny the essayistic figure the familiar essay articulates a blithe and at times shocking and provocative discourse of un affect or a strategically and often satirical callousness Therefore the overall concept of affect in this period needs to be understood not as a unified entity opposed to Enlightenment reason but a dialogue between concurrent opposing modes played out against a dichotomized geo cultural landscape of the country and the city Essayistic un affect emerges in the end as an apolitical phenomenon a primary vehicle for the essayist's inherent scepticism sometimes enabling outright ridicule and at other times a tentative questioning or probing of both orthodox thought and emerging ideas from the rarefied liberalist sensibility of the Lake poets to the hubristic vanity of the colonial adventurer and from the allure of hedonistic Old World decadence to the proscriptive strictures of moralistic art
