Outdoor Survival Skills: How To Survive In Almost Any Outdoor Environment is a large and comprehensive guide to mastering the art of wilderness survival. Whether you are an experienced hiker or a complete beginner, this book provides you with the knowledge and skills necessary to survive in the wild. Crafted by an avid outdoor enthusiast, this book covers all aspects of outdoor survival. We start with an overview of the basic survival skills and then move to a comprehensive guide to creating fire, including the fire triangle, advanced fire starting techniques, and how to safely put out your fire when you are finished. We then delve into how to find a source of water and how to purify it to make it safer to drink. Staying warm and preventing Hypothermia and what to do if someone gets too cold is the next chapter. Then we get into selecting the ideal location for making camp and how to make an A-frame, Lean-to, or a Cocoon shelter. No survival guide would be complete without a section about navigation; we cover this in detail both with and without a compass. Next, we look at Skills for Finding and Prepping Food, including identifying edible plants, hunting, and trapping, and even fishing. Finally, we complete this huge 85,000-word guide with extra tips and tricks and a comprehensive FAQ based on actual questions people have asked. This book is a must-read for anyone who enjoys spending time outdoors and wants to learn how to survive in almost any outdoor environment.
