Colburn, 2019-09-11 A study of the material culture of Egypt during the period of Achaemenid Persian rule c 526 404 BCE Provides a clear overview of the archaeological evidence for Achaemenid Egypt including temples tombs irrigation works statues stelae seals and coins Demonstrates how different types of evidence both textual and archaeological including material of uncertain provenance can be used to address a single historical question Offers critical discussion of the dating criteria used by archaeologists for Egyptian Late Period material Elucidates strategies used by the Persians to establish and maintain control of Egypt Examines how these strategies may have affected the lives of people living in Egypt during the 27th Dynasty Creates a new explanatory model for the introduction of coinage to ancient Egypt Previous studies have characterised Achaemenid rule of Egypt either as ephemeral and weak or oppressive and harsh These characterisations however are based on the perceived lack of evidence for this period filtered through ancient and modern preconceptions about the Persians Henry Colburn challenges these views by assembling and analyzing the archaeological remains from this period including temples tombs irrigation works statues stelae sealings drinking vessels and coins By looking at the decisions made about material culture by Egyptians Persians and others it becomes possible to see both how the Persians integrated Egypt into their empire and the full range of experiences people had as a result     Ancient Perspectives on Egypt Roger Matthews, Cornelia Roemer, 2016-09-16 The allure of Egypt is not exclusive to the modern world Egypt also held a fascination and attraction for people of the past In this book academics from a wide range of disciplines assess the significance of Egypt within the settings of its past The chronological span is from later prehistory through to the earliest literate eras of interaction with Mesopotamia and the Levant the Aegean Greece and Rome Ancient Perspectives on Egypt includes both archaeological and documented evidence which ranges from the earliest writing attested in Egypt and Mesopotamia in the late fourth millennium BC to graffiti from Abydos that demonstrate

pilgrimages from all over the Mediterranean world to the views of Roman poets on the nature of Egypt This book presents for the first time in a single volume a multi faceted but coherent collection of images of Egypt from and of the past Yotvata Lily Singer-Avitz, Etan Ayalon, 2023-01-03 This book presents the final report of the excavations at Yotvata the largest oasis in the Arabah Valley conducted by the Sonia and Marco Nadler Institute of Archaeology of Tel Aviv University in 1974 1980 under the direction of Dr Ze'ev Meshel The report covers two central sites a fortified Iron I site and an Early Islamic settlement The Iron I remains consist of an irregular casemate wall surrounding a courtyard The location of this site suggests that the settlement was established in order to protect the water sources and to overlook and supervise the nearby crossroads Based on the relative proximity of the site to Timna it may be concluded that the oasis formed the main source of water and wood for the population involved in copper production in that region The rich finds uncovered at the Early Islamic settlement including a large courtyard building and a nearby bathhouse among other structures point to habitation from the end of the seventh to the early ninth century CE The proximity of the settlement to a sophisticated irrigation system qanat and the administrative economic ostraca discovered at the site suggest that it served as the center of an agricultural estate owned by an elite Muslim family Among the unique finds is a large assemblage of locally produced handmade pottery which is thoroughly studied here The findings from the excavations at the Yotvata oasis have made a major contribution to the study of Early Islamic settlement and material culture in the greater Arabah region and beyond An Introduction to the Archaeology of Ancient Egypt Kathryn A. Bard, 2015-01-07 This student friendly introduction to the archaeology of ancient Egypt guides readers from the Paleolithic to the Greco Roman periods and has now been updated to include recent discoveries and new illustrations Superbly illustrated with photographs maps and site plans with additional illustrations in this new edition Organized into 11 chapters covering the history of Egyptology and Egyptian archaeology prehistoric and pharaonic chronology and the ancient Egyptian language geography resources and environment and seven chapters organized chronologically and devoted to specific archaeological sites and evidence Includes sections on salient topics such as the constructing the Great Pyramid at Giza and the process of mummification Early Dynastic Egypt Toby A.H. Wilkinson, 2002-09-11 Early Dynastic Egypt spans the five centuries preceding the construction of the Great Pyramid at Giza This was the formative period of ancient Egyptian civilization and it witnessed the creation of a distinctive culture that was to endure for 3 000 years This book examines the background to that great achievement the mechanisms by which it was accomplished and the character of life in the Nile valley during the first 500 years of Pharaonic rule The results of over thirty years of international scholarship and excavation are presented in a single highly illustrated volume It traces the re discovery of Early Dynastic Egypt explains how the dynasties established themselves in government and concludes by examining the impact of the early state on individual communities and regions **Egyptian Activity Book** Winky Adam, 1998-01-22 Filled with mummies gods and goddesses kings and queens and other fascinating subjects this little book will challenge you with 33

Cohen,2018-07-17 The beginning of the Middle Bronze Age MB IIA in Canaan ca 1950 1740 B C E set the stage for many of the cultural political and economic institutions that shaped the ancient Near East Particular theoretical models for the analysis of complex societies are used in this study to examine textual pictorial and archaeological evidence relating to the nature and organization of MB IIA Canaan The written and pictorial evidence pertaining to Egyptian Canaanite contact indicates a fluid relationship that changed over time in response to changing social political and economic developments in both cultures As a result Egyptian policy toward Canaan was multifaceted including approaches ranging from the use of military force to magical rites The analysis of MB IIA site distribution indicates that Canaanite settlement first developed in areas on the coast most conducive to agricultural growth It then progressed according to a dendritic pattern of organization along the east west wadi systems into the interior in response to a growing demand for resources and raw materials fueled in part by contact with Egypt and the international world of the eastern Mediterranean Chronological correlations between the Canaanite settlement systems and Middle Kingdom Egypt also indicate that the beginning of the MB IIA in Canaan dates well into the Middle Kingdom rather than being contemporary with its beginnings as previously understood Findings concerning the Canaanite Egyptian relationship Canaanite site distribution and chronological connections between these two regions all illustrate the development of Canaan from a society in the first stages of urbanization to a fully urbanized one setting the stage for the rise of the Hyksos to power in Egypt *Storage in Ancient Complex Societies* Linda R. geopolitical and Arab Israeli issues and less how U S assistance could help the domestic political economy of Egypt Alterman compellingly shows how the interests of both countries diverged to eventually undermine an early American attempt at economic assistance      [Ancient Egypt](#) B.
