**Debating the Dasam Granth** Robin Rinehart, 2011-02-02 The Dasam Granth is a 1 428 page anthology of diverse compositions attributed to the tenth Guru of Sikhism Guru Gobind Singh and a topic of great controversy among Sikhs The controversy stems from two major issues a substantial portion of the Dasam Granth relates tales from Hindu mythology suggesting a disconnect from normative Sikh theology and a long composition entitled Charitropakhian tells several hundred rather graphic stories about illicit liaisons between men and women Sikhs have debated whether the text deserves status as a scripture or should be read instead as literature Sikh scholars have also long debated whether Guru Gobind Singh in fact authored the entire Dasam Granth Much of the secondary literature on the Dasam Granth focuses on this authorship issue and despite an ever growing body of articles essays and books mainly in Punjabi the debate has not moved forward The available manuscript and other historical evidence do not provide conclusive answers regarding authorship The debate has been so acrimonious at times that in 2000 Sikh leader Joginder Singh Vedanti issued a directive that Sikh scholars not comment on the Dasam Granth publicly at all pending a committee inquiry into the matter *Debating the Dasam Granth* is the first English language book length critical study of this controversial Sikh text in many years Based on research on the original text in the Brajbhasha and Punjabi languages a critical reading of the secondary literature in

Punjabi Hindi and English and interviews with scholars and Sikh leaders in India it offers a thorough introduction to the Dasam Granth its history debates about its authenticity and an in depth analysis of its most important compositions

*Utopias in Conflict* Ainslie T. Embree, 2024-06-28 This compact incisive study by a senior scholar explores two sources of violent conflict in India religion and nationalism Showing how the political aspects of religion and the ideological character of nationalism have led inexorably to struggle Ainslie T Embree argues that the tension between competing visions of the just society has determined the social and political life of India In India as elsewhere in the world at the end of the twentieth century religions legitimized violence as people struggled for what they regarded as their legitimate claims upon the future As examples of the tension between religious and nationalist visions of the good society Embree examines two explosive cases one involving Muslim Hindu communal encounters the other the separatist movement of the Sikhs Thought provoking and searching *Utopias in Conflict* should interest anyone concerned about fundamentalism the problems of national integration and politics and religion in the Third World This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990 **Who Owns**

**Religion?** Laurie L. Patton, 2019-11-27 *Who Owns Religion* focuses on a period the late 1980s through the 1990s when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work While controversies involving scholarly claims about religion are nothing new this period saw an increase in vitriol that remains with us today Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book banning campaigns As a result scholars of religion have struggled to describe their own work to their various publics and even to themselves Taking the reader through several compelling case studies Patton identifies two trends of the 80s and 90s that fueled that rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton s book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing Globalisation and the Region Pritam Singh, Shinder S. Mandair,Christopher Shackle,Gurharpal Singh,2013-12-16 This book brings together new approaches to the study of Sikh religion culture and ethnicity being pursued in the diaspora by Sikh academics in western universities in Britain and North America An important aspect of the volume is the diversity of topics that are engaged including film and gender theory theology hermeneutics deconstruction semiotics and race theory and brought to bear on the individual contributors specialism within Sikh studies thereby helping to explode previously static dichotomies such as insider vs outsider or history vs tradition The volume should have strong appeal both to an academic market including students of politics religious studies and South Asian studies and to a more general English speaking Sikh readership      **Religion and the Specter of the West** Arvind-Pal S.

Mandair,2009-10-22 Arguing that intellectual movements such as deconstruction postsecular theory and political theology have different implications for cultures and societies that live with the debilitating effects of past imperialisms Arvind Mandair unsettles the politics of knowledge construction in which the category of religion continues to be central Through a case study of Sikhism he launches an extended critique of religion as a cultural universal At the same time he presents a portrait of how certain aspects of Sikh tradition were reinvented as religion during the late nineteenth and early twentieth centuries India s imperial elite subtly recast Sikh tradition as a sui generis religion which robbed its teachings of their political force In turn Sikhs began to define themselves as a nation and a world religion that was separate from but parallel to the rise of the Indian state and global Hinduism Rather than investigate these processes in isolation from Europe Mandair shifts the focus closer to the political history of ideas thereby recovering part of Europe s repressed colonial memory Mandair rethinks the intersection of religion and the secular in discourses such as history of religions postcolonial theory and recent continental philosophy Though seemingly unconnected these discourses are shown to be linked to a philosophy of generalized translation that emerged as a key conceptual matrix in the colonial encounter between India and the West In this riveting study Mandair demonstrates how this philosophy of translation continues to influence the repetitions of religion and identity politics in the lives of South Asians and the way the academy state and media have analyzed such phenomena
