Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries      *National Monuments and Nationalism in 19th Century Germany* Hans A. Pohlsander,2008 No century in modern European history has built monuments with more enthusiasm than the 19th Of the hundreds of monuments erected those which sprang from a nation wide initiative and addressed themselves to a nation rather than part of a nation we may call national monuments Nelson s Column in London or the Arc de Triomphe in Paris are obvious examples In Germany the 19th century witnessed a veritable flood of monuments many of which rank as national monuments These reflected and contributed to a developing sense of national identity and the search for national unity they also document an unsuccessful effort to create a genuinely German style They constitute a historical record quite apart from aesthetic appeal or ideological message As this historical record is examined German national monuments of the 19th century are described and interpreted against the background of the nationalism which gave birth to them      **John Ruskin** James S. Dearden,1999-10-01 Despite professing a dislike of having his portrait taken John Ruskin s footsteps were dogged by portrait painters sculptors caricaturists and photographers from the cradle to the grave and beyond A thoroughly accessible book it lists and describes some 331 likenesses made between 1822 and 1998 The three introductory chapters to this book survey Ruskin portraiture and the portraits his general physical appearance throughout his life his hands his mouth his various illnesses and their effect on his appearance his clothes style of dress size tailors their bills etc These opening chapters include many descriptions and reminiscences by Ruskin s friends and acquaintances and those who portrayed him The principal part of the book deals with the individual portraits their history where and why they were made what Ruskin was doing at that time of his life and what his connection was with the artists in question He was portrayed so regularly that this section is also effectively a potted Ruskin biography based on the portraits A catalogue raisonne of the Ruskin portraits follows where the physical details of the works are listed together with details of reproductions exhibitions and provenance      Great White Fathers John Taliaferro,2007-10-09 Gutzon Borglum the sculptor of Mount Rushmore National Memorial hoped that ten thousand years from now when archaeologists came upon the four sixty foot presidential heads carved in the Black Hills of South Dakota they would have a clear and graphic understanding of American civilization Borglum the child of Mormon polygamists had an almost Ahab like obsession with Colossalism a scale that matched his ego and the era He learned how to be a celebrity from

Auguste Rodin how to be a political bully from Teddy Roosevelt He ran with the Ku Klux Klan and mingled with the rich and famous from Wall Street to Washington Mount Rushmore was to be his crowning achievement the newest wonder of the world the greatest piece of public art since Phidias carved the Parthenon But like so many episodes in the saga of the American West what began as a personal dream had to be bailed out by the federal government a compromise that nearly drove Borglum mad Nor in the end could he control how his masterpiece would be received Nor its devastating impact on the Lakota Sioux and the remote Black Hills of South Dakota Great White Fathers is at once the biography of a man and the biography of a place told through travelogue interviews and investigation of the unusual records that one odd American visionary left behind It proves that the best American stories are not simple they are complex and contradictory at times humorous at other times tragic
