Caribbean Literature in Transition, 1920-1970: Volume 2 Raphael Dalleo, Curdella Forbes, 2021-01-14 The years between the 1920s and 1970s are key for the development of Caribbean literature producing the founding canonical literary texts of the Anglophone Caribbean This volume features essays by major scholars as well as emerging voices revisiting important moments from that era to open up new perspectives Caribbean contributions to the Harlem Renaissance to the Windrush generation publishing in England after World War II and to the regional reverberations of the Cuban Revolution all feature prominently in this story At the same time we uncover lesser known stories of writers publishing in regional newspapers and journals of pioneering women writers and of exchanges with Canada and the African continent From major writers like Derek Walcott V S Naipaul George Lamming and Jean Rhys to recently recuperated figures like Eric Walrond Una Marson Sylvia Wynter and Ismith Khan this volume sets a course for the future study of Caribbean literature **Stories & Poems by a Guyanese Village Boy** Dr. Hanif Gulmahamad, 2009-02-20 Book Description This book is a compilation of 27 short stories and 17 poems written by Dr Hanif Gulmahamad who was born in 1945 on Springlands Sugar Estate Corentyne Berbice in what was then the colonial territory of British Guiana The stories in this book are based on real incidences and events that took place in the 1950 s and early 1960 s while the author was a young lad residing at No 73 Village Corentyne Berbice Guyana The characters mentioned in the stories were real people though most of them are probably now deceased This book was written in 2008 and it is based on the author s best recollections of events which occurred over 45 years ago

Due to the fact that four and a half decades elapsed between the actual occurrence of these events and the time they were written these stories may not be completely accurate It is not the intention of the author to portray anyone in these stories in a negative light Real names were mentioned in the stories in an attempt to be as pragmatic as possible Great consideration effort and time were expended in order to keep these stories as realistic and accurate as possible The 1950 s and 1960 s was an idyllic and carefree time for a young lad growing up in a far away village in British Guiana The country was still under colonial rule at that time and there were laws and rules and there was the rule of law It was a safe and secure place to grow up as a young boy Most people in the villages were poor but there were ample opportunities to hunt fish farm and eke out a living For a lad of my age at the time every day was an adventure All you had to do was walk across the road and enter the farmlands and an adventure began Life was simple and even though people worked hard for a living they were for the most part a happy lot Wealth and material possessions were not necessary ingredients for a happy and fulfilling life People accepted their lot in life and did not aspire to unachievable ideals and goals You made do with what you had and you were grateful for what little you had The stories in this book cover a wide variety of events and situations some of which are humorous Children in Guyana particularly those who live away from the cities will find these stories fascinating It is the author s hope that children in Guyana who can most relate to these stories are afforded an opportunity to read this book Back in the day when the author was a young boy in Guiana books were very scarce commodities and anything and everything in print were read with great relish Books told the author things and took him places he could only imagine at the time In those days there were only two radio stations in the entire country and there was no television Two movies theatres were located at Skeldon and the cost of one shilling to attend a movie there was often cost prohibitive to many people The events in these stories were set in a place and time that is now gone and most probably lost forever One of the major goals of the author was to record these stories for posterity The poems in this book cover diverse times topics and places The author currently lives in southern California and works in Los Angeles Some of these poems reflect great nostalgia and longing for a life place and time that is gone For example the poems I am not from here I still have my memories and it was supposed to be a temporary thing convey great yearning for what the author perceives as things that he has lost having left Guyana and migrated to the United States The contents of this book cast some light on the author s life story which is a remarkable one Born to functionally illiterate parents on a British sugar plantation in a faraway place in Guyana the author went on to obtain a PhD degree from the University of California Riverside He has written and published over 60 technical and scientific papers including two chapters in books It is important

The Oxford Handbook of the History of Psychology: Global Perspectives David B. Baker, 2012-01-13 The science and practice of psychology has evolved around the world on different trajectories and timelines yet with a convergence on the recognition of the need for a human science that can confront the challenges facing the world today Few would argue that the standard narrative of the history of psychology has emphasized European and American traditions over others but in today s global culture there is a greater need in psychology for international understanding This volume describes the historical development of psychology in countries throughout the world Contributors provide narratives that examine the political and socioeconomic forces that have shaped their nations psychologies Each unique story adds another element to our understanding of the history of psychology The chapters in this volume remind us that there are unique contexts and circumstances that influence the ways in which the science and practice of psychology are assimilated into our daily lives Making these contexts and circumstances explicit through historical research and writing provides some promise of greater international insight as well as a better understanding of the human condition

Guyana's Great Economic Downswing, 1977-1990 Ramesh Gampat, 2020-10-19 Much of Guyana s 20th century history was defined by the PNC dictatorship and the political and economic wreckage it left behind In Guyana s Great Economic Downswing 1977 to 1990 Dr Ramesh Gampat presents a comprehensive study of these specific years when the national economy contracted by 2 7 percent annually He explores the multiple facets of the country s political tribalism which does not value freedom liberty and the flourishing of all people it values only freedom liberty and flourishing of tribes The study reinforces the widely held belief that until and unless these adversarial groups subsume their respective selfish interests and commit to the common cause of national peace and development the great downswing might not rest as a historical event but could well re emerge with further economic

devastation if the lessons go unheeded Dr Gampat makes a strong case for federalism as a solution to Guyana's ethnic politics Federalism he posits would ensure that all Guyanese have equal access to opportunities and resources since a system of provincial governance would be better placed to address discriminatory policies and practices at a localised level With the country sitting on the cusp of transformative development to be propelled by new found oil wealth there is an urgency to settle the divisive politics if every Guyanese is to benefit fairly and equitably from the economic boom Guyana's Great Economic Downswing 1977 to 1990 offers up a studied and comprehensive analysis that should be part of that bipartisan discourse going forward Ryhaan Shah Novelist Social Activist A few piecemeal academic articles analyzing Guyana's economic evolution over the period 1977 to 1990 were written but they are scattered and lost away in various journals What was missing is a comprehensive and rigorous exploration of the era of Cooperative Socialism Dr Ramesh Gampat's book fills this gap It is a superb synthesis of historical theoretical and econometric exploration of the Great Downswing The book not only provides estimates of important macroeconomic concepts such as Guyana's total factor productivity and long term growth but also produces the useful statistics and reviews of poverty inequality life expectancy education outcomes as well as a detailed analysis of the rice sector As if these are not enough Gampat sets the tone by situating the exploration in the country's long standing and debilitating ethno political dynamics This self contained book will be of tremendous use to policy makers journalists and students interested in the historical context of present day outcomes I highly recommend this book to public libraries and home reference libraries Tarron Khemraj William and Marie Selby Professor of Economics and International Studies New College of Florida

The Torture Doctors Steven H. Miles, 2020-03-02 Torture doctors invent and oversee techniques to inflict pain and suffering without leaving scars Their knowledge of the body and its breaking points and their credible authority over death certificates and medical records make them powerful and elusive perpetrators of the crime of torture In *The Torture Doctors* Steven H Miles fearlessly explores who these physicians are what they do how they escape justice and what can be done to hold them accountable At least one hundred countries employ torture doctors including both dictatorships and democracies While torture doctors mostly act with impunity protected by governments medical associations and licensing boards Miles shows that a movement has begun to hold these doctors accountable and to return them to their proper role as promoters of health and human rights Miles's

groundbreaking portrayal exposes the thinking and psychology of these doctors and his investigation points to how the international human rights community and the medical community can come together to end these atrocities *A Proud Product Of Guyana's Bitter-Sweet Sugar* Nowrang Persaud,2018-07-27 This is an attempt to briefly record my long life story as a Guyanese who evolved from a broken parental home and the pits of poverty in colonial British Guiana to become first a successful school teacher and an unconventional school administrator I then won a coveted Cadetship offered by the expatriate firm of Bookers Sugar Estates Ltd which owned and operated the sugar industry in the colony This was the catalyst that provided the springboard for my launching into the field of Human Resource Management initially in the sugar industry in Guyana then in Canada followed by exciting assignments literally across the world with the United Nations Children Fund a field based agency of the United Nations before ending with a return to base in Guyana **Guyana Junction.
