*Dictionary of EU Terminology English-Hungarian Péter Tófalvi, 2025-07-01* This dictionary makes easily accessible in an eye friendly format the material published by the EU translation service IATE Download European Union 2025 The mobi file offered separately can also be set as a background dictionary on Amazon Kindle e readers Readers will notice some unusual features in the content More precisely since this is an electronic publication I have not followed the traditional format of printed dictionaries It is often the case that a headword actually a label expression does not consist of a single word but rather of expressions or even full sentences including synonyms or sentence fragments with similar meaning but formulated differently These do not affect computer based searching For compound expressions it is advisable to search for the individual components as well in order to uncover as many related meanings as possible The EU IATE database contains certain entries whose translations are not available in all languages As a result it may happen in my dictionary that the source language headword has no corresponding translation in the target language I could have filtered out such entries but I ultimately decided to keep them in the dictionary as they fit and may still have informational value on their own The making of a dictionary is never truly finished and errors may occur for which I kindly ask your understanding
