H N Werkman:

H.N. Werkman Alston W. Purvis, 2004-01-01 An extraordinary look at the work of a highly influential avant garde designer typographer and printmaker Dutch designer and printmaker Hendrik Werkman 1882-1945 is best known for his innovative printing techniques and avant garde typography As publisher of *De Blauwe Schuit* a series of underground booklets produced by Jewish dissident poets and writers during the Nazi occupation of Holland Werkman was imprisoned by German secret police in 1945 and executed without trial just three days before the country's liberation This generously illustrated book is the first in English to focus on Werkman's remarkable graphic work and fascinating life Werkman founded his own printmaking shop in 1908 His self-produced magazine *The Next Call* was published in 1923 and included typographical and other printmaking experiments as well as the designer's own Dadaist poems and texts Werkman also developed a printmaking process he called hot printing a technique incorporating found materials that added repeated design elements directly onto the paper all without the use of a printing press Although much of his work was destroyed at the time of his execution the remarkable examples that remain tell the story of a maverick designer and typographer whose graphic vision was playful bold experimental and unwaveringly optimistic **H. N Werkman (Monographics Series)**

Alston W. Cultural Mobility in the Interwar Avant-Garde Art Network Michał Wenderski, 2018-07-27 This book explores the issue of cultural mobility within the interwar network of the European avant garde focusing on selected writers artists architects magazines and groups from Poland Belgium and Netherlands Regardless of their apparent linguistic cultural and geographical remoteness their mutual exchange and relationships were both deep and broad and of great importance for the wider development of interwar avant garde literature art and architecture This analysis is based on a vast research corpus

encompassing original often previously overlooked periodicals publications and correspondence gathered from archives around the world

Spirit of Resistance Jeroen Dewulf, 2010 The first book to offer a complete story of the extraordinary proliferation of Dutch clandestine literature under the Nazi occupation Clandestine literature was published in all countries under Nazi occupation but nowhere else did it flourish as it did in the Netherlands This raises important questions What was the content of this literature What were the risks of writing printing selling and buying it And why the Netherlands Traditionally the combative Dutch spirit of resistance has been cited a reaction not only to German oppression but to German propaganda while the Germans hoped to build bonds with their Germanic Dutch brothers clandestine literature insisted on their incompatibility However when reading clandestine literature one should not forget that this spirit of resistance came rather late and did not prevent the transportation of seventy three percent of the Netherlands Jewish population to Nazi death camps the largest percentage in Western Europe The Dutch case is complex while the country proved to be remarkably resistant to Nazi propaganda little was done to prevent the actual execution of Nazi policies The complete story of Dutch clandestine literature therefore combines resistance and complicity victory and defeat pride and shame Jeroen Dewulf is Queen Beatrix Professor of Dutch Studies in the Department of German at the University of California Berkeley

The Art of Dialogue Ineke de Feijter, 2007 Media and culture are deeply intertwined in contemporary society Religions have problems relating to this media culture which is shaped by media processes and conditioned by digital media and interactive forms of communication Media set the agenda and they profoundly challenge religions both with respect to their public communication and their very existence and public relevance People increasingly use media for shaping their religious identity and their search with respect to questions of ultimate meaning Barely any theological studies exist that reflect on religious policies and their subsequent praxis in the field of communication The author analyzes Christian policy views and identifies the main problems and opportunities in relating to media culture

Nicolaas van Wijk (1880-1941) Jan Paul Hinrichs, 2006-01-01 Nicolaas van Wijk 1880 1941 was the founder of Slavic studies in the Netherlands and one of the greatest Slavists in general This book describes for the first time how a scholar of the Dutch language whose etymological dictionary of the Dutch language is still considered the best of its kind was appointed in 1913 to the newly created Chair in Slavic languages at Leiden University and built up a tremendous reputation for himself in Eastern Europe Van Wijk s relations with his famous teacher the linguist C C Uhlenbeck are followed attentively as is his postgraduate apprenticeship in Leipzig 1902 1903 where he followed August Leskien s lectures in Slavic studies Attention is also paid to the various aspects of Van Wijk s enormous oeuvre covering the whole field of Slavic studies and of phonology of which he was one of the pioneers Van Wijk did not however follow the lines approved for the social conduct of a Leiden professor and was at one time suspected by the police of communist activities His commitment to materially helping all he could from an Eastern Europe torn apart by the First World War and its aftermath was exceptional His fascination with all things Russian is a background

theme that played throughout his life and even at his death son of a Dutch Reformed minister the bachelor Van Wijk was buried in a grave surmounted by a Russian Orthodox cross beside his Russian foster son who died young This book is of interest to Slavists linguists and cultural historians *Grid Systems* Kimberly Elam,2014-04-15 Although grid systems are the foundation for almost all typographic design they are often associated with rigid formulaic solutions However the belief that all great design is nonetheless based on grid systems even if only subverted ones suggests that few designers truly understand the complexities and potential riches of grid composition National Union Catalog ,1981 **Dutch Type** Jan Middendorp,2004 Overzicht van vooral de 20e eeuwse Nederlandse typografie
