This selection includes German original writings and English translations, which are cross-referenced.

The second section includes secondary writings addressing issues of Habermas's thought on law. To ease entry into this wide-ranging debate, the secondary writings are divided in three parts: (1) general discussions related to Habermas's legal theory, including works which have been influential for the development of Habermas's approach; (2) works that specifically criticize and/or apply Habermas's theory in the field of legal studies; and (3) discussions of Habermas's perspective of discourse ethics in relation to law. On the latter issue, I have in this bibliography retained only writings that discuss themes more narrowly related to law. For additional sources the reader may consult the
