Constitucionalismo y comunicación política Bernd Marquardt,Antonio Patiño,2023-01-03 No existen grandes dudas con respecto a la centralidad de los derechos de comunicación en la composición sistemática de la democracia constitucional de los siglos XIX a XXI La misma no se reduce a la organización de las sucesiones electorales en los poderes legislativo y ejecutivo sino que se basa del mismo modo en procesos de formación de la opinión pública que encuentran su respaldo decisivo en un paquete de garantías iusfundamentales e iushumanas incluyendo las libertades de expresión y de opinión de prensa y de medios de información de reunión y de manifestación de asociación y de huelga de la ciencia y del arte Estos derechos muestran una larga tradición a partir de las constituciones de la ola fundadora de la estatalidad ilustrada y liberal del medio siglo de 1776 a 1825 y en algunas dimensiones se basan incluso en tradiciones más antiguas provenientes de las aperturas confesionales hacia el protoconstitucionalismo desde el siglo XVI Sin embargo en el pasado reciente los derechos de comunicación están bajo presión como subrayan diversos conceptos de estigmatización popularizados que pretenden deslegitimar opiniones indeseadas lo que puede reconocerse en los debates sobre la cultura de la cancelación la desinformación la posverdad las fake news el discurso de odio y las teorías conspiratorias Igualmente en diversos contextos resurge una nueva presión estatal frente a expresiones colectivas de críticas políticas en manifestaciones y marchas pese a la iusfundamentalización consolidada en los textos constitucionales

Hacia la independencia Ricardo Sánchez Ángel,2024-02-01 El libro de Ricardo Sánchez Ángel es una síntesis lograda de esta historia subversiva de la historia dominante y del relato oficial Una invitación a pensarnos sin los trajes y máscaras de la simulación y el engaño La reflexión después de leer el libro Hacia la Independencia De la Colonia a la República Derechos multitudes y revoluciones por qué siempre reaparecen ciclos de violencia como forma de resolver disputas políticas administrativas y económicas comprobándose que el derecho vigente para hacerlo no funciona ni partiendo de las reformas constitucionales como pactos entre combatientes o entre dirigentes y representantes delegados del pueblo ni las reformas estructurales y modificaciones esenciales para el funcionamiento del Estado ninguna forma o formulación jurídica ha parado las espirales de violencia

Detlef Nolte,2012-10-28 Latin America has a long tradition of constitutional reform Since the democratic transitions of the 1980s most countries have amended their constitutions at least once and some have even undergone constitutional reform several times The global phenomenon of a new constitutionalism with enhanced rights provisions finds expression in the region but the new constitutions such as those of Bolivia Colombia Ecuador and Venezuela also have some peculiar characteristics which are discussed in this important book Authors from a number of different disciplines offer a general overview of constitutional reforms in Latin America since 1990 They explore the historical philosophical and doctrinal differences between traditional and new constitutionalism in Latin America and examine sources of inspiration The book also covers sociopolitical settings which factors and actors are relevant for the reform process and analyzes the constitutional practices after reform including the question of whether the recent constitutional reforms created new post liberal democracies with an enhanced human and social rights record or whether they primarily serve the ambitions of new political leaders
