A Disposition to Be Rich Geoffrey C. Ward, 2013-04-23 A New York Times Notable Book The compelling behind the scenes story of the greatest swindler of the Gilded Age whose villainy bankrupted Ulysses S Grant and stunned the world of finance told by his great grandson award winning historian Geoffrey C Ward Ferdinand Ward the son of a Protestant missionary and small town pastor moved to New York at twenty one and in less than a decade made himself the business partner of a former president and established himself as the Young Napoleon of Finance In truth he was running a massive pyramid scheme Drawing from thousands of family documents never before examined Geoffrey C Ward traces his great grandfather s rapid rise to riches and fame and his even more dizzying fall from

grace in a narrative populated with mistresses crooked bankers corrupt New York officials and a desperate kidnapping scheme Here is a great story about a classic American con artist **Checklist of Publications of Connecticut State Agencies** ,1979 **We the People** Forrest McDonald,2017-09-29 Charles A Beard s An Economic Interpretation of the United States Constitution was a work of such powerful persuasiveness as to alter the course of American historiography No historian who followed in studying the making of the Constitution was entirely free from Beard s radical interpretation of the document as serving the economic interests of the Framers as members of the propertied class Forrest McDonald s We the People was the first major challenge to Beard s thesis This superbly researched and documented volume restored the Constitution as the work of principled and prudential men It did much to invalidate the crude economic determinism that had become endemic in the writing of American history We the People fills in the details that Beard had overlooked in his fragmentary book MacDonald s work is based on an exhaustive comparative examination of the economic biographies of the 55 members of the Constitutional Convention and the 1 750 members of the state ratifying conventions His conclusion is that on the basis of evidence Beard s economic interpretation does not hold McDonald demonstrates conclusively that the interplay of conditioning or determining factors at work in the making of the Constitution was extremely complex and cannot be rendered intelligible in terms of any single system of interpretation McDonald s classic work while never denying economic motivation as a factor also demonstrates how the rich cultural and political mosaic of the colonies was an independent and dominant factor in the decision making that led to the first new nation In its pluralistic approach to economic factors and analytic richness We the People is both a major work of American history and a significant document in the history of ideas It continues to be an essential volume for historians political scientists economists and American studies specialists Ninth Census of the United States, 1870 United States.
