Hadrians Bowl:

Hadrian's Wall Tony Wilmott, 2013-04-15 From 1976 to 2000 English Heritage archaeologists undertook excavation and research on Hadrian's Wall. This book reports on these findings and includes the first publication of the James Irwin Coates archive of drawings of Hadrian Wall made in 1877-96.

Excavations Along Hadrian's Wall 2019-2021 Rob Collins, Jane Harrison, 2024-04-30 This study focuses on the fabric construction and preservation of stretches of Hadrian's Wall in its more remote locations providing significant insights into the places between the mile castles and important forts and associated settlements. The Hadrian's Wall Community Archaeology Project WallCAP conducted a series of fieldwork projects along the Hadrian's Wall corridor between 2019 and 2021. The work focused on sites that were poorly understood or under particular threat and aimed to improve understanding of them so they could be better managed in future. At several sites excavation was followed by conservation and consolidation work. This volume brings together the final reports of these excavations at six Roman sites in the Wall corridor. As the sites were spread along the length of the Wall, the character and afterlife of the Wall in very different landscape locations could be compared. An assessment of the Vallum at Heddon on the Wall identified how earthwork archaeology survived in a sloped heavily ploughed landscape. Three excavations investigated the condition of the stone Wall curtain at Port Carlisle, Walltown Crags and Steel Rigg and Cats Stairs. At each site the Wall builders had responded to the demands of the local terrain and made use of local resources. At each site the Wall had a different post-Roman history. Excavations at the bridging point of the Cam Beck revealed for the first time how the Wall was carried over a minor watercourse and discovered traces of the Turf Wall. Small buildings were also identified just south of the Wall as it approached the bridge. At Corbridge Roman town excavations on the northern periphery of the settlement demonstrated that from early in its history the most northerly town in Europe was of considerable extent. The area investigated showed that even at the edge of town shops lined the roads alongside well appointed houses with bustling yards. Later on in the Roman period the town contracted behind walls and cremation burials were inserted by the road. Each site is reported on independently presenting the primary data for each investigation. The volume concludes with a synthetic analysis of what the results of these excavations together reveal about Hadrian's Wall considering amongst other things construction details and the decay and destruction of the monument in the centuries following Roman occupation.

Hadrian's Wall Patricia Southern, 2016-02-15 The building, military use and descent into ruin of the most important Roman frontier ever built.

The View from Hadrian's Wall Mark Clegg, David Wilmot, 2021-12-16 Built almost 2 000 years ago by the Roman occupiers of Britain, Hadrian's Wall is one of the most famous and identifiable World Heritage Sites. When two old friends, one American and one British, reunited to trek the length of the Wall, they reminisced about the past while sharing apprehension about the future. This memoir of their coast-to-coast voyage examines Roman history, drawing parallels between the fall of the Roman Empire and the recent political developments and uncertainties in the United Kingdom and the United States. The authors
