Haka A Living Tradition:

Haka Wira Gardiner, 2001 A source of pride or a source of controversy the Haka is an integral part of New Zealand's culture One of the most identifiable symbols of New Zealand most people know little of the history variation or meaning of this powerful challenge This work aims to explain it all Traditional Knowledge, Traditional Cultural Expressions, and Intellectual Property Law in the Asia-Pacific Region Christoph Antons, 2009-01-01 Among the many contentious matters thrown up by the relentless march of economic globalization those forms of knowledge variously known as indigenous or traditional remain seriously threatened despite numerous transnational initiatives and highly publicized debate It is not proving easy to bring these holistic worldviews into accordance with the technical terms and classifications of intellectual property law The contributions in this volume contrast efforts to find solutions and workable models at the international and regional level with experiences on the ground Legal policies related to indigenous knowledge in settler societies such as Australia and New Zealand are compared with those in densely populated neighbouring countries in Asia where traditional knowledge is often regarded as national heritage While many of the chapters are written by lawyers using an interdisciplinary approach other chapters introduce the reader to perspectives from disciplines such as legal sociology and anthropology on controversial issues such as the understandings of art culture tradition customary law and the opportunities for traditional cultural knowledge and traditional cultural expressions in an Internet environment Experienced observers of the international debate and regional experts discuss international model laws as well as legislation at regional and national level and the role of customary law Topics covered include the following and much more the concept of farmers rights biodiversity and bioprospecting traditional knowledge as a commodity encounters between different legalities geographical indications registration requirements sanctions remedies and dispute resolution mechanisms the ongoing fragmentation and loss of traditional knowledge and systems of data collection **Indigenous Intellectual Property** Matthew Rimmer, 2015-12-18 Taking an interdisciplinary approach unmatched by any other book on this topic this thoughtful Handbook considers the international struggle to provide for proper and just protection of Indigenous intellectual property IP In light of the United Nations Declaration on the Rights of Indigenous Peoples 2007 expert contributors assess the legal and policy controversies over Indigenous knowledge in the fields of international law copyright law trademark law patent law trade secrets law and cultural heritage The overarching discussion examines national developments in Indigenous IP in the United States Canada South Africa the European Union Australia New Zealand and Indonesia The Handbook provides a comprehensive overview of the historical origins of conflict over Indigenous knowledge and examines new challenges to Indigenous IP from emerging developments in information technology biotechnology and climate change Practitioners and scholars in the field of IP will learn a great deal from this Handbook about the issues and challenges that surround just protection of a variety of forms of IP for Indigenous communities Intellectual Property at the Edge Rochelle Cooper

"Art, Sex and Eugenics " Anthea Callen, 2017-07-05 This book reveals how art and sex promoted the desire for the genetically perfect body Its eight chapters demonstrate that before eugenics was stigmatized by the Holocaust and Western histories were sanitized of its prevalence a vast array of Western politicians physicians eugenic societies family leagues health associations laboratories and museums advocated through verbal and visual cultures the breeding of the master race Each chapter illustrates the uncanny resemblances between models of sexual management and the perfect eugenic body in America Britain France Communist Russia and Nazi Germany both before and after the Second World War Traced back to the eighteenth century anatomy lesson the perfect eugenic body is revealed as athletic hygienic pure blooded and sexually potent This paradigm is shown to have persisted as much during the Bolshevik sexual revolution as in democratic nations and fascist regimes Consistently posed naked these images were unashamedly exhibitionist and voyeuristic Despite stringent legislation against obscenity not only were these images commended for soliciting the spectator s gaze but also for motivating the

spectator to act out their desire An examination of the counter archives of Maori and African Americans also exposes how biologically racist eugenics could be equally challenged by art Ultimately this book establishes that art inculcated procreative sex with the Corpus Delecti the delectable body healthy wholesome and sanctioned by eugenicists for improving the Western race *Austronesian Soundscapes* Birgit Abels,2011 Birgit Abels is a cultural musicologist with a primary specialization in the music of the Pacific and Southeast Asian islands Intellectual Property and Traditional Cultural Expressions Daphne Zografos,2010-01-01 This book performs a great service by drawing together the intellectual property law and experience of a number of countries in relation to the protection of traditional cultural expressions Peter Drahos Australian National University This unique book provides an in depth analysis of the different methods that have been proposed to protect traditional cultural expressions TCEs by using intellectual property rights Intellectual Property and Traditional Cultural Expressions examines the possibility of protecting TCEs with copyright laws on the one hand and origin related intellectual property rights such as trademarks certification marks geographical indications and laws against misrepresentation on the other In particular it examines which rights are conceptually best suited for the protection of TCEs and appear more appropriate to meet the range of concerns raised by the holders of that knowledge and policymakers in culturally rich developing countries Providing a range of case studies this book will prove a stimulating read for academics practitioners international organisations and policymakers It will also greatly benefit law or political sciences postgraduate students with an interest in intellectual property and traditional knowledge TCEs and development **Trademark Law and Theory** Graeme B. Dinwoodie,Mark D. Janis,2008 Boasting an impressive list of contributors this first edition of Trademark Law and Theory brings together a compilation of well written and powerfully argued works by leading international academics The book is certainly one of the most extensive and thought provoking overviews of contemporary trademark law and theory yet to be published Whilst all the contributions share in common their examination of the rapidity of change within trademark systems the editors should be commended on their generous seasoning of other cross cutting themes throughout the Handbook This fascinating compendium enriches our understanding of the shape substance and form of trademark law and theory this Handbook is perhaps a rare exception to the adage that no book can be all things to all men Its broad sweep approach and cross cutting themes enable a range of interested parties such as policymakers academics in the fields of marketing business consumer psychology in addition to the usual suspects to dip in and out of the Handbook as they wish a unique and erudite collection of essays concerning trademark law and theory Odette Hutchinson Communications Law Trademarks is an area of vital practical everyday concern and the idea of producing a volume that brings together the perspectives of 19 thoughtful and experienced legal scholars is a bold and exciting initiative The present volume does not disappoint and the two editors are to be congratulated on orchestrating an ensemble that simultaneously informs and stimulates The title is apt it is truly contemporary and is highly theoretical and doctrinal in character while the interesting

choice of the word handbook suggests clearly that this is a work in progress a snapshot at a particular time of the challenging lines of individual research that each contributor to the volume is undertaking It is a fine addition to a larger series of research handbooks in intellectual property published by Edward Elgar under the series editorship of Jeremy Phillips The editors have done a fine job in presenting this material in such a clear and coherent fashion this is an excellent and rewarding volume of readings that will be of interest to anyone working in the area of trademarks whether as an academic or as a practitioner Indeed for the practitioner it will be of particular value in that it contains and opens up many areas of inquiry that may not always be apparent when working at the coalface of a particular problem For both kinds of readers the real value of the volume is to have so many different kinds of perspectives brought together within the space of a single volume this is a handsome production the publishers and editors are to be commended on the clarity and cleanness of the typeface and headings the thoroughness of the index and the accuracy of their proof reading It has also been given a striking and evocative cover Sam Ricketson University of Melbourne Law School Australia European Intellectual Property Review Trademark Law and Theory is a first rate exploration of the issues that will dominate trademark law in the 21st century Authors from five continents provide a truly global perspective on the present and future of trademark law An exceptional collection of contributors and contributions Robert Denicola University of Nebraska US This compendium is an excellent source of writing on all aspects of trademark law and practice by experts from Europe the United States South Africa Singapore New Zealand and Australia It will be a stimulating read for lawyers academics students and policymakers alike on the present and developing trends in law and policy relating to trademarks as marketing tools and cultural artefacts The editors deserve congratulation on their concept for the book and their judicious selection of material David Vaver University of Oxford UK All students young and older in the burgeoni *The Fourth Eye* Brendan Hokowhitu, Vijay Devadas, 2013-10-01 From the signing of the Treaty of Waitangi between Indigenous and settler cultures to the emergence of the first ever state funded M ori television network New Zealand has been a hotbed of Indigenous concerns Given its history of colonization coping with biculturalism is central to New Zealand life Much of this bicultural drama plays out in the media and is molded by an anxiety surrounding the ongoing struggle over citizenship rights that is seated within the politics of recognition The Fourth Eye brings together Indigenous and non Indigenous scholars to provide a critical and comprehensive account of the intricate and complex relationship between the media and M ori culture Examining the Indigenous mediascape The Fourth Eye shows how M ori filmmakers actors and media producers have depicted conflicts over citizenship rights and negotiated the representation of Indigenous people From nineteenth century M ori language newspapers to contemporary M ori film and television the contributors explore a variety of media forms including magazine cover stories print advertisements commercial images and current M ori language newspapers to illustrate the construction expression and production of indigeneity through media Focusing on New Zealand as a case study the authors address the broader

question what is Indigenous media While engaging with distinct themes such as the misrepresentation of M ori people in the media access of Indigenous communities to media technologies and the use of media for activism the essays in this much needed new collection articulate an Indigenous media landscape that converses with issues that reach far beyond New Zealand Contributors Sue Abel U of Auckland Joost de Bruin Victoria U of Wellington Suzanne Duncan U of Otago Kevin Fisher U of Otago Allen Meek Massey U Lachy Paterson U of Otago Chris Prentice U of Otago Jay Scherer U of Alberta Jo Smith Victoria U of Wellington April Strickland Stephen Turner U of Auckland

A Traveller's History of New Zealand
John H. Chambers, 2004 A Traveller's History of New Zealand and the South Pacific Islands gives the curious tourist not only a modern day portrait of New Zealand and the far flung islands their political systems and economic diversity but also looks at the early settling of this massive area which covers about a fifth of the whole surface of the earth When European navigators first sailed into the region they were astonished at the exotic shared culture and language of the natives separated in many cases by terrifying stretches of open ocean The story of the peopling of the South Pacific Islands and New Zealand is one of the world's great epics The book also has practical information for visitors an Historical Gazetteer and is illustrated with relevant maps plus a Chronology of Events Special topics covered include Firewalking in Fiji the Musket Wars the Haka Polynesian Tattooing and the Jon Frum Cargo Cult of Vanuatu Book jacket

Authenticity and Legitimacy in Minority Theatre Patrice Brasseur, Madelena Gonzalez, 2010-04-16 Contemporary theatre is one of the best ways for ethno cultural minorities to express themselves whether they be of indigenous origin or immigrants It is often used to denounce social injustice and discrimination and more generally it helps to air questions debated in the wider community It may also express itself thanks to the staging of collective memory for it constitutes a privileged space for the exploration of the trauma of the past colonial for example as well as providing a means of effecting the reconfiguration of a new identity or of articulating an uneasiness about that identity Should minority theatre increase its visibility in relation to the mainstream or on the contrary remain on the margins and assert its specificity This question is at the centre of French Canadian experience for example but also applies to other postcolonial societies in Europe and elsewhere In order to maintain its cultural authenticity should this type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation If it is unable to resist the model proposed by globalization and widespread cultural dissemination will it lose its legitimacy Can and should there be a form of popular art at the service of the community The term minority raises questions that will be examined by the articles collected in this volume What is the definition of a minority Does this term refer to experimental and avant garde art forms as well as to ethno cultural drama Contemporary theatre is characterized by an aesthetics of hybridity in what measure is this the case for theatre outside the mainstream The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se Since the development of the electronic media as the privileged vector of culture has not the theatrical genre itself become a minority art form These are some of the pressing questions that this

volume will try to address thanks to a cross cultural multidisciplinary approach that aims to reveal the rich diversity of the field under study

War at the Margins Lin Poyer, 2022-09-30 War at the Margins offers a broad comparative view of the impact of World War II on Indigenous societies Using historical and ethnographic sources Lin Poyer examines how Indigenous communities emerged from the trauma of the wartime era with social forms and cultural ideas that laid the foundations for their twenty first century emergence as players on the world's political stage With a focus on Indigenous voices and agency a global overview reveals the enormous range of wartime activities and impacts on these groups connecting this work with comparative history Indigenous studies and anthropology The distinctiveness of Indigenous peoples offers a valuable perspective on World War II as those on the margins of Allied and Axis empires and nation states were drawn in as soldiers scouts guides laborers and victims Questions of loyalty and citizenship shaped Indigenous combat roles from integration in national armies to service in separate ethnic units to unofficial use of their special skills where local knowledge tilted the balance in military outcomes Front lines crossed Indigenous territory most consequentially in northern Europe Southeast Asia and the Pacific Islands but the impacts of war go well beyond combat Like others around the world Indigenous civilian men and women suffered bombing and invasion displacement forced labor military occupation and economic and social disruption Infrastructure construction and demand for key resources affected even areas far from front lines World War II dissolved empires and laid the foundation for the postcolonial world Indigenous

people in newly independent nations struggled for autonomy while other veterans returned to home fronts still steeped in racism National governments saw military service as evidence that Indigenous peoples wished to assimilate but wartime experiences confirmed many communities commitment to their home cultures and opened new avenues for activism By century s end Indigenous Rights became an international political force offering alternative visions of how the global order might make room for greater local self determination and cultural diversity In examining this transformative era War at the Margins adds an important contribution to both World War II history and to the development of global Indigenous identity

contested commodification of the All Blacks to illuminate the ongoing transformation of rugby in New Zealand by corporate imperatives and the imaginations of marketers most notably through the production of a complex discourse of corporate nationalism within Adidas's evolving local and global advertising campaigns
