**Lee Teng-hui and Taiwan's Quest for Identity** S. Tsai, 2005-09-02 The book is an account of Taiwan s evolving national consciousness told through the biography of its former President Lee Teng hui the central figure in the island s political transformation over the past two decades In describing the broader historical and social context of the various stages of Lee s life the book also analyzes Taiwan s own evolution during the past century as a Japanese colony a Leninist party state dictatorship and then an American inspired fledgling democracy The book explores such questions as Is Lee Teng hui an opportunistic recidivist who is interested only in his own self preservation or is he a hero who not only propelled Taiwan into a new era but also constructed a new national identity for the islanders Are the multi ethnic islanders culturally Chinese or are they Taiwanese Is Taiwan historically and politically part of China or does it have its own history and identity and deserves international recognition as an independent sovereign country **God**

**Aboveground** Eriberto P. Lozada, 2001 This ethnographic study of a Chinese Catholic village reveals how the rapid penetration of transnational processes into the People s Republic of China during the post Mao period has redefined and created new social and cultural structures in rural communities In examining the resurfacing of a Catholic community in a Hakka village in Jiaoling county Guangdong the book shows what it means to be part of a global and modern rural village The Hakka are members of a Chinese diasporic group that in the past few decades have mobilized international campaigns to strengthen ethnic solidarity After surviving campaigns of persecution in the Maoist era Catholic villagers incorporated their village church into the state religious administrative structure while remaining faithful to Catholic traditions They managed this transformation despite a multiplicity of national and transnational processes that might have deterred them the privatization of local sectors of the socialist economy the global movement of people as workers students and tourists and the swift modernization of Chinese production and consumption Through a close examination of life cycle rituals such as weddings baptisms and funerals and community wide events such as the building of a new church and a celebration of

Christmas the author shows how Catholic villagers pursued strategies to make their imagined futures a reality For these villagers Chinese Catholicism has defined a deterritorialized community s boundaries while simultaneously connecting them to the rest of the world through an international religious tradition     A Passage to China Chien-Hsin Tsai,2020-05-11 This book the first of its kind in English examines the reinvention of loyalism in colonial Taiwan through the lens of literature It analyzes the ways in which writers from colonial Taiwan including Qiu Fengjia Lian Heng Wu Zhuoliu and others creatively and selectively employed loyalist ideals to cope with Japanese colonialism and its many institutional changes In the process these writers redefined their relationship with China and Chinese culture Drawing attention to select authors lesser known works author Chien hsin Tsai provides a new assessment of well studied historical and literary materials and a nuanced overview of literary and cultural productions in colonial Taiwan During and after Japanese colonialism the islanders perception of loyalism sense of belonging and self identity dramatically changed Tsai argues that the changing tradition of loyalism unexpectedly complicates Taiwan s tie to China rather than unquestionably reinforces it and presents a new line of inquiry for future studies of modern Chinese and Sinophone literature     The Hakka Epic Joseph Mang Kin Tsang,2003

*A Sociolinguistic History of Early Identities in Singapore* Phyllis Ghim-Lian Chew,2012-11-29 What role does race geography religion orthography and nationalism play in the crafting of identities What are the origins of Singlish This book offers a thorough investigation of old and new identities in Asia s most global city examined through the lens of language

*Comparative Democratization and Peaceful Change in Single-Party-Dominant Countries* M. Rimanelli,2016-01-26 One of the more positive international trends as of late has been the transformation of several countries from authoritarian based dictatorships and single party systems into multi party democracies characterized by peaceful political transitions In this volume a group of experts are gathered to analyse this progression on a comparative level The scholars examine previously right wing regimes in Brazil Argentina and South Africa former Communist states in Russia Poland Hungary and Czechoslovakia and single party dominant democracies in Italy Japan Mexico and Israel The essays reveal how the dramatic collapse of the USSR functioned as a crucial catalyst in allowing pent up domestic pressures for change to emerge in a less charged international environment In addition the chapters study the historical and current evolution of these countries focusing on their success in developing long term pluralistic structures and gauging whether these recent trends are more overnight fads than long lasting advancements     **Taiwan International Review** ,1997     □□□□□□□□ □□□□□,2000     *On the South China Track* Sidney C. H. Cheung,1998     Chinese Landscapes Ronald G. Knapp,1992-01-01 The studies collected in this volume were written by anthropologists architects geographers historians a sociologist and a veterinary ecologist Taken together they form an exceptionally coherent survey of Chinese villages ranging from the dry north to the humid southeast and southwest of this vast country Going beyond books on Chinese vernacular architecture that focus on individual dwellings this work examines the village ensemble itself the various settings for the habitation work and leisure of China s

large rural population Discussions of design spatial layout physical setting settlement patterns geomantic principles fengshui and evolutionary patterns set the stage for eighteen village case studies Many villages still preserve characteristics that evoke a respect for and understanding of old China while others expose the drastic metamorphosis of recent decades Villages are examined as places emphasizing that which is visible each village has its own order and complex of natural and human elements Chinese Landscapes though it focuses on the physical appearance of individual villages as they are situated within the constellation that comprises the Chinese landscape suggests much about more general social economic and political patterns BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
