traditional educational view inside out by starting from inside a child's culture and looking out toward the demands of school rather than starting on the outside of the child and looking in. Provides concrete examples of how children's cultural literacy practices translate into classroom practices and in turn into practices of academic success. The most significant work that has ever been done in this area. It is superior in every respect and Anne Dyson writes like a dream. Tom Newkirk, University of New Hampshire. This book is unique in that it features students who draw on the cultural experiences of the Black church: sister and brother play family games, rap, and Black popular music. It should be ideal in courses on literacy learning. Arnetha Ball, School of Education, Stanford University. **The Publishers Weekly**, 1899. The American Music Teacher, 1992.

Translating Jazz Into Poetry Erik Redling, 2017-02-20. The study develops a new theoretical approach to the relationship between two media: jazz music and writing, and demonstrates its explanatory power with the help of a rich sampling of jazz poems. Currently, the mimetic approach to intermediality, e.g., the notion that jazz poetry imitates jazz music, still dominates the field of criticism. This book challenges that interpretive approach. It demonstrates that a mimetic view of jazz poetry hinders readers from perceiving the metaphoric ways poets rendered music in writing. Drawing on and extending recent cognitive metaphor theories (Lakoff, Johnson, Turner, Fauconnier), it promotes a conceptual metaphor model that allows readers to discover the innovative ways poets translate melody, dynamics, tempo, mood, and other musical elements into literal and figurative expressions that invite readers to imagine the music in their mind's eye, i.e., their mind's ear. **Journal of the American Musical Instrument Society**, American Musical Instrument Society, 1995.
