Christmas, 2018-12-01 Offers pedagogical techniques and syllabus suggestions for teaching British laboring class literature 1700 1900 in the college classroom Topics include georgic theater popular narrative satire chartist poetry labor studies cultural archaeology sailor memoirs periodicals authors of African descent working class women urban mysteries broadside ballads autobiographies and service learning **Teaching British Women Writers, 1750-1900** Jeanne Moskal, Shannon

R. Wooden, 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women s writings New curricular inclusion of these sometimes quirky often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes literature This book addresses this radically changed educational landscape offering practical proven teaching strategies for newly recovered writers both in special topics courses and in traditional teaching environments Moreover it addresses the institutional issues confronting feminist scholars who teach women writers in a variety of settings and the kinds of career altering effects the decision to teach this material can have on junior and senior scholars alike Collectively these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole not only by introducing the voices of women writers but by incorporating new genres by asking new questions about readers assumptions and aesthetic values and by altering the power relations between teacher and student for the better **Pope to Burney, 1714-1779** Moyra Haslett, 2017-03-14 This

essential guide defines literature of the eighteenth century as a literature written and received as public conversation Moyra Haslett discusses and challenges conventional ways of reading the period particularly in relation to notions of the public sphere In her wide ranging study Haslett reads key texts including The Dunciad Gulliver s Travels and Pamela in their literary and cultural contexts and examines such genres as the periodical the familiar letter the verse epistle and the novel as textual equivalents of coterie culture
