Gustav Landauer Philosopher Of Utopia:

Gustav Landauer, philosopher of Utopia Ruth Link-Salinger Hyman,1977 **Gustav Landauer, Philosopher of Utopia. With a Scholarly Bibliography...** ,1977 **Skepsis and Antipolitics: The Alternative of Gustav Landauer** ,2022-12-12 Gustav Landauer was an unconventional anarchist who aspired to a return to a communal life His antipolitical rejection of authoritarian assumptions is based on a radical linguistic scepticism that could be considered the theoretical premise of his anarchism The present volume aims to add to the existing scholarship on Landauer by shedding new light on his work focussing on the two interrelated notions of skepsis and antipolitics In a time marked by a deep doubt concerning modern politics Landauer s alternative can help us to more seriously address the struggle for a different articulation of our communitarian and ecological needs **Yearbook of the Maimonides Centre for Advanced Studies. 2018** Bill Rebiger,2018-12-17 The Yearbook mirrors the annual activities of staff and visiting fellows of the Maimonides Centre and reports on symposia workshops and lectures taking place at the Centre Although aimed at a wider audience the yearbook also contains academic articles and book reviews on scepticism in Judaism and scepticism in general Staff visiting fellows and other international scholars are invited to contribute Studies in Contemporary Jewry Jonathan Frankel,1991-06-13 The seventh volume of the acclaimed annual publication of the Institute of Contemporary Jewry at the Hebrew University of Jerusalem Jews and Messianism in the Modern Era Metaphor and Meaning examines the significance and meaning of messianic metaphors themes and ideals in modern Jewish history and culture In addition to the standard symposia book reviews and lists of recent dissertations in Jewish studies the volume includes contributions from such noted scholars of Jewish history as Jody Elizabeth Myerson on the messianic idea and Zionist ideologies Aviezer Ravitsky on Zionism and the state of Israel as anti messianic undertakings Yaacov Shavit on realism and messianism in Zionism and the Yishuv Hannan Hever on poetry and messianism in Palestine between the two world wars Paul Mendes Flohr on Jewish theological responses to political messianism in the Weimar Republic and Richard Wolin on Jewish secular messianism Liminality and the Philosophy of Presence Franziska Hoppen,2021-03-16 This book departs from the attempt by political theory to confront the challenges of political life with new concepts offering instead a mode of thought so far excluded from the canon of political theory the philosophy of presence Making the experience of liminality the very centre of thought it shows how embracing in betweenness allows us to discern the limits of both the political order and contemporary political theory Through an examination of the works of Gustav Landauer Eric Voegelin Simone Weil and V clav Havel the author demonstrates the manner in which in betweenness may be cultivated by way of the philosophy of presence as a method of self enquiry into existence as it is experienced subjectively Arguing that since externalisation is the essence of politics and that the way to a more just society lies inwards through a confrontation with liminality this study of how to read philosophers of presence renders their work intelligible to the contemporary discourse of crisis and will appeal to scholars of social political and

anthropological theory and philosophy *New Perspectives on Anarchism* Nathan J. Jun, Shane Wahl, 2010-01-01 The study of anarchism as a philosophical political and social movement has burgeoned both in the academy and in the global activist community in recent years Taking advantage of this boom in anarchist scholarship Nathan J Jun and Shane Wahl have compiled twenty six cutting edge essays on this timely topic in *New Perspectives on Anarchism* **Anarchist Portraits** Paul Avrich, 2020-11-10 From the celebrated Russian intellectuals Michael Bakunin and Peter Kropotkin to the little known Australian bootmaker and radical speaker J W Fleming this book probes the lives and personalities of representative anarchists *In the Shadow of Catastrophe* Anson Rabinbach, 2023-04-28 These essays by eminent European intellectual and cultural historian Anson Rabinbach address the writings of key figures in twentieth century German philosophy Rabinbach explores their ideas in relation to the two world wars and the horrors facing Europe at that time Analyzing the work of Benjamin and Bloch he suggests their indebtedness to the traditions of Jewish messianism In a discussion of Hugo Ball s little known Critique of the German Intelligentsia Rabinbach reveals the curious intellectual career of the Dadaist and antiwar activist turned nationalist and anti Semite His examination of Heidegger s Letter on Humanism and Jaspers s The Question of German Guilt illuminates the complex and often obscure political referents of these texts Turning to Horkheimer and Adorno s Dialectic of Enlightenment Rabinbach offers an arresting new interpretation of this central text of the critical theory of the Frankfurt School Subtly and persuasively argued his book will become an indispensable reference point for all concerned with twentieth century German history and thought This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997 These essays by eminent European intellectual and cultural historian Anson Rabinbach address the writings of key figures in twentieth century German philosophy Rabinbach explores their ideas in relation to the two world wars and the horrors facing Europe **The Marrano Way** Agata Bielik-Robson, 2022-05-09 The Marrano phenomenon is a still unexplored element of Western culture the presence of the borderline Jewish identity which avoids clear cut cultural and religious attribution and precisely as such prefigures the advent of the typically modern free oscillating subjectivity Yet the aim of the book is not a historical study of the Marranos or conversos who were forced to convert to Christianity but were suspected of retaining their Judaism undercover The book rather applies the Marrano metaphor to explore the fruitful area of mixture and cross over which allowed modern thinkers writers and artists of the Jewish origin to enter the realm of universal communication without at the same time making them relinquish their Jewishness which they subsequently developed as a hidden tradition The book poses and then attempts to prove the Marrano hypothesis according to which modern subjectivity derives to paraphrase Cohen out of the sources of the hidden Judaism modernity begins not with the Cartesian abstract ego but with the rich self reflexive self

of Michel de Montaigne who wrestled with his own marranismo in a manner that soon became paradigmatic to other Jewish thinkers entering the scene of Western modernity from Spinoza to Derrida The essays in the volume offer thus a new view of a Marrano modernity which aims to radically transform our approach to the genesis of the modern subject and shed a new light on its secret religious life as surviving the process of secularization although merely in the form of secret traces

Political Economy from Below Rob Knowles, 2017-07-05 Communitarian anarchism is a generic form of socialism that denies the need for a state or any other authority over the individual from above and which requires absolute belief that the individual cannot exist outside of a community of others This book suggests that the communitarian anarchists of the nineteenth century developed and articulated a distinct tradition of economic thought The period of this study begins with the first major writing of the French communitarian anarchist Pierre Joseph Proudhon in 1840 and ends with the temporary burial of anarchist theorizing at the beginning of the First World War in 1914 However the tradition of communitarian anarchist economic thought did not end in 1914 The economic thought explored in this book provides a fresh perception of the fragmentation evident in many societies today especially where there is a substantial informal economy

Divided Passions Paul R. Mendes-Flohr, 1991 Paul Mendes Flohr is emerging as the leading Jewish intellectual historian of the present generation In particular he is responsible for a significant amount of the important and pertinent scholarship in the field of German Jewish intellectual history No one else is quite as intimately knowledgeable with this material the ambiguous legacy of one of the most inventive and poignant episodes of creativity in the life of the Diaspora Divided Passions is a collection of published and unpublished essays and articles by Paul Mendes Flohr from the past decade In a manner that underscores their continued relevance and significance Mendes Flohr writes about the problems that Buber Rosenzweig Bloch Simon Scholem and others tried to crystallize and resolve Mendes Flohr moves with effortless authority among the disciplines of theology philosophy literature history and sociology Fitted with these interdisciplinary resources he enriches his treatment of themes and figures in ways that exceed the scope to say nothing of the execution found in other literature The book conveys a rare metaphysical depth for questions of faith identity and Dasein explored by the intellectual figures of the past are also personal ones for the author as well Mendes Flohr's exceptional ability to keep this body of work alive and available provides an outstanding

source of commentary on the subjects that dominate the agenda of modern Jewish studies *Mysticism as Modernity* William Morris Crooke, William Crooke, 2008 This work reconsiders the connections between mysticism nationalism and modernity in twentieth century German cultures Disengaging mysticism from occultism the author creates a new space for reconsidering mysticism's links to larger structures of modernity already at play at the turn of the century Rather than dismissing mysticism as a strain of anti modern irrationalism with troubling links to radical politics such as Nazism the author reconceptualizes modern mysticism as an unwittingly logical expression of the same compression of time and space created by the emergence of the newspaper radio railways and telegraph and reflected in the novels of Hermann Hesse Robert Musil and Max Frisch **Community Gardening as Social Action** Claire Nettle, 2016-05-23 There has been a resurgence of community gardening over the past decade with a wide range of actors seeking to get involved from health agencies aiming to increase fruit and vegetable consumption to radical social movements searching for symbols of non capitalist ways of relating and occupying space Community gardens have become a focal point for local activism in which people are working to contribute to food security question the erosion of public space conserve and improve urban environments develop technologies of sustainable food production foster community engagement and create neighbourhood solidarity Drawing on in depth case studies and social movement theory Claire Nettle provides a new empirical and theoretical understanding of community gardening as a site of collective social action This provides not only a more nuanced and complete understanding of community gardening but also highlights its potential challenges to notions of activism community democracy and culture **New Perspectives on Martin Buber** Michael Zank, 2006 This volume brings a range of perspectives to bear on the writings and thought of Martin Buber 1878 1965 The contributing authors include renowned Buber specialists who take a new look at Buber's legacy as well as younger scholars who work in a variety of academic disciplines and contexts including biblical studies religious studies philosophy intellectual history sociology the study of education and Jewish thought By relating the legacy of Buber to their respective area of research they are able to articulate what they find of enduring relevance in Buber's thought and writings The purpose is to explore new perspectives on Buber and on themes and issues on which he had something to say that continues to engage us The sixteen essays are grouped in six parts roughly proceeding in the chronological order of Buber's work reflecting shifts in his preoccupation and changes in his orientation The larger themes also represent different approaches to and perspectives on Buber's writings in general including critical retrospectives on his philosophy of dialogue his political utopianism and his approach to Hasidism **The Radical Papers** Dimitrios I.
