How Science Saved the Eiffel Tower Emma Bland Smith, 2022 The city of Paris wanted to tear down the Eiffel Tower Gustave Eiffel an engineer and amateur scientist had built the incredible structure for the 1889 World's Fair Created using cutting edge technology it stood taller than any other building in the world More than a million delighted people flocked to visit it during the fair But the officials wondered beyond being a spectacle what is it good for It must come down But Eiffel loved his tower He crafted a clever plan to make the tower too useful to tear down by turning it into a laboratory such as science has never had at its disposal As the date for the tower's demolition approached Eiffel raced to prove its worth Could science save the Eiffel Tower The Tallest Tower Joseph Harriss, 2004 Newly updated history of the Eiffel Tower by a veteran international journalist with photographs bibliography index Chronicles the tower's design construction and the historical context that made it a worldwide icon Interesting story interestingly told wrote The New York Times **Eiffel by Eiffel** Philippe Coupérie-Eiffel, 2014 An all inclusive panorama of the many achievements of Gustave Eiffel one of the 19th century's most remarkable architects Gustave Eiffel was the man behind the landmark that became the symbol par excellence of Paris and so the dominant image of France around the world However the work of Gustave Eiffel 1832 1923 is not limited to the tower that bears his name From 1856 when he was commissioned to design a railway bridge in Bordeaux his first large scale metal construction he imposed his style all around the world The bridge across the Douro in Portugal the Garabit viaduct the church in Manila the Manaus Municipal Market in Brazil and even the framework of the Statue of Liberty are just some of his more than 300 masterpieces Then disaster struck in 1892 when a report directly linked him to the Panama scandal that had come to light three years before This was the start of a nightmare that would ultimately turn out to be completely unjustified Deeply wounded Eiffel withdrew cloaking himself in his pride His eldest daughter stuck by him not only offering support but also building up a remarkable collection of memorabilia and documents a precious legacy which she left to her nephew Philippe Couperie Eiffel For the first time to mark the 90th anniversary of his famous ancestor's death Couperie Eiffel has updated this treasure trove and offers us the chance to get to know the great architect and family man through a wide range of previously unpublished archives This year also marks the 100th anniversary of the opening of the
