Journalism in Context Angela Phillips, 2014-09-15 Journalism in Context is an accessible introduction to the theory and practice of journalism in a changing world The book looks at the way in which power flows through media organisations influencing not only what journalists choose to present to their audiences but how they present it and then in turn what their audiences do with it Using examples from across the world as well as from her

own research Angela Phillips uses them to explain complex theoretical concepts She invites readers to consider how news is influenced by the culture from which it emerges as well as the way it is paid for and how different countries have approached the problem of ensuring that democracy is served by its media rather than being undermined by it Journalism has always been an early adopter of new technologies and the most recent changes are examined in the light of a history in which although platforms keep on changing journalism always survives The questions raised here are important for all students of journalism and all those who believe that journalism matters Journalistic Practices in Restrictive Contexts Banafsheh

Ranji, 2022-09-01 Based on fieldwork conducted in Iran this book discusses how it is possible for journalism to exist and function in a restrictive context The book brings together a range of structural macro organizational meso and individual micro processes to analyze journalistic practice in a politically restrictive setting a context thus far dominated by structural explanations Using Pierre Bourdieu's work as a starting point Banafsheh Ranji develops an explanatory framework for how Iranian journalists navigate the daily minefield of their professional environment The analysis sheds light on the everyday reality of journalism in Iran addressing factors that hinder journalists work while also showing how journalists use a set of double game strategies to simultaneously circumvent constraints and avoid retaliation Moving beyond notions of censorship and repression that accompany discussions of journalism in such settings the book instead focuses on how we may think of critical journalism professionalism and journalistic power agency and autonomy in restrictive contexts Offering powerful insights into the realities of journalism in a tightly controlled environment this book will be a key resource for scholars and students of journalism media and communication studies political science sociology Iranian studies and Middle East studies
