Suzanne B. Goldberg

Guy Hocquenghem Beyond Gay Identity:

Guy Hocquenghem Bill Marshall, 1997 Guy Hocquenghem brings an important challenging and overly neglected French theorist back to the main stage *Who's Who in Contemporary Gay and Lesbian History* Robert Aldrich, Garry Wotherspoon, 2020-10-28 First published in 2004 With subjects drawn from politics the arts and popular culture *Who's Who in Contemporary Gay and Lesbian History* includes 500 entries from a large team of expert international contributors The geographical scope takes in the whole of the Western world Includes fascinating information about little known figures as well as cult icons from World War II to the present day **Queer Theories: An Introduction** Lorenzo Bernini, 2020-08-04 This is a short and accessible introduction to the complex and evolving debates around queer theories advocating for their critical role in academia and society The book traces the roots of queer theories and argues that Foucault owed an important debt to other European authors including the feminist and homosexual liberation movements of the 1960 1970s and the anticolonial movements of the 1950s Going beyond a simple introduction to queer theories this book situates them firmly in a European and Italian context to offer a crucial set of arguments in defence of LGBTQI rights in defence of the freedom of teaching and research and in defence of a radical idea of democracy The narrative of the book is divided into three short chapters which can be read independently or in sequence The first chapter argues that queer theories are rooted in the critical philosophical tradition the second presents a critique of heterosexism and the binary inherent to the gender sexual orientation system and the third chapter sketches a history of the queer debate The book offers a useful typology of queer theories by sorting them into three basic paradigms Freudian Marxism radical constructivism and antisocial and affective theories clarifying the complexities of the nature of the debates for undergraduates The book is both accessible and original and is suitable for both specialist researchers and undergraduate students new to queer studies It will be essential reading for those studying philosophy sexuality studies and gender studies [Who's Who in Contemporary Gay and Lesbian History Vol.2](#) Robert Aldrich, Garry Wotherspoon, 2005-07-25 *Who's Who in Contemporary Gay and Lesbian History* From World War II to the Present Day provides a comprehensive modern biographical survey of homosexuality in the Western world Among those included are Controversial political activists Peter Tatchell Guy Hocquenghem Harvey Milk Pop icons David Bowie and lang Boy George Groundbreaking artists writers and filmmakers Pier Paolo Pasolini Derek Jarman David Hockney Intellectuals who have shaped and changed the modern understanding of sexuality Michel Foucault Simone de Beauvoir Alfred Kinsey Over 500 entries clear informative and enjoyable to read build up a superbly thorough overview of gay and lesbian life in our time **OK2BG** Jack Dunsmoor, 2015 *OK2BG* is narrative nonfiction a Memoir about a guy who wants to be a Mentor preferably to a teenager so they can have a decent meaningful conversation about stuff preferably with a kid at risk or just otherwise lost in order to help both the teenager as well as the determined subject of this story realize their unique potential find or reinforce their place in the world Overall a chronicle about the author's attempt over several

years to understand the question of why do I want to be a Mentor which eventually helps him become a more insightful person Subsequently in September 2010 after a plague of teen suicides Jack turns his attention to researching gay biographies into optimistically appropriate groups of books for gay kids at risk from bullying After 5 years Jack has categorized 2 000 books in the form of Memoirs Biographies Autobiographies written by or about 1 000 allegedly gay men The primary message in OK2BG is to read reassess before you run asunder

Sex, France, and Arab Men, 1962-1979 Todd Shepard, 2018-01-08 The aftermath of Algeria's revolutionary war for independence coincided with the sexual revolution in France and in this book Todd Shepard argues that these two movements are inextricably linked Sex France and Arab Men is a history of how and why from the upheavals of French Algeria in 1962 through the 1970s highly sexualized claims about Arabs were omnipresent in important public French discussions both those that dealt with sex and those that spoke of Arabs Shepard explores how the so called sexual revolution took shape in a France profoundly influenced by the ongoing effects of the Algerian revolution Shepard's analysis of both events alongside one another provides a frame that renders visible the ways that the fight for sexual liberation usually explained as an American and European invention developed out of the worldwide anticolonial movement of the mid twentieth century

What's Queer about Europe? Mireille Rosello, Sudeep Dasgupta, 2014-02-03 What's Queer about Europe examines how queer theory helps us initiate disorienting conjunctions and counterintuitive encounters for imagining historical and contemporary Europe This book queers Europe and Europeanizes queer forcing a reconsideration of both Its contributors study Europe relationally asking not so much what Europe is but what we do when we attempt to define it The topics discussed include gay marriage in Renaissance Rome Russian anarchism and gender politics in early twentieth century Switzerland colonialism and sexuality in Italy queer masculinities in European popular culture queer national identities in French cinema and gender theories and activism What these apparently disparate topics have in common is the urgency of the political legal and cultural issues they tackle Asking what is queer about Europe means probing the blind spots that continue to structure the long and discrepant process of Europeanization

Governing Sexuality Carl Stychin, 2003-07 Governing Sexuality explores issues of sexual citizenship and law reform in the United Kingdom and Continental Europe today Across western and eastern Europe lesbians and gay men are increasingly making claims for equal status grounded in the language of rights and citizenship and using the language of international human rights and European law This book uses same sex sexualities as a prism through which to explore broader questions of legal and political theory concerning democratic legitimacy rights discourse national sovereignty and identity citizenship transnationalism and globalisation Case studies are widely drawn from New Labour's sexual politics in the UK to the decriminalisation of same sex sexualities under pressure from the EU in Romania to new civil solidarity laws in France

Sexuality and Equality Law Suzanne B. Goldberg, 2017-07-05 Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once stigmatized field has become the focus of scholarly attention This volume which

includes some of the most thought provoking and hard to find essays in the field covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex and from HIV AIDS and trafficking to polygamy Through historical political and critical theoretical lenses and through a global focus the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity By placing this variety of works together Sexuality and Equality Law invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another The volume s introduction situates all of these works in the broader field and offers readers an extensive bibliography

William F. Pinar, 2019-03-26 William F Pinar presents a comprehensive and original study that demonstrates the significance and pertinence of the scholarship of George Grant for teaching today While there are studies of Grant s political philosophy there has been no sustained study of his teaching Pinar not only draws upon the collected works he has also consulted Grant s PhD thesis at Oxford as well as the philosopher s biography collected letters and the vast secondary literature What emerges is a treatise that reveals Grant s timeliness and his prescience in identifying and critiquing key educational issues nearly half a century ago from academic vocationalism and educational technology to privatization and the ascendancy of research issues that are eminently relevant today Beyond the classroom Grant s concerns extended to the impact of economic globalization which he feared would erase distinctive national histories and cultures As such Grant foresaw the current issues of right wing populism notably in the UK and the US as reactions against these historical tendencies This volume is destined to become an indispensable reference work for students of Grant in particular and for students of education in general This book is published in English S il existe des tudes portant sur la philosophie politique et la th ologie de George Grant il n y avait jusqu maintenant aucune tude soutenue sur son enseignement et plus pr cis ment sur la relation de son approche p dagogique celles ci Aucune tude ne pouvait de fa on aussi pouss e l uvre compl te y compris ses pr sentations aux enseignants et sa th se doctorale d Oxford en philosophie ou sa biographie sa correspondance et la vaste litt rature secondaire Con u comme livre de r f rence pour les adeptes de Grant de m me que comme un manuel pour les tudants en ducation cet ouvrage arrive point nomm Pinar souligne la prescience de Grant qui identifiait et critiquait il y a d j cinquante ans des questions d ordre ducationnel vocation acad mique technologie p dagogique privatisation de l enseignement ascendance de la recherche sur l enseignement qui sont d actualit Grant tait aussi pr occup par le destin de ce qu il appelait la particularit au Canada et l tranger et s inqui tait que la mondialisation conomique effacerait les histoires et cultures nationales distinctives Un tat mondial universel et homog ne les remplacerait ce qui repr senterait la pire tyrannie inflig e l humanit Grant avait vu venir le populisme de droite que l on voit actuellement prendre prise notamment au Royaume Uni et aux tats Unis comme r action ces tendances historiques Ce livre est publi en anglais
