Guyana's Great Economic Downswing, 1977-1990 Ramesh Gampat, 2020-10-19. Much of Guyana's 20th century history was defined by the PNC dictatorship and the political and economic wreckage it left behind. In *Guyana's Great Economic Downswing 1977 to 1990*, Dr Ramesh Gampat presents a comprehensive study of these specific years when the national economy contracted by 2.7 percent annually. He explores the multiple facets of the country's political tribalism which does not value freedom, liberty, and the flourishing of all people; it values only freedom, liberty, and flourishing of tribes. The study reinforces the widely held belief that until and unless these adversarial groups subsume their respective selfish interests and commit to the common cause of national peace and development, the great downswing might not rest as a historical event but could well re-emerge with further economic devastation if the lessons go unheeded. Dr Gampat makes a strong case for federalism as a solution to Guyana's ethnic politics. Federalism, he posits, would ensure that all Guyanese have equal access to opportunities and resources since a system of provincial governance would be better placed to address discriminatory policies and practices at a localised level. With the country sitting on the cusp of transformative development to be propelled by new-found oil wealth, there is an urgency to settle the divisive politics if every Guyanese is to benefit fairly and equitably from the economic boom. *Guyana's Great Economic Downswing 1977 to 1990* offers up a studied and comprehensive analysis that should be part of that bipartisan discourse going forward. Ryhaan Shah, Novelist, Social Activist. A few piecemeal academic articles analyzing Guyana's economic evolution over the period 1977 to 1990 were written but they are scattered and lost away in various journals. What was missing is a comprehensive and rigorous exploration of the era of Cooperative Socialism. Dr Ramesh Gampat's book fills this gap. It is a superb synthesis of historical, theoretical, and econometric exploration of the Great Downswing. The book not only provides estimates of important macroeconomic concepts such as Guyana's total factor productivity and long-term growth but also produces the useful statistics and reviews of poverty, inequality, life expectancy, education outcomes, as well as a detailed analysis of the rice sector. As if these are not enough, Gampat sets the tone by situating the exploration in the country's long-standing and debilitating ethno-political dynamics. This self-contained book will be of tremendous use to policy makers, journalists, and students interested in the historical context of present-day outcomes. I highly recommend this book to

The context of REDD+ in Guyana Benn, V., Pham, T.T., Moeliono, M., Maharani, C., Thomas, R., Chesney, P., Dwisatrio, B., Ha, C.N., 2020-05-28 Guyana is a small country with 87 5% of its area covered with forest GFC 2018b and lies in the center of the Guiana Shield one of the four largest remaining standing tropical rainforests in the world In 2006 Guyana took advantage of the recognition of the value of standing forest to mitigate climate change and became actively engaged in REDD Subsequently in 2009 a Memorandum of Understanding was signed with Norway to support implementation of a Low Carbon Development Strategy LCDS This was a national plan to reorient Guyana's economy and move towards more sustainable extractive industries and forest management The bilateral agreement with Norway established a framework for performance related finance of up to USD 250 million from 2010 to

2015 for implementation of the LCDS Three main pillars of the LCDS linked to its REDD agenda included maintaining historically low deforestation endorsing low carbon development and adapting to climate change Bellfield et al 2015 More recently and building on the LCDS a new Green State Development Strategy Vision 2040 has been developed for Guyana as a twenty year national development policy that reflects the guiding vision and principles of the green agenda The central objective is development that provides a better quality of life for all Guyanese derived from the country s natural wealth its diversity of people and abundant natural resources land water forests mineral and aggregates biodiversity GoG 2019b p 1 Since 2009 CIFOR has conducted the Global Comparative Study GCS in 13 countries with Guyana as the final addition Among the GCS REDD case studies Guyana is one of the most advanced REDD countries alongside Brazil KorhonenKurki et al 2019 and the Norway Guyana bilateral agreement is the world s second largest national level REDD scheme Bade 2013 Yet Guyana s economy still largely depends on extractive resources with mining remaining the main driver of deforestation and forest degradation The potential revenue anticipated from offshore oil extraction might change the country s landscape and outlook putting the permanence of REDD under scrutiny The Guyana case study therefore presents many lessons on how to balance development paths without jeopardizing national forest resources

Crime, Violence and Security in the Caribbean M. Raymond Izarali,2017-11-20 Security challenges pose significant hardship for citizens of Caribbean nations Public safety is threatened by high rates of crime especially violent crime in much of the region the plague of the illicit drug trade transnational organized crime gangs the current global proliferation of crimes of terrorism and related violent extremism and radicalization The situation diminishes morale among the youth their education and their future and operates as a major push factor Yet surprisingly there has been a scarcity of scholarly work that addresses these conditions This interdisciplinary volume succinctly responds to the gap in criminological and security studies on the Caribbean by drawing attention to the understudied nexus of crime violence and security that is so pervasive in the region and the ways in which underdevelopment re creates environments for insecurity The book is organized in three parts Part one encompasses conceptualizations of crime violence and punishment Part two takes up country cases on crime and security Part three addresses issues of regional security both public and private This timely volume will be valuable reading for scholars students practitioners and policy makers who share a critical interest in the scope impact and inter

relationality of crime violence and in security in the region

Diversification perspectives of Guyana's agrifood sector

weber, r., bubbico, a., morales opazo, c.,2022-08-05 Guyana's agrifood systems are facing an increasing level of risk rising sea levels are eroding its coastal area where much of the agricultural activity is located recent off shore oil discoveries threaten to crowd out non oil sectors and a dependency on a limited number of agricultural export commodities exposes the agricultural sector to price and market volatility The diversification of agricultural production and exports has the potential to generate growth and increase the resilience of the agricultural sector This study identifies Guyana's diversification potential using comparative advantage and export sophistication metrics which are combined for a proximity analysis based on Guyana's production space The objective is to identify a set of commodities with high export potential which is in relative proximity to the current agrifood export basket We find oil seeds bovine meat sunflower seed oil fish flours for animal feed palm oil fowl cocoa beans cocoa paste and sunflower seeds to be commodities with high export potential These commodities share characteristics with the current agrifood export basket This implies that expanding the exports of these goods will not be costly and is likely to promote economic development agricultural sector growth and reduce risks associated with market concentration

Issues in Guyana's Development Winston Felix,2015-08-30 Although it has been more than a century since Guyana and Venezuela border dispute was settled Venezuela continues to shift its foreign policy away from compliance with its international obligations It is approximately 128 years since diplomatic relations were severed between Venezuela and Great Britain over the border issue At the insistence of Venezuela the United States considered the controversy as falling within the purview of the Monroe Doctrine Consequently the United States pressured Great Britain into making an Agreement with Venezuela in 1897 Unlike Venezuela which is over two centuries old it has been 49 years since Guyana gained its independence from Great Britain Since that time there have been several challenges to the country s Development It will be shown that some of these challenges have had devastated consequences for Development The operating premise is that a country s development objectives are best attained if there is a stable political climate

Harvesting Freedom Gabriel Allahdua,2023-03-07 In this singular firsthand account a former migrant worker reveals a disturbing system of exploitation at the heart of Canada s farm labour system When Gabriel Allahdua applied to the Seasonal Agricultural Worker Program in Canada he thought he would be leaving his home in St Lucia to work in a country with a sterling human rights reputation and commitment to multiculturalism Instead breakneck quotas and a culture of fear dominated his four years in a mega greenhouse in Ontario This deeply personal memoir takes readers behind the scenes to see what life is really like for the people who produce Canada s food Now as a leading activist in the migrant justice movement in Canada Gabriel is fighting back against the Canadian government to demand rights and respect for temporary foreign labourers Harvesting Freedom shows Canada s place in the long history of slavery colonialism and inequality that has linked the Caribbean to the wider world for half a

millennium but also the tireless determination of Caribbean people to fight for their freedom **Guyana: from Slavery to the Present** Ramesh Gampat, 2015-04-15 It is common knowledge that slavery and indenture were characterized by long hours of physical labor restriction of movement and other basic human freedoms and severe punishment for violations of draconian labor laws Less well known is the fact that nutrition was very deficient and a range of infectious diseases maimed debilitated and killed on a large scale In trying to narrow the knowledge gap with respect to Guyana Ramesh Gampat shows that extremely poor sanitary conditions awful hygiene and malnutrition hastened widespread infections and created a vicious cycle The British protected its own soldiers officials and colonists by establishing a medical enclave that lasted until Emancipation in 1838 Former slaves were then quarantined to neglected and decaying villages and Indians to plantations Concern with health conditions appeared only during periods of epidemics and even then it was essentially for the protection of Europeans Colonial medicine opened the way for stereotyping labeling racialization of disease neutralization of potential leaders in the struggle for justice and crystallization of the view that Europeans were superior to Blacks and Indians Shorter stature and shorter life expectancy are good indications that slaves and indentured immigrants fared considerably less well than Europeans Several infectious diseases sickened and fell Blacks and Indians including malaria and undefined fevers pneumonia and bronchitis diarrhea and enteritis tuberculosis pneumonia and hookworm The conquest of malaria in the early 1950s accelerated the epidemiological transition from communicable to chronic noncommunicable diseases and today NCDs account for some three quarters of all deaths in Guyana Malaria has reemerged fueled by a gold boom that consumes huge amounts of mercury The potentially adverse public health consequences of this relatively new dynamic the combined trio have been neglected **The SAGE International Encyclopedia of Travel and Tourism** Linda L.
