Gwathmey Siegel Buildings And Projects 1965 :

Gwathmey Siegel Brad Collins,2000 Stern Frank Gehry and Michael Graves is among American architecture s most important BOOK JACKET The Grove Encyclopedia of American Art Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries *The Design Encyclopedia* Mel Byars,2004 Design has an increasingly high profile figures like Philippe Starck are as venerated and well known as more traditional artists But where the literature on fine art is vast design is still comparatively ill served This encyclopedia provides an account of the still largely unknown story of design **Charles Gwathmey and Robert Siegel** Charles Gwathmey,1984 **Encyclopedia of Twentieth Century Architecture** R. Stephen Sennott,2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclope dia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century s vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries *Gwathmey Siegel* Gwathmey Siegel & Associates Architects,2003 Rizzoli s second monograph on this distinguished New York firm This sequel presents the exquisite residential work for which the firm is so justifiably renowned from private apartments in Manhattan to houses in Switzerland and California Also shown are cultural and institutional works The volume also covers the firm s recent corporate work Back cover of book jacket New York Architecture Amanda Johnson,2003 This newest title in the Universe architecture series is a popular survey and iconic history of New York City architecture A must have for architects students and New Yorkers the book includes an in depth study of twenty five of New York s most important buildings Organized chronologically the projects cover the major architectural periods in New York as affected by changes in the city s population economy politics and historic events The book examines such classic landmarks as Grand Central Station the Flatiron Building and Gracie Mansion such renowned skyscrapers as the Woolworth Building the Chrysler Building and the Empire State Building and recent architectural masterpieces such as the LVMH building completed a year ago **Architectural Jet Lag** Angie S.H.,2012-02-23 Informative relevant and useful Architectural Jet Lag features the in depth analysis of significant architectural concepts definitions and frameworks Written by Angie S H this riveting book shares a concrete idea of what architecture is and what it is not A boon to every student professional and even to the academic world this compilation can be a useful source material for everyone who has the immense interest in the industry In this book the author perspicaciously outlines the correlation between the human body and the theological framework of architecture This read signifies that just like jet lag which is the circadian clock s out of synchronization with the destination time as it experiences daylight and darkness contrary to the

rhythms to which it has grown accustomed the same can go for the field of architecture hence the term Architectural Jet Lag
 Angie S H suggests that one cannot categorize architecture as a free flowing concept such as art interior design creative writing or music Architecture follows a certain pattern that is tailor fit to the spatial needs of individuals Architecture as a built environment for one's daily life requires linear and concrete alignment with his paradigm Based on the author's thesis this study illustrates how architecture as build environment interacts with peoples ways of living by analyzing some case studies with their respective scientific methodology Easing Architectural Jet Lag this book introduces the G ARCH solution when applying the Western advanced architecture to the Eastern culture and social logic of space Groundbreaking and compelling the authentic ideas in this exceptional read will transform readers perception and educate them about the various considerations in the intricate world of architecture

The Oxford Dictionary of Architecture James Stevens Curl, Susan Wilson, 2015-02-26 Containing over 6 000 entries from Aalto to Zwinger and written in a clear and concise style this authoritative dictionary covers architectural history in detail from ancient times to the present day It also includes concise biographies of hundreds of architects from history excluding living persons from Sir Francis Bacon and Imhotep to Liang Ssu ch eng and Francis Inigo Thomas The text is complemented by over 260 beautiful and meticulous line drawings labelled cross sections and diagrams These include precise drawings of typical building features making it easy for readers to identify particular period styles This third edition of The Oxford Dictionary of Architecture has been extensively revised and expanded with over 900 new entries including hundreds of definitions of garden and landscape terms such as Baroque garden floral clock hortus conclusus and Zen garden design Each entry is followed by a mini bibliography with suggestions for further reading The full bibliography to the first edition previously only available online has also been fully updated and expanded and incorporated into this new edition This is an essential work of reference for anyone with an interest in architectural and garden history With clear descriptions providing in depth analysis it is invaluable for students professional architects art historians and anyone interested in architecture and garden design and provides a fascinating wealth of information for the general reader

Gwathmey Siegel Stanley Abercrombie, 1981 Morningside Heights Andrew S. Dolkart, 2001-03-15 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan In this carefully crafted volume Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons surveys the major debates related to that decision and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945 He then provides a historical overview of the events in question beginning with the decision and program to build the atomic bomb Detailing the sequence of events leading to Japan's surrender he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders Finally Kort examines ten key issues in the discussion of Hiroshima
