Gynaecological Cancer:

Gynaecological Cancers in Australia, 2012 *Gynaecological Cancer Care* Tish Lancaster, Kathryn Nattress, 2018-08-08

Gynaecological cancers represent the second most common group of cancers and the most common cause of cancer death in woman but the needs of women with gynaecological cancer are frequently unrecognised and often neglected A diagnosis of gynaecological cancer can threaten a woman s body image fertility sexuality femininity relationships and various roles in life Nurses and other health professionals who care for women with gynaecological cancer require a resource that covers a range of issues in depth and breadth if they are to provide comprehensive care This book offers a rich resource of material presented in a stimulating style It provides expert practical person centred evidence based advice for nurses and other health professionals who care for women with gynaecological cancer **Gynaecological Cancers** Sean Kehoe, Richard J. Edmondson, Martin Gore, 2011-06 This book provides comprehensive coverage of gynaecological malignancies based on the 60th RCOG Study Group **Atlas of Staging in Gynecological Cancer** J. Richard Smith, Jeremiah Healy, Giuseppe Del Priore, 2007-09-28 Atlas of Staging in Gynecological Cancer is designed to be used in conjunction with diagnostic procedures between the surgeon and the radiologist It describes the two common staging regimes used by all units across the world namely the FIGO staging system and the TNM system The landscape format allows each chapter to open on the left hand side and read across the double spread enabling the reader to see both staging systems at once Each chapter has a separate section on Epidemiology Diagnosis with radiological plates Management in tabular form and Key Points The book takes the reader through each gynaecologic cancer with a short text accompanying clear radiographic images with legends Staging is also shown in pictorial form in order to aid clarity The book will be of particular interest to the multi disciplinary team who looks after this group of patients namely clinical and radiation oncologists surgeons pathologists radiologists and specialist nurses all with their respective trainees **Gynecologic Cancers** Kunle Odunsi, MD, Tanja Pejovic, MD, 2013-10-09

Gynecologic Cancers summarizes issues related to the treatment of gynecologic cancer including descriptions of optimal multidisciplinary care utilizing all available modalities as well as related issues such as screening and prevention management for special populations psychological support and emerging directions in future treatment **Biopsychosocial Factors in Obstetrics and Gynaecology** Leroy C. Edozien, P. M. Shaughn O'Brien, 2017-08-24 This text covers the wide spectrum of biopsychosocial factors integral to all aspects of obstetrics gynaecology and women s health *Principles and Practice of Gynecologic Oncology* Richard R. Barakat, Maurie Markman, Marcus Randall, 2009 Providing comprehensive coverage of the biology of gynecologic cancer the therapeutic modalities available and the diagnosis and treatment of site specific malignancies this edition has 30 percent new contributing authors and new material A companion Web site offers a fully searchable text **Gynaecological Cancer** Thomas J. Deeley, 1971 Principles and Practice of Gynecologic Oncology William J. Hoskins, 2005 This updated Fourth Edition provides comprehensive coverage of the biology of

gynecologic cancer the therapeutic modalities available and the diagnosis and treatment of site specific malignancies Because of the importance of multimodality treatment the site specific chapters are co authored by a surgical oncologist a medical oncologist a radiation oncologist and a pathologist A significant portion of this edition focuses on monoclonal antibodies vaccines and gene directed therapies and how they can greatly improve treatment outcomes A new chapter on end of life care is also included Three distinguished new editors Richard R Barakat MD Maurie Markman MD and Marcus E Randall MD now join the editorial team Gynecologic Cancer Patricia J. Eifel, David M. Gershenson, John J. Kavanagh, Elvio G. Silva, 2006-04-19 Gynecologic cancer includes cancer of the female lower genital tract vagina vulva cervix endometrium uterus and ovaries Gynecologic Cancer is the fourth volume in the M D Anderson Cancer Care Series featuring the current standard approach to gynecologic cancer care from the experts at M D Anderson Cancer Center Designed for the practicing oncologist this clinical guidebook allows for quick authoritative access to the latest and best multimodality therapies Topics covered in this volume include primary prevention and early detection preinvasive diseases of female lower genital tract pathology and imaging of gynecologica malignancies treatment of vaginal cervical endometrial uterine cancers Discussions also address fertility sparing options for treatment of women with gynecologica cancers as well as sexuality in women with gyn malignancies Each of the 20 chapters ends with an up to date list of suggested readings as well as key practice points highlighting the most principles and practices of each chapter for at a glance reference More than 80 illustrations complement the text This thorough practical volume is the essential clinical guide for the oncologists surgeons and all physicians involved in the care of patients with gynecologic cancer

Controversies in the Management of Gynecological Cancers Jonathan A. Ledermann, Carien L. Creutzberg, Michael A. Quinn, 2013-12-13 This is a novel text that highlights the controversial areas in the management of gynecological cancers None of the topics in this book have definitive answers they represent the everyday decision making facing gynecologists oncologists radiologists pathologists and other health professionals treating women with these conditions This book is not to be used as a traditional textbook it is a text that specialists and trainees will use to help them weigh up the arguments that exist in a variety of areas in the treatment of gynecological cancers Each chapter will have two or more authors selected either for their opposing views or for their ability to provide an opposite view or opinion to the other The content will be evidence based illustrating contrasting evidence and scientific opinion in the literature Each chapter will close on a summary indicating the direction of research needed to address the issues being discussed Gynaecological Oncology for the MRCOG Mahmood Shafi, Helen Bolton, Ketankumar Gajjar, 2018-04-19 Written with the MRCOG examination requirements at its core this book offers an extensive and up to date review of the full range of gynaecological cancers The principles of epidemiology imaging and treatment modalities are presented in a succinct and clinically focused manner Each gynaecological cancer features in a stand alone chapter incorporating information on clinical issues staging and principles of management Genetic conditions and surgical principles

are analysed as well as topics such as palliative care holistic approaches and communication RCOG guidelines and Scientific Advisory Committee advice feature throughout the book While authoritative and factual the text is concise and clear Flow charts and diagrams support the assimilation of complex information while practical tips management algorithms and clinical images enhance each chapter Essential for those preparing for the MRCOG examination this book is a comprehensive resource for health professionals working with gynaecological cancers and those who want to further understand gynaecological oncology
