Habermas And The Public Sphere Studies In Contemporary German Social Thought

Gil G. Noam, Thomas E. Wren

Habermas And The Public Sphere Studies In Contemporary German Social Thought:

Habermas and the Public Sphere Craig Calhoun,1993-03-02 In this book scholars from a wide range of disciplines respond to Habermas s most directly relevant work The Structural Transformation of the Public Sphere The relationship between civil society and public life is in the forefront of contemporary discussion No single scholarly voice informs this discussion more than that of J rgen Habermas His contributions have shaped the nature of debates over critical theory feminism cultural studies and democratic politics In this book scholars from a wide range of disciplines respond to Habermas s most directly relevant work The Structural Transformation of the Public Sphere From political theory to cultural criticism from ethics to gender studies from history to media studies these essays challenge refine and extend our understanding of the social foundations and changing character of democracy and public discourse Contributors Hannah Arendt Keith Baker Seyla Benhabib Harry C Boyte Craig Calhoun Geoff Eley Nancy Fraser Nicholas Garnham J rgen Habermas Peter Hohendahl Lloyd Kramer Benjamin Lee Thomas McCarthy Moishe Postone Mary P Ryan Michael Schudson Michael Warner David Zaret

The Structural Transformation of the Public Sphere Jürgen Habermas, 1989-01 This is Jurgen Habermas s most concrete historical sociological book and one of the key contributions to political thought in the postwar period It will be a revelation to those who have known Habermas only through his theoretical writing to find his later interests in problems of legitimation of rationalization and of communicative action foreshadowed in this lucid study of the origins nature and evolution of public opinion in democratic societies Among the topics discussed are the origins of the category of publicity in the 18th century the rise of social institutions like newspapers coffeehouses and reading societies that provided for the formation and articulation of public opinion and the way in which public opinion came to be assigned specific political responsibilities within liberal democracies Habermas s concern is with the rise of a politically active and informed public in England France and Germany and the declining role of that public with the emergence of modern social welfare states His ultimate subject and the focus of his later work is the possibility of democracy under the radically changed socioeconomic political and cultural conditions of present day society Jurgen Habermas is Professor of Philosophy at the University of Frankfurt The Structural Transformation of the Public Sphere is included in the series Studies in Contemporary German Social Thought edited by Thomas McCarthy

International Encyclopedia of Civil Society Helmut K. Anheier, Stefan Toepler, 2009-11-24 Recently the topic of civil society has generated a wave of interest and a wealth of new information Until now no publication has attempted to organize and consolidate this knowledge The International Encyclopedia of Civil Society fills this gap establishing a common set of understandings and terminology and an analytical starting point for future research Global in scope and authoritative in content the Encyclopedia offers succinct summaries of core concepts and theories definitions of terms biographical entries on important figures and organizational profiles In addition it serves as a reliable and up to date guide to additional sources of information In sum the Encyclopedia provides an overview of the contours of civil society social capital philanthropy and

nonprofits across cultures and historical periods For researchers in nonprofit and civil society studies political science economics management and social enterprise this is the most systematic appraisal of a rapidly growing field

Communication Ethics and Universal Values Clifford G. Christians, Michael Traber, 1997-01-28 This volume is designed to revolutionize the field of communication by identifying a broad ethical theory which transcends the world of mass media practice to reveal a more humane and responsible code of values The contributors representing a diverse range of intercultural perspectives defend the possibility of universal moral imperatives such as justice reciprocity and human dignity Through an examination of the values in which their cultures are grounded they provide a short list of ethical principles which form the common ground from which to view contemporary issues in the media interpersonal communication mediation and conflict resolution Civil Society and Political Theory Jean L. Cohen, Andrew Arato, 1994-03-29 In this first serious work on the theory of civil society to appear in many years Jean Cohen and Andrew Arato contend that the concept of civil society articulates a contested terrain in the West that could become the primary locus for the expansion of democracy and rights In this major contribution to contemporary political theory Jean Cohen and Andrew Arato argue that the concept of civil society articulates a contested terrain in the West that could become a primary locus for the expansion of democracy The Structural Transformation of the Public Sphere Jurgen Habermas, 1991-08-28 This is J rgen Habermas s and rights most concrete historical sociological book and one of the key contributions to political thought in the postwar period It will be a revelation to those who have known Habermas only through his theoretical writing to find his later interests in problems of legitimation and communication foreshadowed in this lucid study of the origins nature and evolution of public opinion in democratic societies The Liberal Internet in the Postliberal Era Johannes Thumfart, 2024-09-16 This book begins with an examination of the internet as a central institution of the post Cold War liberal order From this starting point Johannes Thumfart analyzes the contemporary rise of digital sovereignty in Asia and Europe alongside the establishment of private government within digital networks He interprets these phenomena as indications of an emerging postliberal era Thumfart engages with a wide array of empirical research and assesses liberal ideals such as state and net neutrality by discussing thinkers like Hegel Schmitt Mouffe Taylor Sandel Fukuyama Anderson Jasanoff and Girard as well as network and rational choice theories He contends that the internet's reification of liberal values has paradoxically subverted these values and catalyzed the transition to postliberalism Thumfart suggests that instead of adhering to the traditional liberal focus on neutrality states should adopt the more flexible approach of neutralization to respond to the complexities of this digital and Varieties of Transition Claus Offe, 1997 The nine essays in this volume explore such topics as the postliberal era characteristics and shortcomings of state socialist societies and of democratic capitalism the role of ethnic politics in East European transitions issues of retribution and restitution in the transition to a democratic society based on a private economy and the effects the collapse of Communism have had on Western democracies and on the Left in particular

Early Modern Women's Work Patricia Anne Simpson, 2025-04-16 Early Modern Women's Work examines the contributions of female writers artists scientists religious leaders and patrons who engaged in entrepreneurial intellectual and emotional labor in German speaking Europe Through individual and collective authorship the women analyzed in this study assert a claim to kinship and community often beyond the hegemonic heteronormative relationships to family religion and monarch The contributions of early modern women to the construction of productive work spaces and the establishment of intellectual and actual communities are often overlooked or underestimated in scholarship on this period This book serves as a cultural corrective to suppositions of gender coded work because alongside the dominant history of the private sphere as a feminine domain a counter narrative emerges with collective authorship Despite the disparities in their biographies the women whose work Simpson foregrounds highlight a range of early modern concerns primarily but not exclusively in German speaking Europe These include debates about women s education and erudition migration and displacement in search of religious or professional freedom a persistent but varied discourse about female authorship and creative agency and the assertion of subjectivity against the violent fractious history of the Thirty Years War and beyond This book will be an ideal resource for students scholars and all those interested in German and European studies women and gender studies and the history of early modern work Constrained Elitism and Contemporary Democratic Theory Timothy Kersey, 2016-01-08 Today examples of the public s engagement with political issues through commercial and communicative mechanisms have become increasingly common In February 2012 the Susan G Komen Foundation reversed a decision to cease funding of cancer screening programs through Planned Parenthood amidst massive public disapproval The same year restaurant chain Chic fil A became embroiled in a massive public debate over statements its President made regarding same sex marriage What exactly is going on in such public engagement and how does this relate to existing ideas regarding the public sphere and political participation Is the public becoming increasingly vocal in its complaints Or are new relationships between the public and economic and political leaders emerging Timothy Kersey's book asserts that the widespread utilization of internet communications technologies especially social media applications has brought forth a variety of new communicative behaviors and relationships within liberal polities Through quick and seemingly chaotic streams of networked communication the actions of these elites are subject to increasingly intense scrutiny and short term pressure to ameliorate or at least address the concerns of segments of the population By examining these new patterns of behavior among both elites and the general public Kersey unearths the implications of these patterns for contemporary democratic theory and argues that contemporary conceptualizations of the public need to be modified to more accurately reflect practices of online communication and participation By engaging with this topical issue Kersey is able to closely examine the self organization of both elite and non elite segments of the population within the realm of networked communication and the relations and interactions between these segments His book combines perspectives from political theory and communication studies and

so will be widely relevant across both disciplines The Power of Dialogue Hans-Herbert Kögler, 1999 Exemplifying a fruitful fusion of French and German approaches to social theory The Power of Dialogue transforms Jurgen Habermas s version of critical theory into a new critical hermeneutics that builds on both Hans Georg Gadamer's philosophical hermeneutics and Michel Foucault's studies of power and discourse At the book's core is the question of how social power shapes and influences meaning and how the process of interpretation while implicated in social forms of power can nevertheless achieve reflective distance and a critique of power It offers an original perspective on such issues as the impact of prejudice and cultural background on scientific interpretation the need to understand others without assimilating their otherness and the truth of interpretation Saving Liberalism from Itself Timothy Stacey, 2022-06 In the wake of populism Timothy Stacey s book critically reflects on what is missing from the liberal project with the aim of saving liberalism It explains that populists have harnessed myth ritual magic and tradition to advance their ambitions and why opponents need to embrace rather than eschew them Cyberactivism and Citizen Journalism in Egypt Courtney C. Radsch, 2016-09-23 This compelling book explores how Egyptian bloggers used citizen journalism and cyberactivism to chip away at the state s monopoly on information and recalibrate the power dynamics between an authoritarian regime and its citizens When the Arab uprisings broke out in early 2011 and ousted entrenched leaders across the region social media and the Internet were widely credited with playing a role particularly when the Egyptian government shut down the Internet and mobile phone networks in an attempt to stave off the unrest there But what these reports missed were the years of grassroots organizing digital activism and political awareness raising that laid the groundwork for this revolutionary change Radsch argues that Egyptian bloggers created new social movements using blogging and social media often at significant personal risk so that less than a decade after the information revolution came to Egypt they successfully mobilized the overthrow of the state and Media in the Digital Age John Vernon Pavlik, 2008 Digital technologies have fundamentally altered the its president nature and function of media in our society This book critically examines digital innovations and their positive and negative The Moral Self Gil G. Noam, Thomas E. Wren, 1993 This follow up to The Moral Domain carries forward the implications exploration of new ways of modeling moral behavior This follow up to The Moral Domain carries forward the exploration of new ways of modeling moral behavior Whereas the first volume emphasized the work of Lawrence Kohlberg and the tradition of cognitive development The Moral Self presents a paradigm that also incorporates noncognitive structures of selfhood The concerns of the sixteen essays include the diversity of moral outlooks the dynamics of creating a moral self cognitive and noncognitive prerequisites of the psychological development of autonomy and moral competence and motivation and moral personality Contributors and ContentPart I Conceptual Foundations Harry Frankfurt Am lie Oksenberg Rorty Ernst Tugendhat Ernest S Wolf Thomas Wren Part II Building a New Paradigm Augusto Blasi Anne Colby William Damon Helen Haste Mordecai Nisan Gil G Noam Larry Nucci John Lee Part III Empirical Investigation Monika Keller Wolfgang Edelstein

Lothar Krappmann Leo Montada Gertrud Nunner Winkler Ervin Staub The Golem in German Social Theory Gad Ya'ir, Michaela Soyer, 2008-01-01 The Golem in German Social Theory provides an innovative and bold interpretation of German social theory Authors Gad Yair and Michaela Soyer argue that the mythological story of the Golem rising over its master provides the basic code which animated German social theory from the 19th century until the 21st century Yair and Soyer illustrate how the Golem run mad narrative permeates the history of modern German social thought and how it now provides a convenient literary tool for re reading German critiques of the Enlightenment modernity capitalism and progress The Golem in German Social Theory points out a family resemblance that unites German theorists enhancing interpretation of their writings and understanding of their moral vehemence **The Sovereignty of Art** Christoph Menke, 1998 In this book Christoph Menke attempts to explain art s sovereign power to subvert reason without falling into an error common to Adorno s negative dialectics and Derrida s deconstruction Recent discussions of aesthetics whether in the hermeneutic or the analytic tradition understand the place of art and aesthetic experience according to a model of autonomy as just one among the many modes of experience that make up the realm of reason situated beside the other spheres of value In contrast Theodor Adorno and Jacques Derrida view art and aesthetic experience as a medium for the dissolution of nonaesthetic reason an experientially enacted critique of reason Art is not only autonomous following its own law different from nonaesthetic reason but sovereign it subverts the rule of reason In this book Christoph Menke attempts to explain art s sovereign power to subvert reason without falling into an error common to Adorno s negative dialectics and Derrida s deconstruction The error which already appeared in romanticism is to conceive of the sovereignty of art as reflecting the superiority of its knowledge For art entails no knowledge and its negativity toward reason cannot be articulated as an insight into the nature of reason art is sovereign not despite but because of its autonomy Menke brings to his arguments a firm grounding in both philosophy and literary studies as well as familiarity with German French and American sources

Staging Buenos Aires Kristen L. McCleary,2024-07-15 Staging Buenos Aires centers theater as a source of historical inquiry to understand how nonelites experienced and shaped a city undergoing dramatic transformations Commercial theater constituted the core of the city s public sphere one in which middle class playwrights and audiences assumed the leading role Audiences and critics often disagreed about what was acceptable entertainment Playwrights used theater to promote their own ideas of sociopolitical change creating a space for working and middle class audiences to identify and push back against imposed regulations and attitudes Cultural production on the city s stages revealed fissures and social anxieties about the expansion of the political system and of the public sphere as women became increasingly visible in urban spaces At the same time theater also gave structure and meaning to these rapid changes providing the space for the city s playwrights and complex publics to play a key role in identifying processing and shaping the transforming nation Plays helped audience members work through dramatic shifts in societal norms as urbanization and industrialization resulted in the visible decline

of patriarchal social structures made most visible in the urban sphere **Beyond Hegel and Nietzsche** Elliot L. Jurist,2002-01-25 Are Hegel and Nietzsche philosophical opposites Can twentieth century Continental philosophers be categorized as either Hegelians or Nietzscheans In this book Elliot Jurist places Hegel and Nietzsche in conversation with each other reassessing their relationship in a way that affirms its complexity Jurist examines Hegel s and Nietzsche s claim that philosophy and culture are linked and explicates the various meanings of culture in their work in particular the contrast both thinkers draw between ancient and modern culture He evaluates their positions on the failure of modern culture and on the need to develop conceptions of satisfied agency It is Jurist's original contribution to focus on the psychological sensibility that informs the project of both philosophers Writing in an admirably clear style he traces the ongoing legacy of Hegel's and Nietzsche's thought in Adorno Habermas Honneth Jessica Benjamin Heidegger Derrida Lacan and Butler **Global Justice and Transnational Politics** Pablo De Greiff, Ciaran Cronin, Ciaran P. Cronin, 2002 Essays exploring the prospects for transnational democracy in a world of increasing globalization
